Byron Gross, an attorney representing Ricky Tovim, Psy.D., presented a petition to the Board to amend Title 16, California Code of Regulations section 1387(b)(9). He stated that existing regulations create a roadblock by not allowing trainees to function under another mental health license while accruing hours of supervised professional experience toward licensure as a psychologist. He stated that it is not feasible for his client to work under a psychologist since insurance companies won't pay for services provided under someone else's license.

He stated that he is concerned that we accept degrees from approved schools which is not in compliance with the model act.

The Board requested that a discussion on how to reduce non-compliance rates be included on the agenda for the February meeting.

Agenda Item #10 – Regulation Hearing

Title 16, California Code of Regulations Sections 1397.60 – 1397.7 – Continuing Education Requirements

The Board conducted a regulation hearing regarding the continuing education requirements. The proposed regulations will redefine the Board's continuing education provider approval system to make it consistent with other states and will also restructure the process for compliance monitoring and reporting.

Jo Linder-Crow, Ph.D., Executive Director of the California Psychological Association provided oral testimony. She pointed out to the Board that the proposed language may create some unintended consequences. She stated that as the proposed language is currently written, licensees who are accruing hours of continuing education prior to the effective date of the regulation change would not be able to count those hours towards their continuing education requirements. She also stated that continuing education providers who are currently approved by the MCEP Accrediting Agency (MCEPAA) need sufficient time to make the transition from being an MCEPAA provider to being a provider approved by the American Psychological Association (APA). She stated that APA accepts applications from providers only twice each year and that the providers need to be given enough time to go through the APA application process once the regulations are approved. The proposed changes would implement the new regulations effective January 1, 2012 which may not give providers enough time to obtain APA approval.

Dr. Linder-Crow recommended adding language to state that continuing education hours that are currently being accrued can be counted under the new regulations. She also recommended amending the effective date of the regulations to January 1, 2013.

The Board also reviewed a written comment submitted by Dr. Linder-Crow expressing CPA's concerns regarding the issues brought forth in her oral testimony.

Mark W. Baker, Ph.D., submitted two written comments in opposition of the proposed changes. He urged the Board to allow the MCEPAA to continue to certify providers in California. He stated that if the MCEPAA stops approving providers, his center would no longer be able to provide continuing education for California psychologists. The Board noted that Dr. Baker can continue to provide continuing education to California psychologists under the new regulations by obtaining APA approval. It was also noted that the proposed changes will bring California in line with the national standards for continuing education.

Marilyn S. Jacobs, Ph.D., submitted a written comment questioning why the American Board of Professional Psychology (ABPP) is being removed as an approved sponsor of continuing education. The Board pointed out that ABPP is also an approved APA provider, therefore, the courses offered through ABPP will still be accepted under the proposed changes.

Lourdes Price submitted a written comment requesting clarification regarding the proposed regulations and how it affects her standing as an MCEPAA approved provider. Ms. Kassis replied to Ms. Price's email and answered her questions. She also provided instruction to provide further comments for consideration by the Board.

Barbara W. Fass, Ph.D. submitted a written comment in support of the proposed regulations.

Cindy Martinez, Ph.D. submitted a written comment expressing her concerns about the cost of becoming an APA provider. The Board stated that they have taken the fees charged by APA into consideration and have determined that the costs are not prohibitive to continuing education providers in California compared to the fees that were being charged to become an MCEPAA provider. Dr. Martinez also submitted a written comment expressing her concerns that the proposed regulations will create a monopoly for APA and CPA, allowing them to charge whatever they want for continuing education courses. The Board stated that the proposed changes does not constitute a monopoly on the part of APA and CPA, and that these organizations have systems in place for approving providers and the fees that are charged for that service.

Prescribing Psychologists' Register, Inc. (PPR) submitted a written comment requesting that additional local and national continuing education providers, including PPR, be reconsidered for inclusion in the proposed regulations. PPR also requested that all current MCEPAA providers be included as accepted providers of continuing education in the proposed regulations. The Board noted PPR's request does not coincide with the range of the current proposal. The current proposal allows recognized national and state associations of psychologists to serve as approvers of continuing education providers rather than associations of psychologists with a single focus to serve as continuing education providers. The proposed regulations allow for such entities to apply to one of the identified approvers of continuing education providers rather than being singly identified by the board as a provider under the regulations.

Dr. Sherman stated that this proposal is a positive step in keeping up with the national standards. He noted that there were very few comments considering the number of licensees affected. He also commented that he is comfortable relying on CPA's expertise in recommending a January 1, 2013 implementation date.

Agenda Item #11 – Consideration and Adoption of Proposed Regulatory Language

Consideration and Adoption of Proposed Regulatory Language to Amend Title 16, California Code of Regulations Sections 1397.60 – 1397.7 – Continuing Education Requirements

It was M(McGhee)/S(Acquaye-Baddoo)/C to amend the language to extend the implementation date of the proposal to January 1, 2013 and to ensure that continuing education accrued prior to the implementation date under the current continuing education requirements will be accepted, and to issue a 15-day notice of modified text.

Vote: 6 – 0

It was M(Cadow)/S(McGhee)/C to delegate the authority to Executive Officer to adopt the regulations in the absence of any negative comments to the modified text.

Vote: 6 – 0

Mr. Kahane reported that the hiring freeze continues. He noted that the Board has an Enforcement Technician position open due to resignation, which we are not allowed to fill under Governor Schwarzenegger's recent order. He stated that this position is 25 percent of our enforcement team. The positions acquired for the Consumer Protection Enforcement Initiative are also unable to be filled at this time, for the same reason. In addition, the Associate Governmental Program Analyst position for that program was changed to limited term only.

b) Budget Update

Mr. Kahane noted certain budget issues which have been dealt with by the Board staff, also reminding the Board that another 2.4 million dollars was taken from our special fund reserve this year to augment the state's general fund. The Board continues with a four-month reserve for operating expenses, reduced from six months per direction from the budget analysts at the Department of Consumer Affairs. c) Contracts for Subject Matter Experts and Consultants

Mr. Kahane informed the Board of the new individual contract requirements regarding enforcement experts and subject matter experts.

d) Board Operations

Mr. Kahane discussed that licensing times are being reduced now that everyone has returned. He stated that staff cubicles were reconfigured in order to accommodate the new authorized CPEI positions. Due to the hiring freeze and prior to learning these positions were limited term, another configuration would have been done.

e) 2011 Revised Calendar

Mr. Kahane presented the 2011 calendar for Board review.

f) Outreach Update

Mr. Kahane stated consumer and professional outreach has been extremely limited due to department restrictions for most events including in-state travel. The Board will submit a request for the Executive Officer to attend the ASPPB conference in April 2011. Dr. Rodolfa stated that he hopes that Board members will be included in the request to attend the ASPPB conference. Mr. Kahane, Mr. Thomas and Dr. Sherman will be speaking at the Iranian Psychological Association Meeting in January.

g) Other Informational Items

Mr. Kahane noted other-informational items of interest to the Board. Legal and Admin are checking on the media rules for the Board's upcoming Twitter site. The BOP update will be a living document on-line. We will be sending postcards requesting e-mail addresses and telling them to access the on-line BOP update. It is still awaiting review and formatting. The Executive Officer and the Assistant Executive Officer attended a session regarding the two proposals for the Breeze project.
