They provide a means for redress of grievances by investigating allegations of unprofessional conduct, incompetence, fraudulent action, or unlawful activity brought to their attention by members of the public and institute disciplinary action against persons licensed or registered under the provisions of this code when such action is warranted. In addition, they conduct periodic checks of licensees, registrants, or otherwise certified persons in order to ensure compliance with the relevant sections of this code.

§ 125.9. System for issuance of citations to licensees; Contents;

Fines

(a) Except with respect to persons regulated under Chapter 11 (commencing with Section 7500), any board, bureau, or commission within the department, the State Board of Chiropractic Examiners, and the Osteopathic Medical Board of California, may establish, by regulation, a system for the issuance to a licensee of a citation which may contain an order of abatement or an order to pay an administrative fine assessed by the board, bureau, or commission where the licensee is in violation of the applicable licensing act or any regulation adopted pursuant thereto.

(b) The system shall contain the following provisions:

(1) Citations shall be in writing and shall describe with particularity the nature of the violation, including specific reference to the provision of law determined to have been violated.

(2) Whenever appropriate, the citation shall contain an order of abatement fixing a reasonable time for abatement of the violation.

(3) In no event shall the administrative fine assessed by the board, bureau, or commission exceed five thousand dollars (\$5,000) for each inspection or each investigation made with respect to the violation, or five thousand dollars (\$5,000) for each violation or count if the violation involves fraudulent billing submitted to an insurance company, the Medi-Cal program, or Medicare. In assessing a fine, the board, bureau, or commission shall give due consideration to the appropriateness of the amount of the fine with respect to factors such as the gravity of the violation, the good faith of the licensee, and the history of previous violations.

(4) A citation or fine assessment issued pursuant to a citation shall inform the licensee that if the licensee desires a hearing to contest the finding of a

violation, that hearing shall be requested by written notice to the board, bureau, or commission within 30 days of the date of issuance of the citation or assessment. If a hearing is not requested pursuant to this section, payment of any fine shall not constitute an admission of the violation charged. Hearings shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(5) Failure of a licensee to pay a fine or comply with an order of abatement, or both, within 30 days of the date of assessment or order, unless the citation is being appealed, may result in disciplinary action being taken by the board, bureau, or commission. Where a citation is not contested and a fine is not paid, the full amount of the assessed fine shall be added to the fee for renewal of the license. A license shall not be renewed without payment of the renewal fee and fine.

(c) The system may contain the following provisions:

(1) A citation may be issued without the assessment of an administrative fine.

(2) Assessment of administrative fines may be limited to only particular violations of the applicable licensing act.

(d) Notwithstanding any other provision of law, if a fine is paid to satisfy an assessment based on the finding of a violation, payment of the fine and compliance with the order of abatement, if applicable, shall be represented as satisfactory resolution of the matter for purposes of public disclosure.

(e) Administrative fines collected pursuant to this section shall be deposited in the special fund of the particular board, bureau, or commission.

Each board shall notify the complainant of the final action taken on the complainant’s complaint. There shall be a notification made in every case in which the complainant is known. If the complaint is not within the jurisdiction of the board or if the board is unable to dispose satisfactorily of the complaint, the board shall transmit the complaint together with any evidence or information it has concerning the complaint to the agency, public or private, whose authority in the opinion of the board will provide the most effective means to

secure the relief sought. The board shall notify the complainant of this action and of any other means that may be available to the complainant to secure relief.

(c) The board shall, when the board deems it appropriate, notify the person against whom the complaint is made of the nature of the complaint, may request appropriate relief for the complainant, and may meet and confer with the complainant and the licensee in order to mediate the complaint. Nothing in this subdivision shall be construed as authorizing or requiring any board to set or to modify any fee charged by a licensee.

(d) It shall be the continuing duty of the board to ascertain patterns of complaints and to report on all actions taken with respect to those patterns of complaints to the director and to the Legislature at least once per year. The board shall evaluate those complaints dismissed for lack of jurisdiction or no violation and recommend to the director and to the Legislature at least once per year the statutory changes it deems necessary to implement the board's functions and responsibilities under this section.

(e) It shall be the continuing duty of the board to take whatever action it deems necessary, with the approval of the director, to inform the public of its functions under this section.

(f) Notwithstanding any other law, upon receipt of a child custody evaluation report submitted to a court pursuant to Chapter 6 (commencing with Section 3110) of Part 2 of Division 8 of the Family Code, the board shall notify the noncomplaining party in the underlying custody dispute, who is a subject of that report, of the pending investigation.

§ 139. Policy for examination development and validation, and occupational analysis

(a) The Legislature finds and declares that occupational analyses and examination validation studies are fundamental components of licensure programs. It is the intent of the Legislature that the policy developed by the department pursuant to subdivision (b) be used by the fiscal, policy, and sunset review committees of the Legislature in their annual reviews of these boards, programs, and bureaus.

(b) Notwithstanding any other provision of law, the department shall develop, in consultation with the boards, programs, bureaus, and divisions under its jurisdiction, and the Osteopathic Medical Board of California and the State Board of Chiropractic Examiners, a policy regarding examination development and validation, and occupational analysis. The department shall finalize and distribute this policy by September 30, 1999, to each of the boards, programs, bureaus, and divisions under its jurisdiction and to the Osteopathic Medical Board of California and the State Board of Chiropractic Examiners. This policy shall be submitted in draft form at least 30 days prior to that date to the appropriate fiscal, policy, and sunset review committees of the Legislature for review. The evaluation shall include (1) a description of the occupational analysis serving as the basis for the examination; (2)

sufficient item analysis data to permit a psychometric evaluation of the items; (3) an assessment of the appropriateness of prerequisites for admittance to the examination; and (4) an estimate of the costs and personnel required to perform these functions. The evaluation shall be revised and a new evaluation submitted to the director whenever, in the judgment of the board, program, or bureau, there is a substantial change in the examination or the prerequisites for admittance to the examination.

(d) The evaluation may be conducted by the board, program, or bureau, the Office of Professional Examination Services of the department, the Osteopathic Medical Board of California, or the State Board of Chiropractic Examiners or pursuant to a contract with a qualified private testing firm. A board, program, or bureau that provides for development or administration of a licensing examination pursuant to contract with a public or private entity may rely on an occupational analysis or item analysis conducted by that entity. The department shall compile this information, along with a schedule specifying when examination validations and occupational analyses shall be performed, and submit it to the appropriate fiscal, policy, and sunset review committees of the Legislature by September 30 of each year. It is the intent of the Legislature that the method specified in this report be consistent with the policy developed by the department pursuant to subdivision (b).

A certified copy of the record of the disciplinary action taken against the licensee by another state, an agency of the federal government, or another country shall be conclusive evidence of the events related therein.

(c) By January 1, 2010, the committee shall formulate uniform and specific standards in each of the following areas that each healing arts board shall use in dealing with substance-abusing licensees, whether or not a board chooses to have a formal diversion program:

(1) Specific requirements for a clinical diagnostic evaluation of the licensee, including, but not limited to, required qualifications for the providers evaluating the licensee.

(2) Specific requirements for the temporary removal of the licensee from practice, in order to enable the licensee to undergo the clinical diagnostic evaluation described in paragraph (1) and any treatment recommended by the evaluator described in paragraph (1) and approved by the board, and specific criteria that the licensee must meet before being permitted to return to practice on a full-time or part-time basis.

(3) Specific requirements that govern the ability of the licensing board to communicate with the licensee's employer about the licensee's status and condition.

(4) Standards governing all aspects of required testing, including, but not limited to, frequency of testing, randomness, method of notice to the licensee, number of hours between the provision of notice and the test, standards for specimen collectors, procedures used by specimen collectors, the permissible locations of testing, whether the collection process must be observed by the collector, backup testing requirements when the licensee is on vacation or otherwise unavailable for local testing, requirements for the laboratory that analyzes the specimens, and the required maximum timeframe from the test to the receipt of the result of the test.

(5) Standards governing all aspects of group meeting attendance requirements, including, but not limited to, required qualifications for group meeting facilitators, frequency of required meeting attendance, and methods of documenting and reporting attendance or nonattendance by licensees.

(6) Standards used in determining whether inpatient, outpatient, or other type of treatment is necessary.

(7) Worksite monitoring requirements and standards, including, but not limited to, required qualifications of worksite monitors, required methods of monitoring by worksite monitors, and required reporting by worksite monitors.

BOARD OF PSYCHOLOGY

(8) Procedures to be followed when a licensee tests positive for a banned substance.

(9) Procedures to be followed when a licensee is confirmed to have ingested a banned substance.

(10) Specific consequences for major violations and minor violations. In particular, the committee shall consider the use of a “deferred prosecution” stipulation similar to the stipulation described in Section 1000 of the Penal Code, in which the licensee admits to self-abuse of drugs or alcohol and surrenders his or her license. That agreement is deferred by the agency unless or until the licensee commits a major violation, in which case it is revived and the license is surrendered.

(11) Criteria that a licensee must meet in order to petition for return to practice on a full-time basis.

(12) Criteria that a licensee must meet in order to petition for reinstatement of a full and unrestricted license.

(13) If a board uses a private-sector vendor that provides diversion services, standards for immediate reporting by the vendor to the board of any and all noncompliance with any term of the diversion contract or probation; standards for the vendor’s approval process for providers or contractors that provide diversion services, including, but not limited to, specimen collectors, group meeting facilitators, and worksite monitors; standards requiring the vendor to disapprove and discontinue the use of providers or contractors that fail to provide effective or timely diversion services; and standards for a licensee’s termination from the program and referral to enforcement.

(14) If a board uses a private-sector vendor that provides diversion services, the extent to which licensee participation in that program shall be kept confidential from the public.

(15) If a board uses a private-sector vendor that provides diversion services, a schedule for external independent audits of the vendor’s performance in adhering to the standards adopted by the committee.

(16) Measurable criteria and standards to determine whether each board’s method of dealing with substance-abusing licensees protects patients from harm and is effective in assisting its licensees in recovering from substance abuse in the long term.

(d) Notwithstanding any other law, by January 1, 2019, the committee shall review the existing criteria for Uniform Standard #4 established pursuant to paragraph (4) of subdivision (c). The committee’s review and findings shall determine whether the existing criteria for Uniform Standard #4 should be updated to reflect recent developments in testing research and technology. The committee shall consider information from, but not limited to, the American Society of Addiction Medicine, and other sources of best practices.

CHAPTER 2

DENIAL OF LICENSES

HISTORY: Added Stats 1972 ch 903 § 1.

§ 480. Grounds for denial by board; Effect of obtaining certificate of rehabilitation

(a) Notwithstanding any other provision of this code, a board may deny a license regulated by this code on the grounds that the applicant has been convicted of a crime or has been subject to formal discipline only if either of the following conditions are met:

(1) The applicant has been convicted of a crime within the preceding seven years from the date of application that is substantially related to the qualifications, functions, or duties of the business or profession for which the application is made, regardless of whether the applicant was incarcerated for that crime, or the applicant has been convicted of a crime that is substantially related to the qualifications, functions, or duties of the business or profession for which the application is made and for which the applicant is presently incarcerated or for which the applicant was released from incarceration within the preceding seven years from the date of application. However, the preceding seven-year limitation shall not apply in either of the following situations:

(A) The applicant was convicted of a serious felony, as defined in Section 1192.7 of the Penal Code or a crime for which registration is required pursuant to paragraph (2) or (3) of subdivision (d) of Section 290 of the Penal Code.

(B) The applicant was convicted of a financial crime currently classified as a felony that is directly and adversely related to the fiduciary qualifications, functions, or duties of the business or profession for which the application is made, pursuant to regulations adopted by the board, and for which the applicant is seeking licensure under any of the following:

- (i) Chapter 6 (commencing with Section 6500) of Division 3.
- (ii) Chapter 9 (commencing with Section 7000) of Division 3.
- (iii) Chapter 11.3 (commencing with Section 7512) of Division 3.

BUSINESS & PROFESSIONS CODE

(iv) Licensure as a funeral director or cemetery manager under Chapter 12 (commencing with Section 7600) of Division 3.

(v) Division 4 (commencing with Section 10000).

(2) The applicant has been subjected to formal discipline by a licensing board in or outside California within the preceding seven years from the date of application based on professional misconduct that would have been cause for discipline before the board for which the present application is made and that is substantially related to the qualifications, functions, or duties of the business or profession for which the present application is made. However, prior disciplinary action by a licensing board within the preceding seven years shall not be the basis for denial of a license if the basis for that disciplinary action was a conviction that has been dismissed pursuant to Section 1203.4, 1203.4a, 1203.41, 1203.42, or 1203.425 of the Penal Code or a comparable dismissal or expungement. Formal discipline that occurred earlier than seven years preceding the date of application may be grounds for denial of a license only if the formal discipline was for conduct that, if committed in this state by a physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2, would have constituted an act of sexual abuse, misconduct, or relations with a patient pursuant to Section 726 or sexual exploitation as defined in subdivision (a) of Section 729.

(b) Notwithstanding any other provision of this code, a person shall not be denied a license on the basis that the person has been convicted of a crime, or on the basis of acts underlying a conviction for a crime, if that person has obtained a certificate of rehabilitation under Chapter 3.5 (commencing with Section 4852.01) of Title 6 of Part 3 of the Penal Code, has been granted clemency or a pardon by a state or federal executive, or has made a showing of rehabilitation pursuant to Section 482.

(c) Notwithstanding any other provision of this code, a person shall not be denied a license on the basis of any conviction, or on the basis of the acts underlying the conviction, that has been dismissed pursuant to Section 1203.4, 1203.4a, 1203.41, 1203.42, or 1203.425 of the Penal Code, or a comparable dismissal or expungement. An applicant who has a conviction that has been dismissed pursuant to Section 1203.4, 1203.4a, 1203.41, or 1203.42 of the Penal Code shall provide proof of the dismissal if it is not reflected on the report furnished by the Department of Justice.

(d) Notwithstanding any other provision of this code, a board shall not deny a license on the basis of an arrest that resulted in a disposition other than a conviction, including an arrest that resulted in an infraction, citation, or a juvenile adjudication.

(e) A board may deny a license regulated by this code on the ground that the applicant knowingly made a false statement of fact that is required to be revealed in the application for the license. A board shall not deny a license based solely on an applicant's failure to disclose a fact that would not have been cause for denial of the license had it been disclosed.

BOARD OF PSYCHOLOGY

(f) A board shall follow the following procedures in requesting or acting on an applicant's criminal history information:

(1) A board issuing a license pursuant to Chapter 3 (commencing with Section 5500), Chapter 3.5 (commencing with Section 5615), Chapter 10 (commencing with Section 7301), Chapter 20 (commencing with Section 9800), or Chapter 20.3 (commencing with Section 9880), of Division 3, or Chapter 3 (commencing with Section 19000) or Chapter 3.1 (commencing with Section 19225) of Division 8 may require applicants for licensure under those chapters to disclose criminal conviction history on an application for licensure.

(2) Except as provided in paragraph (1), a board shall not require an applicant for licensure to disclose any information or documentation regarding the applicant's criminal history. However, a board may request mitigating information from an applicant regarding the applicant's criminal history for purposes of determining substantial relation or demonstrating evidence of rehabilitation, provided that the applicant is informed that disclosure is voluntary and that the applicant's decision not to disclose any information shall not be a factor in a board's decision to grant or deny an application for licensure.

(3) If a board decides to deny an application for licensure based solely or in part on the applicant's conviction history, the board shall notify the applicant in writing of all of the following:

(A) The denial or disqualification of licensure.

(B) Any existing procedure the board has for the applicant to challenge the decision or to request reconsideration.

(C) That the applicant has the right to appeal the board's decision.

(D) The processes for the applicant to request a copy of the applicant's complete conviction history and question the accuracy or completeness of the record pursuant to Sections 11122 to 11127 of the Penal Code.

(g)(1) For a minimum of three years, each board under this code shall retain application forms and other documents submitted by an applicant, any notice provided to an applicant, all other communications received from and provided to an applicant, and criminal history reports of an applicant.

(2) Each board under this code shall retain the number of applications received for each license and the number of applications requiring inquiries regarding criminal history. In addition, each licensing authority shall retain all of the following information:

(A) The number of applicants with a criminal record who received notice of denial or disqualification of licensure.

(B) The number of applicants with a criminal record who provided evidence of mitigation or rehabilitation.

(C) The number of applicants with a criminal record who appealed any denial or disqualification of licensure.

(D) The final disposition and demographic information, consisting of voluntarily provided information on race or gender, of any applicant described in subparagraph (A), (B), or (C).

(3)(A) Each board under this code shall annually make available to the public through the board's internet website and through a report submitted to the appropriate policy committees of the Legislature deidentified information collected pursuant to this subdivision. Each board shall ensure confidentiality of the individual applicants.

(B) A report pursuant to subparagraph (A) shall be submitted in compliance with Section 9795 of the Government Code.

(h) "Conviction" as used in this section shall have the same meaning as defined in Section 7.5.

(i) This section does not in any way modify or otherwise affect the existing authority of the following entities in regard to licensure:

- (1) The State Athletic Commission.
- (2) The Bureau for Private Postsecondary Education.
- (3) The California Horse Racing Board.

CHAPTER 3

SUSPENSION AND REVOCATION OF LICENSES

HISTORY: Added Stats 1972 ch 903 § 1.

§ 490. Grounds for suspension or revocation; Discipline for substantially related crimes; Conviction; Legislative findings

(a) In addition to any other action that a board is permitted to take against a licensee, a board may suspend or revoke a license on the ground that the licensee has been convicted of a crime, if the crime is substantially related to the qualifications, functions, or duties of the business or profession for which the license was issued.

(b) Notwithstanding any other provision of law, a board may exercise any authority to discipline a licensee for conviction of a crime that is independent of the authority granted under subdivision (a) only if the crime is substantially related to the qualifications, functions, or duties of the business or profession for which the licensee's license was issued.

(c) A conviction within the meaning of this section means a plea or verdict of guilty or a conviction following a plea of nolo contendere. An action that a board is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under Section 1203.4 of the Penal Code.

(d) The Legislature hereby finds and declares that the application of this section has been made unclear by the holding in *Petropoulos v. Department of Real Estate* (2006) 142 Cal.App.4th 554, and that the holding in that case has placed a significant number of statutes and regulations in question, resulting in potential harm to the consumers of California from licensees who have been convicted of crimes. Therefore, the Legislature finds and declares that this section establishes an independent basis for a board to impose discipline upon a licensee, and that the amendments to this section made by Chapter 33 of the Statutes of 2008 do not constitute a change to, but rather are declaratory of, existing law.

(a) Notwithstanding any other law, in a proceeding conducted by a board within the department pursuant to law to deny an application for a license or to suspend or revoke a license or otherwise take disciplinary action against a person who holds a license, upon the ground that the applicant or the licensee has been convicted of a crime substantially related to the qualifications, functions, and duties of the licensee in question, the record of conviction of the crime shall be conclusive evidence of the fact that the conviction occurred, but only of that fact.

§ 494. Interim suspension or restriction order

(a) A board or an administrative law judge sitting alone, as provided in subdivision (h), may, upon petition, issue an interim order suspending any licentiate or imposing license restrictions, including, but not limited to, mandatory biological fluid testing, supervision, or remedial training. The petition shall include affidavits that demonstrate, to the satisfaction of the board, both of the following:

(1) The licentiate has engaged in acts or omissions constituting a violation of this code or has been convicted of a crime substantially related to the licensed activity.

(2) Permitting the licentiate to continue to engage in the licensed activity, or permitting the licentiate to continue in the licensed activity without restrictions, would endanger the public health, safety, or welfare.

(b) No interim order provided for in this section shall be issued without notice to the licentiate unless it appears from the petition and supporting documents that serious injury would result to the public before the matter could be heard on notice.

(c) Except as provided in subdivision (b), the licentiate shall be given at least 15 days’ notice of the hearing on the petition for an interim order. The notice shall include documents submitted to the board in support of the petition. If the order was initially issued without notice as provided in subdivision (b), the licentiate shall be entitled to a hearing on the petition within 20 days of the issuance of the interim order without notice. The licentiate shall be given notice of the hearing within two days after issuance of the initial interim order, and shall receive all documents in support of the petition. The failure of the board to provide a hearing within 20 days following the issuance of the interim order without notice, unless the licentiate waives his or her right to the hearing, shall result in the dissolution of the interim order by operation of law.

BOARD OF PSYCHOLOGY

(d) At the hearing on the petition for an interim order, the licentiate may:

(1) Be represented by counsel.

(2) Have a record made of the proceedings, copies of which shall be available to the licentiate upon payment of costs computed in accordance with the provisions for transcript costs for judicial review contained in Section 11523 of the Government Code.

(3) Present affidavits and other documentary evidence.

(4) Present oral argument.

(e) The board, or an administrative law judge sitting alone as provided in subdivision (h), shall issue a decision on the petition for interim order within five business days following submission of the matter. The standard of proof required to obtain an interim order pursuant to this section shall be a preponderance of the evidence standard. If the interim order was previously issued without notice, the board shall determine whether the order shall remain in effect, be dissolved, or modified.

(f) The board shall file an accusation within 15 days of the issuance of an interim order. In the case of an interim order issued without notice, the time shall run from the date of the order issued after the noticed hearing. If the licentiate files a Notice of Defense, the hearing shall be held within 30 days of the agency's receipt of the Notice of Defense. A decision shall be rendered on the accusation no later than 30 days after submission of the matter. Failure to comply with any of the requirements in this subdivision shall dissolve the interim order by operation of law.

(g) Interim orders shall be subject to judicial review pursuant to Section 1094.5 of the Code of Civil Procedure and shall be heard only in the superior court in and for the Counties of Sacramento, San Francisco, Los Angeles, or San Diego. The review of an interim order shall be limited to a determination of whether the board abused its discretion in the issuance of the interim order. Abuse of discretion is established if the respondent board has not proceeded in the manner required by law, or if the court determines that the interim order is not supported by substantial evidence in light of the whole record.

(h) The board may, in its sole discretion, delegate the hearing on any petition for an interim order to an administrative law judge in the Office of Administrative Hearings. If the board hears the noticed petition itself, an administrative law judge shall preside at the hearing, rule on the admission and exclusion of evidence, and advise the board on matters of law. The board shall exercise all other powers relating to the conduct of the hearing but may delegate any or all of them to the administrative law judge. When the petition has been delegated to an administrative law judge, he or she shall sit alone and exercise all of the powers of the board relating to the conduct of the hearing. A decision issued by an administrative law judge sitting alone shall be final when it is filed with the board. If the administrative law judge issues an interim order without notice, he or she shall preside at the noticed hearing, unless unavailable, in which case another administrative law judge may hear the matter. The decision of the administrative law judge sitting alone on the

BUSINESS & PROFESSIONS CODE

petition for an interim order is final, subject only to judicial review in accordance with subdivision (g).

(i) Failure to comply with an interim order issued pursuant to subdivision (a) or (b) shall constitute a separate cause for disciplinary action against any licentiate, and may be heard at, and as a part of, the noticed hearing provided for in subdivision (f). Allegations of noncompliance with the interim order may be filed at any time prior to the rendering of a decision on the accusation. Violation of the interim order is established upon proof that the licentiate was on notice of the interim order and its terms, and that the order was in effect at the time of the violation. The finding of a violation of an interim order made at the hearing on the accusation shall be reviewed as a part of any review of a final decision of the agency.

If the interim order issued by the agency provides for anything less than a complete suspension of the licentiate from his or her business or profession, and the licentiate violates the interim order prior to the hearing on the accusation provided for in subdivision (f), the agency may, upon notice to the licentiate and proof of violation, modify or expand the interim order.

(j) A plea or verdict of guilty or a conviction after a plea of *nolo contendere* is deemed to be a conviction within the meaning of this section. A certified record of the conviction shall be conclusive evidence of the fact that the conviction occurred. A board may take action under this section notwithstanding the fact that an appeal of the conviction may be taken.

(k) The interim orders provided for by this section shall be in addition to, and not a limitation on, the authority to seek injunctive relief provided in any other provision of law.

(l) In the case of a board, a petition for an interim order may be filed by the executive officer. In the case of a bureau or program, a petition may be filed by the chief or program administrator, as the case may be.

(m) "Board," as used in this section, shall include any agency described in Section 22, and any allied health agency within the jurisdiction of the Medical Board of California. Board shall also include the Osteopathic Medical Board of California and the State Board of Chiropractic Examiners. The provisions of this section shall not be applicable to the Medical Board of California, the Board of Podiatric Medicine, or the State Athletic Commission.

§ 494.5. Agency actions when licensee is on certified list; Definitions; Collection and distribution of certified list information; Timing; Notices; Challenges by applicants and licensees; Release forms; Interagency agreements; Fees; Remedies; Inquiries and disclosure of information; Severability

(a)(1) Except as provided in paragraphs (2), (3), and (4), a state governmental licensing entity shall refuse to issue, reactivate, reinstate, or renew a

BOARD OF PSYCHOLOGY

license and shall suspend a license if a licensee's name is included on a certified list.

(2) The Department of Motor Vehicles shall suspend a license if a licensee's name is included on a certified list. Any reference in this section to the issuance, reactivation, reinstatement, renewal, or denial of a license shall not apply to the Department of Motor Vehicles.

(3) The State Bar of California may recommend to refuse to issue, reactivate, reinstate, or renew a license and may recommend to suspend a license if a licensee's name is included on a certified list. The word "may" shall be substituted for the word "shall" relating to the issuance of a temporary license, refusal to issue, reactivate, reinstate, renew, or suspend a license in this section for licenses under the jurisdiction of the California Supreme Court.

(4) The Department of Alcoholic Beverage Control may refuse to issue, reactivate, reinstate, or renew a license, and may suspend a license, if a licensee's name is included on a certified list.

(b) For purposes of this section:

(1) "Certified list" means either the list provided by the State Board of Equalization or the list provided by the Franchise Tax Board of persons whose names appear on the lists of the 500 largest tax delinquencies pursuant to Section 7063 or 19195 of the Revenue and Taxation Code, as applicable.

(2) "License" includes a certificate, registration, or any other authorization to engage in a profession or occupation issued by a state governmental licensing entity. "License" includes a driver's license issued pursuant to Chapter 1 (commencing with Section 12500) of Division 6 of the Vehicle Code. "License" excludes a vehicle registration issued pursuant to Division 3 (commencing with Section 4000) of the Vehicle Code.

(3) "Licensee" means an individual authorized by a license to drive a motor vehicle or authorized by a license, certificate, registration, or other authorization to engage in a profession or occupation issued by a state governmental licensing entity.

(4) "State governmental licensing entity" means any entity listed in Section 101, 1000, or 19420, the office of the Attorney General, the Department of Insurance, the Department of Motor Vehicles, the State Bar of California, the Department of Real Estate, and any other state agency, board, or commission that issues a license, certificate, or registration authorizing an individual to engage in a profession or occupation, including any certificate, business or occupational license, or permit or license issued by the Department of Motor Vehicles or the Department of the California Highway Patrol. "State governmental licensing entity" shall not include the Contractors State License Board.

(c) The State Board of Equalization and the Franchise Tax Board shall each submit its respective certified list to every state governmental licensing entity. The certified lists shall include the name, social security number or taxpayer

BUSINESS & PROFESSIONS CODE

identification number, and the last known address of the persons identified on the certified lists.

(d) Notwithstanding any other law, each state governmental licensing entity shall collect the social security number or the federal taxpayer identification number from all applicants for the purposes of matching the names of the certified lists provided by the State Board of Equalization and the Franchise Tax Board to applicants and licensees.

(e)(1) Each state governmental licensing entity shall determine whether an applicant or licensee is on the most recent certified list provided by the State Board of Equalization and the Franchise Tax Board.

(2) If an applicant or licensee is on either of the certified lists, the state governmental licensing entity shall immediately provide a preliminary notice to the applicant or licensee of the entity's intent to suspend or withhold issuance or renewal of the license. The preliminary notice shall be delivered personally or by mail to the applicant's or licensee's last known mailing address on file with the state governmental licensing entity within 30 days of receipt of the certified list. Service by mail shall be completed in accordance with Section 1013 of the Code of Civil Procedure.

(A) The state governmental licensing entity shall issue a temporary license valid for a period of 90 days to any applicant whose name is on a certified list if the applicant is otherwise eligible for a license.

(B) The 90-day time period for a temporary license shall not be extended. Only one temporary license shall be issued during a regular license term and the term of the temporary license shall coincide with the first 90 days of the regular license term. A license for the full term or the remainder of the license term may be issued or renewed only upon compliance with this section.

(C) In the event that a license is suspended or an application for a license or the renewal of a license is denied pursuant to this section, any funds paid by the applicant or licensee shall not be refunded by the state governmental licensing entity.

(f)(1) A state governmental licensing entity shall refuse to issue or shall suspend a license pursuant to this section no sooner than 90 days and no later than 120 days of the mailing of the preliminary notice described in paragraph (2) of subdivision (e), unless the state governmental licensing entity has received a release pursuant to subdivision (h). The procedures in the administrative adjudication provisions of the Administrative Procedure Act (Chapter 4.5 (commencing with Section 11400) and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code) shall not apply to the denial or suspension of, or refusal to renew, a license or the issuance of a temporary license pursuant to this section.

(2) Notwithstanding any other law, if a board, bureau, or commission listed in Section 101, other than the Contractors State License Board, fails to take action in accordance with this section, the Department of Consumer Affairs shall issue a temporary license or suspend or refuse to issue, reactivate, reinstate, or renew a license, as appropriate.

BOARD OF PSYCHOLOGY

(g) Notices shall be developed by each state governmental licensing entity. For an applicant or licensee on the State Board of Equalization's certified list, the notice shall include the address and telephone number of the State Board of Equalization, and shall emphasize the necessity of obtaining a release from the State Board of Equalization as a condition for the issuance, renewal, or continued valid status of a license or licenses. For an applicant or licensee on the Franchise Tax Board's certified list, the notice shall include the address and telephone number of the Franchise Tax Board, and shall emphasize the necessity of obtaining a release from the Franchise Tax Board as a condition for the issuance, renewal, or continued valid status of a license or licenses.

(1) The notice shall inform the applicant that the state governmental licensing entity shall issue a temporary license, as provided in subparagraph (A) of paragraph (2) of subdivision (e), for 90 calendar days if the applicant is otherwise eligible and that upon expiration of that time period, the license will be denied unless the state governmental licensing entity has received a release from the State Board of Equalization or the Franchise Tax Board, whichever is applicable.

(2) The notice shall inform the licensee that any license suspended under this section will remain suspended until the state governmental licensing entity receives a release along with applications and fees, if applicable, to reinstate the license.

(3) The notice shall also inform the applicant or licensee that if an application is denied or a license is suspended pursuant to this section, any moneys paid by the applicant or licensee shall not be refunded by the state governmental licensing entity. The state governmental licensing entity shall also develop a form that the applicant or licensee shall use to request a release by the State Board of Equalization or the Franchise Tax Board. A copy of this form shall be included with every notice sent pursuant to this subdivision.

(h) If the applicant or licensee wishes to challenge the submission of their name on a certified list, the applicant or licensee shall make a timely written request for release to the State Board of Equalization or the Franchise Tax Board, whichever is applicable. The State Board of Equalization or the Franchise Tax Board shall immediately send a release to the appropriate state governmental licensing entity and the applicant or licensee, if any of the following conditions are met:

(1) The applicant or licensee has complied with the tax obligation, either by payment of the unpaid taxes or entry into an installment payment agreement, as described in Section 6832 or 19008 of the Revenue and Taxation Code, to satisfy the unpaid taxes.

(2) The applicant or licensee has submitted a request for release not later than 45 days after the applicant's or licensee's receipt of a preliminary notice described in paragraph (2) of subdivision (e), but the State Board of Equalization or the Franchise Tax Board, whichever is applicable, will be unable to complete the release review and send notice of its findings to the

applicant or licensee and state governmental licensing entity within 45 days after the State Board of Equalization's or the Franchise Tax Board's receipt of the applicant's or licensee's request for release. Whenever a release is granted under this paragraph, and, notwithstanding that release, the applicable license or licenses have been suspended erroneously, the state governmental licensing entity shall reinstate the applicable licenses with retroactive effect back to the date of the erroneous suspension and that suspension shall not be reflected on any license record.

(3) The applicant or licensee is unable to pay the outstanding tax obligation due to a current financial hardship. "Financial hardship" means financial hardship as determined by the State Board of Equalization or the Franchise Tax Board, whichever is applicable, where the applicant or licensee is unable to pay any part of the outstanding liability and the applicant or licensee is unable to qualify for an installment payment arrangement as provided for by Section 6832 or Section 19008 of the Revenue and Taxation Code. In order to establish the existence of a financial hardship, the applicant or licensee shall submit any information, including information related to reasonable business and personal expenses, requested by the State Board of Equalization or the Franchise Tax Board, whichever is applicable, for purposes of making that determination.

(i) An applicant or licensee is required to act with diligence in responding to notices from the state governmental licensing entity and the State Board of Equalization or the Franchise Tax Board with the recognition that the temporary license will lapse or the license suspension will go into effect after 90 days and that the State Board of Equalization or the Franchise Tax Board must have time to act within that period. An applicant's or licensee's delay in acting, without good cause, which directly results in the inability of the State Board of Equalization or the Franchise Tax Board, whichever is applicable, to complete a review of the applicant's or licensee's request for release shall not constitute the diligence required under this section which would justify the issuance of a release. An applicant or licensee shall have the burden of establishing that they diligently responded to notices from the state governmental licensing entity or the State Board of Equalization or the Franchise Tax Board and that any delay was not without good cause.

(j) The State Board of Equalization or the Franchise Tax Board shall create release forms for use pursuant to this section. When the applicant or licensee has complied with the tax obligation by payment of the unpaid taxes, or entry into an installment payment agreement, or establishing the existence of a current financial hardship as defined in paragraph (3) of subdivision (h), the State Board of Equalization or the Franchise Tax Board, whichever is applicable, shall mail a release form to the applicant or licensee and provide a release to the appropriate state governmental licensing entity. Any state governmental licensing entity that has received a release from the State Board of Equalization and the Franchise Tax Board pursuant to this subdivision shall process the release within five business days of its receipt. If the State Board

BOARD OF PSYCHOLOGY

of Equalization or the Franchise Tax Board determines subsequent to the issuance of a release that the licensee has not complied with their installment payment agreement, the State Board of Equalization or the Franchise Tax Board, whichever is applicable, shall notify the state governmental licensing entity and the licensee in a format prescribed by the State Board of Equalization or the Franchise Tax Board, whichever is applicable, that the licensee is not in compliance and the release shall be rescinded. The State Board of Equalization and the Franchise Tax Board may, when it is economically feasible for the state governmental licensing entity to develop an automated process for complying with this subdivision, notify the state governmental licensing entity in a manner prescribed by the State Board of Equalization or the Franchise Tax Board, whichever is applicable, that the licensee has not complied with the installment payment agreement. Upon receipt of this notice, the state governmental licensing entity shall immediately notify the licensee on a form prescribed by the state governmental licensing entity that the licensee's license will be suspended on a specific date, and this date shall be no longer than 30 days from the date the form is mailed. The licensee shall be further notified that the license will remain suspended until a new release is issued in accordance with this subdivision.

(k) The State Board of Equalization and the Franchise Tax Board may enter into interagency agreements with the state governmental licensing entities necessary to implement this section.

(l) Notwithstanding any other law, a state governmental licensing entity, with the approval of the appropriate department director or governing body, may impose a fee on a licensee whose license has been suspended pursuant to this section. The fee shall not exceed the amount necessary for the state governmental licensing entity to cover its costs in carrying out the provisions of this section. Fees imposed pursuant to this section shall be deposited in the fund in which other fees imposed by the state governmental licensing entity are deposited and shall be available to that entity upon appropriation in the annual Budget Act.

(m) The process described in subdivision (h) shall constitute the sole administrative remedy for contesting the issuance of a temporary license or the denial or suspension of a license under this section.

(n) Any state governmental licensing entity receiving an inquiry as to the licensed status of an applicant or licensee who has had a license denied or suspended under this section or who has been granted a temporary license under this section shall respond that the license was denied or suspended or the temporary license was issued only because the licensee appeared on a list of the 500 largest tax delinquencies pursuant to Section 7063 or 19195 of the Revenue and Taxation Code. Information collected pursuant to this section by any state agency, board, or department shall be subject to the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code). Any state governmental licensing entity that discloses on its internet website or other publication that the licensee has

BUSINESS & PROFESSIONS CODE

had a license denied or suspended under this section or has been granted a temporary license under this section shall prominently disclose, in bold and adjacent to the information regarding the status of the license, that the only reason the license was denied, suspended, or temporarily issued is because the licensee failed to pay taxes.

(o) Any rules and regulations issued pursuant to this section by any state agency, board, or department may be adopted as emergency regulations in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The adoption of these regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health, and safety, or general welfare. The regulations shall become effective immediately upon filing with the Secretary of State.

(p) The State Board of Equalization, the Franchise Tax Board, and state governmental licensing entities, as appropriate, shall adopt regulations as necessary to implement this section.

(q)(1) Neither the state governmental licensing entity, nor any officer, employee, or agent, or former officer, employee, or agent of a state governmental licensing entity, may disclose or use any information obtained from the State Board of Equalization or the Franchise Tax Board, pursuant to this section, except to inform the public of the denial, refusal to renew, or suspension of a license or the issuance of a temporary license pursuant to this section. The release or other use of information received by a state governmental licensing entity pursuant to this section, except as authorized by this section, is punishable as a misdemeanor. This subdivision may not be interpreted to prevent the State Bar of California from filing a request with the Supreme Court of California to suspend a member of the bar pursuant to this section.

(2) A suspension of, or refusal to renew, a license or issuance of a temporary license pursuant to this section does not constitute denial or discipline of a licensee for purposes of any reporting requirements to the National Practitioner Data Bank and shall not be reported to the National Practitioner Data Bank or the Healthcare Integrity and Protection Data Bank.

(3) Upon release from the certified list, the suspension or revocation of the applicant's or licensee's license shall be purged from the state governmental licensing entity's internet website or other publication within three business days. This paragraph shall not apply to the State Bar of California.

(r) If any provision of this section or the application thereof to any person or circumstance is held invalid, that invalidity shall not affect other provisions or applications of this section that can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

(s) All rights to review afforded by this section to an applicant shall also be afforded to a licensee.

BOARD OF PSYCHOLOGY

(t) Unless otherwise provided in this section, the policies, practices, and procedures of a state governmental licensing entity with respect to license suspensions under this section shall be the same as those applicable with respect to suspensions pursuant to Section 17520 of the Family Code.

(u) No provision of this section shall be interpreted to allow a court to review and prevent the collection of taxes prior to the payment of those taxes in violation of the California Constitution.

(v) This section shall apply to any licensee whose name appears on a list of the 500 largest tax delinquencies pursuant to Section 7063 or 19195 of the Revenue and Taxation Code on or after July 1, 2012.

ARTICLE 6 UNEARNED REBATES, REFUNDS, AND DISCOUNTS

HISTORY: Added Stats 1949 ch 899 § 1.

§ 650. Rebates for patient referrals; Consideration between supplier and health facility

(a) Except as provided in Chapter 2.3 (commencing with Section 1400) of Division 2 of the Health and Safety Code, the offer, delivery, receipt, or acceptance by any person licensed under this division or the Chiropractic Initiative Act of any rebate, refund, commission, preference, patronage dividend, discount, or other consideration, whether in the form of money or otherwise, as compensation or inducement for referring patients, clients, or customers to any person, irrespective of any membership, proprietary interest, or coownership in or with any person to whom these patients, clients, or customers are referred is unlawful.

(b) The payment or receipt of consideration for services other than the referral of patients that is based on a percentage of gross revenue or similar type of contractual arrangement shall not be unlawful if the consideration is commensurate with the value of the services furnished or with the fair rental value of any premises or equipment leased or provided by the recipient to the payer.

(c) The offer, delivery, receipt, or acceptance of any consideration between a federally qualified health center, as defined in Section 1396d(1)(2)(B) of Title 42 of the United States Code, and any individual or entity providing goods, items, services, donations, loans, or a combination thereof to the health center entity pursuant to a contract, lease, grant, loan, or other agreement, if that agreement contributes to the ability of the health center entity to maintain or increase the availability, or enhance the quality, of services provided to a medically underserved population served by the health center, shall be authorized only to the extent sanctioned or permitted by federal law.

(d) Except as provided in Chapter 2.3 (commencing with Section 1400) of Division 2 of the Health and Safety Code and in Sections 654.1 and 654.2 of this code, it shall not be unlawful for any person licensed under this division to refer a person to any laboratory, pharmacy, clinic, including entities exempt from licensure pursuant to Section 1206 of the Health and Safety Code, or health care facility solely because the licensee has a proprietary interest or coownership in the laboratory, pharmacy, clinic, or health care facility, provided, however, that the licensee's return on investment for that proprietary interest or coownership shall be based upon the amount of the capital

BUSINESS & PROFESSIONS CODE

investment or proportional ownership of the licensee which ownership interest is not based on the number or value of any patients referred. Any referral excepted under this section shall be unlawful if the prosecutor proves that there was no valid medical need for the referral.

(e) Except as provided in Chapter 2.3 (commencing with Section 1400) of Division 2 of the Health and Safety Code and in Sections 654.1 and 654.2 of this code, it shall not be unlawful to provide nonmonetary remuneration, in the form of hardware, software, or information technology and training services, as described in subsections (x) and (y) of Section 1001.952 of Title 42 of the Code of Federal Regulations, as amended October 4, 2007, as published in the Federal Register (72 Fed. Reg. 56632 and 56644), and as subsequently amended.

(f) "Health care facility" means a general acute care hospital, acute psychiatric hospital, skilled nursing facility, intermediate care facility, and any other health facility licensed by the State Department of Public Health under Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code.

(g) Notwithstanding this section or any other law, the payment or receipt of consideration for advertising, wherein a licensee offers or sells services through a third-party advertiser, shall not constitute a referral of patients when the third-party advertiser does not itself recommend, endorse, or otherwise select a licensee. The fee paid to the third-party advertiser shall be commensurate with the service provided by the third-party advertiser. If the licensee determines, after consultation with the purchaser of the service, that the service provided by the licensee is inappropriate for the purchaser or if the purchaser elects not to receive the service for any reason and requests a refund, the purchaser shall receive a refund of the full purchase price as determined by the terms of the advertising service agreement between the third-party advertiser and the licensee. The licensee shall disclose in the advertisement that a consultation is required and that the purchaser will receive a refund if ineligible to receive the service. This subdivision shall not apply to basic health care services, as defined in subdivision (b) of Section 1345 of the Health and Safety Code, or essential health benefits, as defined in Section 1367.005 of the Health and Safety Code and Section 10112.27 of the Insurance Code. The entity that provides the advertising shall be able to demonstrate that the licensee consented in writing to the requirements of this subdivision. A third-party advertiser shall make available to prospective purchasers advertisements for services of all licensees then advertising through the third-party advertiser in the applicable geographic region. In any advertisement offering a discount price for a service, the licensee shall also disclose the regular, nondiscounted price for that service.

(h) To the extent consistent with federal law, regulations, or guidance, the payment or receipt of consideration for internet-based advertising, appointment booking, or any service that provides information and resources to prospective patients of licensees shall not constitute a referral of a patient if

BOARD OF PSYCHOLOGY

the internet-based service provider does not recommend or endorse a specific licensee to a prospective patient.

(i) A violation of this section is a public offense and is punishable upon a first conviction by imprisonment in a county jail for not more than one year, or by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code, or by a fine not exceeding fifty thousand dollars (\$50,000), or by both that imprisonment and fine. A second or subsequent conviction is punishable by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code, or by that imprisonment and a fine of fifty thousand dollars (\$50,000).

§ 651. Dissemination of false or misleading information concerning professional services or products; Permissible advertising

(a) It is unlawful for any person licensed under this division or under any initiative act referred to in this division to disseminate or cause to be disseminated any form of public communication containing a false, fraudulent, misleading, or deceptive statement, claim, or image for the purpose of or likely to induce, directly or indirectly, the rendering of professional services or furnishing of products in connection with the professional practice or business for which he or she is licensed. A “public communication” as used in this section includes, but is not limited to, communication by means of mail, television, radio, motion picture, newspaper, book, list or directory of healing arts practitioners, Internet, or other electronic communication.

(b) A false, fraudulent, misleading, or deceptive statement, claim, or image includes a statement or claim that does any of the following:

- (1) Contains a misrepresentation of fact.
- (2) Is likely to mislead or deceive because of a failure to disclose material facts.
- (3)(A) Is intended or is likely to create false or unjustified expectations of favorable results, including the use of any photograph or other image that does not accurately depict the results of the procedure being advertised or that has been altered in any manner from the image of the actual subject depicted in the photograph or image.

(B) Use of any photograph or other image of a model without clearly stating in a prominent location in easily readable type the fact that the photograph or image is of a model is a violation of subdivision (a). For

BUSINESS & PROFESSIONS CODE

purposes of this paragraph, a model is anyone other than an actual patient, who has undergone the procedure being advertised, of the licensee who is advertising for his or her services.

(C) Use of any photograph or other image of an actual patient that depicts or purports to depict the results of any procedure, or presents “before” and “after” views of a patient, without specifying in a prominent location in easily readable type size what procedures were performed on that patient is a violation of subdivision (a). Any “before” and “after” views (i) shall be comparable in presentation so that the results are not distorted by favorable poses, lighting, or other features of presentation, and (ii) shall contain a statement that the same “before” and “after” results may not occur for all patients.

(4) Relates to fees, other than a standard consultation fee or a range of fees for specific types of services, without fully and specifically disclosing all variables and other material factors.

(5) Contains other representations or implications that in reasonable probability will cause an ordinarily prudent person to misunderstand or be deceived.

(6) Makes a claim either of professional superiority or of performing services in a superior manner, unless that claim is relevant to the service being performed and can be substantiated with objective scientific evidence.

(7) Makes a scientific claim that cannot be substantiated by reliable, peer reviewed, published scientific studies.

(8) Includes any statement, endorsement, or testimonial that is likely to mislead or deceive because of a failure to disclose material facts.

(c) Any price advertisement shall be exact, without the use of phrases, including, but not limited to, “as low as,” “and up,” “lowest prices,” or words or phrases of similar import. Any advertisement that refers to services, or costs for services, and that uses words of comparison shall be based on verifiable data substantiating the comparison. Any person so advertising shall be prepared to provide information sufficient to establish the accuracy of that comparison. Price advertising shall not be fraudulent, deceitful, or misleading, including statements or advertisements of bait, discount, premiums, gifts, or any statements of a similar nature. In connection with price advertising, the price for each product or service shall be clearly identifiable. The price advertised for products shall include charges for any related professional services, including dispensing and fitting services, unless the advertisement specifically and clearly indicates otherwise.

(d) Any person so licensed shall not compensate or give anything of value to a representative of the press, radio, television, or other communication medium in anticipation of, or in return for, professional publicity unless the fact of compensation is made known in that publicity.

(e) Any person so licensed may not use any professional card, professional announcement card, office sign, letterhead, telephone directory listing, medical list, medical directory listing, or a similar professional notice or device if it

BOARD OF PSYCHOLOGY

includes a statement or claim that is false, fraudulent, misleading, or deceptive within the meaning of subdivision (b).

(f) Any person so licensed who violates this section is guilty of a misdemeanor. A bona fide mistake of fact shall be a defense to this subdivision, but only to this subdivision.

(g) Any violation of this section by a person so licensed shall constitute good cause for revocation or suspension of his or her license or other disciplinary action.

(h) Advertising by any person so licensed may include the following:

(C) A physician and surgeon licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California may include a statement that he or she limits his or her practice to specific fields, but shall not include a statement that he or she is certified or eligible for certification by a private or public board or parent association, including, but not limited to, a multidisciplinary board or association, unless that board or association is (i) an American Board of Medical Specialties member board, (ii) a board or association with equivalent requirements approved by that physician's and surgeon's licensing board prior to January 1, 2019, or (iii) a board or association with an Accreditation Council for Graduate Medical Education approved postgraduate training program that provides complete training in that specialty or subspecialty. A physician and surgeon licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California who is certified by an organization other than a board or association referred to in clause (i), (ii), or (iii) shall not use the term "board certified" in reference to that certification, unless the physician and surgeon is also licensed under Chapter 4 (commencing with Section 1600) and the use of the term "board certified" in reference to that certification is in accordance with subparagraph (A). A physician and surgeon licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California who is certified by a board or association referred to in clause (i), (ii), or (iii) shall not use the term "board certified" unless the full name of the certifying board is also

BOARD OF PSYCHOLOGY

the California Board of Podiatric Medicine, or an organization with a Council on Podiatric Medical Education approved postgraduate training program that provides training in podiatric medicine and podiatric surgery.

The California Board of Podiatric Medicine shall adopt regulations to establish and collect a reasonable fee from each board or association applying for recognition pursuant to this subparagraph, to be deposited in the State Treasury in the Podiatry Fund, pursuant to Section 2499. The fee shall not exceed the cost of administering this subparagraph.

(i) Each of the healing arts boards and examining committees within Division 2 shall adopt appropriate regulations to enforce this section in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

Each of the healing arts boards and committees and examining committees within Division 2 shall, by regulation, define those efficacious services to be advertised by businesses or professions under their jurisdiction for the purpose of determining whether advertisements are false or misleading. Until a definition for that service has been issued, no advertisement for that service shall be disseminated. However, if a definition of a service has not been issued by a board or committee within 120 days of receipt of a request from a licensee, all those holding the license may advertise the service. Those boards and

committees shall adopt or modify regulations defining what services may be advertised, the manner in which defined services may be advertised, and restricting advertising that would promote the inappropriate or excessive use of health services or commodities. A board or committee shall not, by regulation, unreasonably prevent truthful, nondeceptive price or otherwise lawful forms of advertising of services or commodities, by either outright prohibition or imposition of onerous disclosure requirements. However, any member of a board or committee acting in good faith in the adoption or enforcement of any regulation shall be deemed to be acting as an agent of the state.

(j) The Attorney General shall commence legal proceedings in the appropriate forum to enjoin advertisements disseminated or about to be disseminated in violation of this section and seek other appropriate relief to enforce this section. Notwithstanding any other provision of law, the costs of enforcing this section to the respective licensing boards or committees may be awarded against any licensee found to be in violation of any provision of this section. This shall not diminish the power of district attorneys, county counsels, or city attorneys pursuant to existing law to seek appropriate relief.

(k) A physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) by the Medical Board of California or a doctor of podiatric medicine licensed pursuant to Article 22 (commencing with Section 2460) of Chapter 5 by the California Board of Podiatric Medicine who knowingly and intentionally violates this section may be cited and assessed an administrative fine not to exceed ten thousand dollars (\$10,000) per event. Section 125.9 shall govern the issuance of this citation and fine except that the fine limitations prescribed in paragraph (3) of subdivision (b) of Section 125.9 shall not apply to a fine under this subdivision.

§ 654.2. Referrals to organization in which licensee or family has significant beneficial interest; Required disclosure statement

(a) It is unlawful for any person licensed under this division or under any initiative act referred to in this division to charge, bill, or otherwise solicit payment from a patient on behalf of, or refer a patient to, an organization in which the licensee, or the licensee's immediate family, has a significant beneficial interest, unless the licensee first discloses in writing to the patient, that there is such an interest and advises the patient that the patient may choose any organization for the purpose of obtaining the services ordered or requested by the licensee.

(b) The disclosure requirements of subdivision (a) may be met by posting a conspicuous sign in an area which is likely to be seen by all patients who use

BOARD OF PSYCHOLOGY

the facility or by providing those patients with a written disclosure statement. Where referrals, billings, or other solicitations are between licensees who contract with multispecialty clinics pursuant to subdivision (l) of Section 1206 of the Health and Safety Code or who conduct their practice as members of the same professional corporation or partnership, and the services are rendered on the same physical premises, or under the same professional corporation or partnership name, the requirements of subdivision (a) may be met by posting a conspicuous disclosure statement at a single location which is a common area or registration area or by providing those patients with a written disclosure statement.

(c) On and after July 1, 1987, persons licensed under this division or under any initiative act referred to in this division shall disclose in writing to any third-party payer for the patient, when requested by the payer, organizations in which the licensee, or any member of the licensee's immediate family, has a significant beneficial interest and to which patients are referred. The third-party payer shall not request this information from the provider more than once a year.

Nothing in this section shall be construed to serve as the sole basis for the denial or delay of payment of claims by third party payers.

(d) For the purposes of this section, the following terms have the following meanings:

(1) "Immediate family" includes the spouse and children of the licensee, the parents of the licensee and licensee's spouse, and the spouses of the children of the licensee.

A third party payer does not include a prepaid capitated plan licensed under the Knox-Keene Health Care Service Plan Act of 1975 or Chapter 11a (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code.

(e) This section shall not apply to a "significant beneficial interest" which is limited to ownership of a building where the space is leased to the organization at the prevailing rate under a straight lease agreement or to any interest held in publicly traded stocks.

(f)(1) This section does not prohibit the acceptance of evaluation specimens for proficiency testing or referral of specimens or assignment from one clinical laboratory to another clinical laboratory, either licensed or exempt under this chapter, if the report indicates clearly the name of the laboratory performing the test.

(2) This section shall not apply to relationships governed by other provisions of this article nor is this section to be construed as permitting

relationships or interests that are prohibited by existing law on the effective date of this section.

(3) The disclosure requirements of this section shall not be required to be given to any patient, customer, or his or her representative, if the licensee, organization, or entity is providing or arranging for health care services pursuant to a prepaid capitated contract with the State Department of Health Services.

(a) Except as otherwise provided in this section, a health care practitioner shall disclose, while working, his or her name and practitioner's license status, as granted by this state, on a name tag in at least 18-point type. A health care practitioner in a practice or an office, whose license is prominently displayed, may opt to not wear a name tag. If a health care practitioner or a licensed clinical social worker is working in a psychiatric setting or in a setting that is not licensed by the state, the employing entity or agency shall have the discretion to make an exception from the name tag requirement for individual safety or therapeutic concerns. In the interest of public safety and consumer awareness, it shall be unlawful for any person to use the title "nurse" in reference to himself or herself and in any capacity, except for an individual who is a registered nurse or a licensed vocational nurse, or as otherwise provided in Section 2800. Nothing in this section shall prohibit a certified nurse assistant from using his or her title.

(b) Facilities licensed by the State Department of Social Services, the State Department of Public Health, or the State Department of Health Care Services shall develop and implement policies to ensure that health care practitioners providing care in those facilities are in compliance with subdivision (a). The State Department of Social Services, the State Department of Public Health, and the State Department of Health Care Services shall verify through periodic inspections that the policies required pursuant to subdivision (a) have been developed and implemented by the respective licensed facilities.

If the Medical Board of California or a licensing agency of another state revokes or suspends, without a stay, the license of a physician and surgeon, a peer review body is not required to file an 805 report when it takes an action as a result of the revocation or suspension. If the California Board of Podiatric Medicine or a licensing agency of another state revokes or suspends, without a stay, the license of a doctor of podiatric medicine, a peer review body is not required to file an 805 report when it takes an action as a result of the revocation or suspension. (j) No person shall incur any civil or criminal liability as the result of making any report required by this section.

(k) A willful failure to file an 805 report by any person who is designated or otherwise required by law to file an 805 report is punishable by a fine not to exceed one hundred thousand dollars (\$100,000) per violation. The fine may be imposed in any civil or administrative action or proceeding brought by or on behalf of any agency having regulatory jurisdiction over the person regarding whom the report was or should have been filed. If the person who is designated or otherwise required to file an 805 report is a licensed physician and surgeon, the action or proceeding shall be brought by the Medical Board of California. If the person who is designated or otherwise required to file an 805 report is a licensed doctor of podiatric medicine, the action or proceeding shall be brought by the California Board of Podiatric Medicine. If the person who is designated or otherwise required to file an 805 report is a licensed nurse practitioner, the action or proceeding shall be brought by the Board of Registered Nursing. The fine shall be paid to that agency but not expended until appropriated by the Legislature. A violation of this subdivision may constitute unprofessional conduct by the licensee. A person who is alleged to have violated this subdivision may assert any defense available at law. As used in this subdivision, "willful" means a voluntary and intentional violation of a known legal duty.

(l) Except as otherwise provided in subdivision (k), any failure by the administrator of any peer review body, the chief executive officer or administrator of any health care facility, or any person who is designated or otherwise required by law to file an 805 report, shall be punishable by a fine that under no circumstances shall exceed fifty thousand dollars (\$50,000) per violation. The fine may be imposed in any civil or administrative action or proceeding brought by or on behalf of any agency having regulatory jurisdiction over the person regarding whom the report was or should have been filed. If the person who is designated or otherwise required to file an 805 report is a licensed physician and surgeon, the action or proceeding shall be brought by the Medical Board of California. If the person who is designated or otherwise required to file an 805 report is a licensed doctor of podiatric medicine, the action or proceeding shall be brought by the California Board of Podiatric Medicine. If the person who is designated or otherwise required to file an 805 report is a licensed nurse practitioner, the action or proceeding shall be brought by the Board of Registered Nursing. The fine shall be paid to that agency but not expended until appropriated by the Legislature. The amount of the fine imposed, not exceeding fifty thousand dollars (\$50,000) per violation, shall be proportional to the severity of the failure to report and shall differ based upon written findings, including whether the failure to file caused harm

to a patient or created a risk to patient safety; whether the administrator of any peer review body, the chief executive officer or administrator of any health care facility, or any person who is designated or otherwise required by law to file an 805 report exercised due diligence despite the failure to file or whether they knew or should have known that an 805 report would not be filed; and whether there has been a prior failure to file an 805 report. The amount of the fine imposed may also differ based on whether a health care facility is a small or rural hospital as defined in Section 124840 of the Health and Safety Code.

(m) A health care service plan licensed under Chapter 2.2 (commencing with Section 1340) of Division 2 of the Health and Safety Code or a disability insurer that negotiates and enters into a contract with licentiates to provide services at alternative rates of payment pursuant to Section 10133 of the Insurance Code, when determining participation with the plan or insurer, shall evaluate, on a case-by-case basis, licentiates who are the subject of an 805 report, and not automatically exclude or deselect these licentiates.

(a) Prior to granting or renewing staff privileges for any physician and surgeon, psychologist, podiatrist, dentist, or nurse practitioner, any health facility licensed pursuant to Division 2 (commencing with Section 1200) of the Health and Safety Code, any health care service plan or medical care foundation, the medical staff of the institution, a facility certified to participate in the federal Medicare Program as an ambulatory surgical center, or an outpatient setting accredited pursuant to Section 1248.1 of the Health and Safety Code shall request a report from the Medical Board of California, the Board of Psychology, the California Board of Podiatric Medicine, the Osteopathic Medical Board of California, the Dental Board of California, or the Board of Registered Nursing to determine if any report has been made pursuant to Section 805 indicating that the applying physician and surgeon, psychologist, podiatrist, dentist, or nurse practitioner, has been denied staff privileges, been removed from a medical staff, or had their staff privileges restricted as provided in Section 805. The request shall include the name and California license number of the physician and surgeon, psychologist, podiatrist, dentist, or nurse practitioner. (b) Upon a request made by, or on behalf of, an institution described in subdivision (a) or its medical staff, the board shall furnish a copy of any report made pursuant to Section 805 as well as any additional exculpatory or explanatory information submitted electronically to the board by the licensee pursuant to subdivision (f) of that section. However, the board shall not send a copy of a report (1) if the denial, removal, or restriction was imposed solely because of the failure to complete medical records, (2) if the board has found the information reported is without merit, (3) if a court finds, in a final judgment, that the peer review, as defined in Section 805, resulting in the report was conducted in bad faith and the licensee who is the subject of the report notifies the board of that finding, or (4) if a period of three years has elapsed since the report was submitted. This three-year period shall be tolled during any period the licensee has obtained a judicial order precluding disclosure of the report, unless the board is finally and permanently precluded by judicial order from disclosing the report. If a request is received by the board while the board is subject to a judicial order limiting or precluding disclosure, the board shall provide a disclosure to any qualified requesting party as soon as practicable after the judicial order is no longer in force.

If the board fails to advise the institution within 30 working days following its request for a report required by this section, the institution may grant or renew staff privileges for the physician and surgeon, psychologist, podiatrist, dentist, or nurse practitioner.

(d) A willful failure to file the report described in subdivision (b) shall be punishable by a fine, not to exceed one hundred thousand dollars (\$100,000) per violation, that shall be paid by the health care facility or other entity subject to subdivision (b). The fine may be imposed in any civil or administrative action or proceeding brought by or on behalf of any agency having regulatory jurisdiction over the licensee regarding whom the report was or should have been filed. If the person who is designated or otherwise required to file the report under this section is a licensed physician and surgeon, the action or proceeding shall be brought by the Medical Board of California. § 2966. Suspension during incarceration for felony conviction; Determination of substantial relationship of felony to functions of psychologist; Discipline or denial of license

(a) A psychologist's license shall be suspended automatically during any time that the holder of the license is incarcerated after conviction of a felony, regardless of whether the conviction has been appealed. The board shall, immediately upon receipt of the certified copy of the record of conviction, determine whether the license of the psychologist has been automatically suspended by virtue of the psychologist's incarceration, and if so, the duration of that suspension. The board shall notify the psychologist of the license suspension and of the right to elect to have the issue of penalty heard as provided in this section.

(b) Upon receipt of the certified copy of the record of conviction, if after a hearing it is determined therefrom that the felony of which the licensee was convicted was substantially related to the qualifications, functions, or duties of a psychologist, the board shall suspend the license until the time for appeal has elapsed, if an appeal has not been taken, or until the judgment of conviction has been affirmed on appeal or has otherwise become final, and until further order of the board. (2) The issue of penalty shall be heard by an administrative law judge sitting alone or with a panel of the board, in the discretion of the board. Where the licensee so elects, the issue of penalty shall be heard in the manner described in this section at the hearing to determine whether the conviction was substantially related to the qualifications, functions, or duties of a psychologist. If the conviction of a licensee who has made this election is overturned on appeal, any discipline ordered pursuant to this section shall automatically cease. This subdivision does not prohibit the board from pursuing disciplinary action based on any cause other than the overturned conviction.

(e) The record of the proceedings resulting in the conviction, including a transcript of the testimony therein, may be received in evidence.

(b) The civil penalty prescribed by this section shall be assessed and recovered in a civil action brought in any county in which the violation occurs or where the injunction was issued in the name of the people of the State of California by the Attorney General or by any district attorney, county counsel, or city attorney in any court of competent jurisdiction within his jurisdiction without regard to the county from which the original injunction was issued. An action brought pursuant to this section to recover such civil penalties shall take special precedence over all civil matters on the calendar of the court except those matters to which equal precedence on the calendar is granted by law.

(c) If such an action is brought by the Attorney General, one-half of the penalty collected pursuant to this section shall be paid to the treasurer of the county in which the judgment was entered, and one-half to the State Treasurer. If brought by a district attorney or county counsel, the entire amount of the penalty collected shall be paid to the treasurer of the county in which the judgment is entered. If brought by a city attorney or city prosecutor, one-half of the penalty shall be paid to the treasurer of the county in which the judgment was entered and one-half to the city.

(d) If the action is brought at the request of a board within the Department of Consumer Affairs or a local consumer affairs agency, the court shall determine the reasonable expenses incurred by the board or local agency in the investigation and prosecution of the action.

Before any penalty collected is paid out pursuant to subdivision (c), the amount of such reasonable expenses incurred by the board shall be paid to the State Treasurer for deposit in the special fund of the board described in Section 205. If the board has no such special fund, the moneys shall be paid to the State Treasurer. The amount of such reasonable expenses incurred by a local consumer affairs agency shall be paid to the general fund of the municipality or county which funds the local agency.

BOARD OF PSYCHOLOGY

§ 1387. Supervised Professional Experience.

This section applies to all trainees, pre-or post-doctoral, who intend for hours of supervised professional experience (SPE) to count toward meeting the licensing requirement stated in section 2914(c) of the Business and Professions Code. Those trainees accruing hours of supervised experience in areas of psychology that do not include direct mental health services should refer to section 1387.3 for information on establishing an alternate plan for SPE.

SPE is defined as an organized program that consists of a planned, structured and administered sequence of professionally supervised comprehensive clinical training experiences. SPE shall have a logical training sequence that builds upon the skills and competencies of trainees to prepare them for the independent practice of psychology once they become licensed.

SPE shall include socialization into the profession of psychology and shall be augmented by integrated modalities including mentoring, didactic exposure, role-modeling, enactment, observational/ vicarious learning, and consultative guidance.

SPE shall include activities which address the integration of psychological concepts and current and evolving scientific knowledge, principles, and theories to the professional delivery of psychological services to the consumer public.

SPE shall include only the time spent by the trainee engaged in psychological activities that directly serve to prepare the trainee for the independent practice of psychology once licensed. SPE shall not include custodial tasks such as filing, transcribing or other clerical duties.

The term "trainee" as used in these regulations means a psychology trainee working under one of the conditions listed in subsections (a)(1) and (a)(2) of this section.

(a) Pursuant to section 2914(c) of the code, two years of qualifying SPE shall be completed and documented prior to licensure. One year of SPE shall be defined as 1500 hours. At least one year of SPE shall be completed postdoctorally. Each year of SPE shall be completed within a thirty (30) consecutive month period. If both years of SPE (3000 hours) are completed postdoctorally, they shall be completed within a sixty (60) month period. Upon showing of good cause as determined by the board, these specified time limitations may be reasonably modified.

(1) Predoctoral SPE: Up to 1500 hours of SPE may be accrued predoctorally but only after completion of 48 semester/trimester or 72 quarter units of graduate coursework in psychology not including thesis, internship or dissertation. Predoctoral SPE may be accrued only as follows:

(A) In a formal internship placement pursuant to section 2911 of the code, which is accredited by the American Psychological Association (APA), or which is a member of the Association of Psychology Postdoctoral and Internship Centers (APPIC) or the California Psychology Internship Council (CAPIC) and registration with the board is not required. A formal internship placement that actually began prior to January 1, 2007 that meets the membership requirements of, but is not a member of, APPIC or CAPIC will satisfy the requirements of this section; or

(B) As an employee of an exempt setting pursuant to section 2910 of the code and registration with the board is not required; or

CALIFORNIA CODE OF REGULATIONS

(C) As a registered psychological associate pursuant to section 2913 of the code and registration with the board prior to commencing work is required; or

(D) Pursuant to a Department of Mental Health Waiver (5751.2 Welfare and Institutions Code) for which registration with the board is not required.

(2) Postdoctoral SPE: At least 1500 hours of SPE shall be accrued postdoctorally. "Postdoctorally" means after the date certified as "meeting all the requirements for the doctoral degree" by the Registrar or Dean of the educational institution, or by the Director of Training of the doctoral program. Postdoctoral SPE may be accrued only as follows:

(A) For postdoctoral SPE accrued on or after January 1, 2006, in a formal postdoctoral training program pursuant to section 2911 of the code, which is accredited by the American Psychological Association (APA), or which is a member of the Association of Psychology Postdoctoral and Internship Centers (APPIC) or the California Psychology Internship Council (CAPIC) and registration with the board is not required; or

(B) As a registered psychologist pursuant to section 2909(d) of the code and registration with the board prior to commencing work is required; or

(C) As an employee of an exempt setting pursuant to section 2910 of the code and registration with the board is not required; or

(D) As a registered psychological associate pursuant to section 2913 of the code and registration with the board prior to commencing work is required; or

(E) Pursuant to a Department of Mental Health Waiver (5751.2 Welfare and Institutions Code) for which registration with the board is not required.

(b) Supervision Requirements:

(1) Primary supervisors shall meet the requirements set forth in section 1387.1.

(2) Delegated supervisors shall meet the requirements set forth in section 1387.2.

(3) Trainees shall have no proprietary interest in the business of the primary or delegated supervisor(s) and shall not serve in any capacity which would hold influence over the primary or delegated supervisor(s) judgment in providing supervision.

(4) Trainees shall be provided with supervision for 10% of the total time worked each week. At least one hour per week shall be face-to-face, direct, individual supervision with the primary supervisor.

(5) A maximum of forty four (44) hours per week will be credited toward meeting the SPE requirement. This shall include the required 10% supervision.

(7) Primary supervisors shall ensure that a plan is in place to protect the patient/client in the event a patient/client crisis or emergency occurs during any time the supervisor is not physically present at the established site at which the trainee is working. The primary supervisor shall ensure that the trainee thoroughly understands the plan in the event of a crisis/emergency.

BOARD OF PSYCHOLOGY

(8) SPE shall not be obtained from supervisors who have received payment, monetary or otherwise, from the trainee for the purpose of providing such supervision.

(9) SPE gained while the trainee is functioning under another mental health license shall not be credited toward meeting the requirements for the psychologist's license.

(10) Prior to the start of the experience, the primary supervisor and the supervisee shall together prepare an agreement that outlines the structure and sequence of the planned program of supervision to accomplish the goals and objectives of the experience. Hours accrued prior to preparing such an agreement results in those hours not counting toward the licensure requirements. The original agreement shall accompany the application for registration, if any, and identify at least the following::

- Name, license number and signature of primary supervisor;
- Name and signature of supervisee;
- Statutory authority under which the supervisee will function;
- Start date of the experience and the anticipated completion date;
- Duties to be performed in a sequential structured plan as defined in this section;
- Address of the locations at which the duties will be performed;
- Goals and objectives of the plan for SPE, including how socialization into the profession will be achieved; and
- How and when the supervisor will provide periodic assessments and feedback to the supervisee as to whether or not he or she is performing as expected.

Additionally, the agreement shall reflect that both supervisor and supervisee have discussed and understand each term of SPE as required by the California Code of Regulations.

(11) Once the SPE outlined in the agreement has been completed, the primary supervisor shall submit to the supervisee both the agreement, unless previously submitted to the Board pursuant to Section 1387(b)(10), and a verification of experience form signed by the primary supervisor under penalty of perjury, in a sealed envelope, signed across the seal for submission to the Board by the supervisee along with his or her application. The verification shall certify to completion of the hours consistent with the terms of the agreement. The supervisor must indicate, in his or her best professional judgment, whether the supervisee demonstrated an overall performance at or above the level of competence expected for the supervisee's level of education, training and experience. When SPE is accrued in a formal pre-doctoral internship or postdoctoral training program, the program's training director shall be authorized to perform the verification and rating duties of the primary supervisor provided that the internship training director is a licensed psychologist who possesses a valid, active license free of any disciplinary action.

If the SPE is not consistent with the terms of the agreement, or if the supervisee did not demonstrate an overall performance at or above the level of competence expected for the supervisee's level of education, training and

CALIFORNIA CODE OF REGULATIONS

experience, then the hours accrued will not count toward the licensure requirements.

(c) Delegated Supervision Requirements:

(1) Except as provided in section 1391.5, which regulates the supervision of registered psychological associates, primary supervisors may delegate supervision to other qualified psychologists or to other qualified mental health professionals including licensed marriage and family therapists, licensed educational psychologists, licensed clinical social workers, and board certified psychiatrists.

(2) The primary supervisor remains responsible for providing the minimum one hour per week of direct, individual face-to-face supervision.

The information shall not be further disclosed by the recipient unless the disclosure is for the purpose of coordinating mental health services and treatment of the minor and the disclosure is authorized by law.

(2) As used in this subdivision, “medical information” does not include psychotherapy notes as defined in Section 164.501 of Title 45 of the Code of Federal Regulations.

(3) A statement that the information will not be used for any purpose other than its intended use.

(4) A statement that the person or entity requesting the information will destroy the information and all copies in the person's or entity's possession or control, will cause it to be destroyed, or will return the information and all copies of it before or immediately after the length of time specified in paragraph (2) has expired.

(b) The person or entity requesting the information shall submit a copy of the written request required by this section to the patient within 30 days of receipt of the information requested, unless the patient has signed a written waiver in the form of a letter signed and submitted by the patient to the provider of health care or health care service plan waiving notification.

CUSTODY INVESTIGATION AND REPORT

HISTORY: Added Stats 1993 ch 219 § 116.81 (AB 1500). Former Chapter 6, also entitled “Custody Investigation and Report”, consisting of §§ 3110–3113, was enacted Stats 1992 ch 162 § 10, operative January 1, 1994, and repealed Stats 1993 ch 219 § 116.80.

§ 3111. Appointment of child custody evaluator; Evaluation and report; Availability; Use in evidence; Unwarranted disclosure; Adoption of form

(a) In a contested proceeding involving child custody or visitation rights, the court may appoint a child custody evaluator to conduct a child custody evaluation in cases where the court determines it is in the best interest of the child. The child custody evaluation shall be conducted in accordance with the standards adopted by the Judicial Council pursuant to Section 3117, and all other standards adopted by the Judicial Council regarding child custody evaluations. If directed by the court, the court-appointed child custody evaluator shall file a written confidential report on the evaluation. At least 10 days before a hearing regarding custody of the child, the report shall be filed with the clerk of the court in which the custody hearing will be conducted and served on the parties or their attorneys, and any other counsel appointed for the child pursuant to Section 3150. A child custody evaluation, investigation, or assessment, and a resulting report, may be considered by the court only if it is conducted in accordance with the requirements set forth in the standards adopted by the Judicial Council pursuant to Section 3117; however, this does not preclude the consideration of a child custody evaluation report that contains nonsubstantive or inconsequential errors or both.

(b) The report shall not be made available other than as provided in subdivision (a) or Section 3025.5, or as described in Section 204 of the Welfare and Institutions Code or Section 1514.5 of the Probate Code. Any information obtained from access to a juvenile court case file, as defined in subdivision (e) of Section 827 of the Welfare and Institutions Code, is confidential and shall only be disseminated as provided by paragraph (4) of subdivision (a) of Section 827 of the Welfare and Institutions Code.

(c) The report may be received in evidence on stipulation of all interested parties and is competent evidence as to all matters contained in the report.

(d) If the court determines that an unwarranted disclosure of a written confidential report has been made, the court may impose a monetary sanction against the disclosing party. The sanction shall be in an amount sufficient to deter repetition of the conduct, and may include reasonable attorney's fees, costs incurred, or both, unless the court finds that the disclosing party acted with substantial justification or that other circumstances make the imposition of the sanction unjust. The court shall not impose a sanction pursuant to this subdivision that imposes an unreasonable financial burden on the party against whom the sanction is imposed.

(e) The Judicial Council shall, by January 1, 2010, do the following:

(1) Adopt a form to be served with every child custody evaluation report that informs the report recipient of the confidentiality of the report and the potential consequences for the unwarranted disclosure of the report.

(2) Adopt a rule of court to require that, when a court-ordered child custody evaluation report is served on the parties, the form specified in paragraph (1) shall be included with the report.

(f) For purposes of this section, a disclosure is unwarranted if it is done either recklessly or maliciously, and is not in the best interest of the child.

ADOPTION OF REGULATIONS

HISTORY: Heading amended Stats 1994 ch 1039 § 19.

§ 11346.2. Availability to public of copy of proposed regulation; Initial statement of reasons for proposed action

Every agency subject to this chapter shall prepare, submit to the office with the notice of the proposed action as described in Section 11346.5, and make available to the public upon request, all of the following:

(a) A copy of the express terms of the proposed regulation.

(1) The agency shall draft the regulation in plain, straightforward language, avoiding technical terms as much as possible, and using a coherent and easily readable style. The agency shall draft the regulation in plain English.

(2) The agency shall include a notation following the express terms of each California Code of Regulations section, listing the specific statutes or other provisions of law authorizing the adoption of the regulation and listing the specific statutes or other provisions of law being implemented, interpreted, or made specific by that section in the California Code of Regulations.

(3) The agency shall use underline or italics to indicate additions to, and strikeout to indicate deletions from, the California Code of Regulations.

(b) An initial statement of reasons for proposing the adoption, amendment, or repeal of a regulation. This statement of reasons shall include, but not be limited to, all of the following:

(1) A statement of the specific purpose of each adoption, amendment, or repeal, the problem the agency intends to address, and the rationale for the determination by the agency that each adoption, amendment, or repeal is reasonably necessary to carry out the purpose and address the problem for which it is proposed. The statement shall enumerate the benefits anticipated from the regulatory action, including the benefits or goals provided in the authorizing statute. These benefits may include, to the extent applicable, nonmonetary benefits such as the protection of public health and safety, worker safety, or the environment, the prevention

of discrimination, the promotion of fairness or social equity, and the increase in openness and transparency in business and government, among other things. Where the adoption or amendment of a regulation would mandate the use of specific technologies or equipment, a statement of the reasons why the agency believes these mandates or prescriptive standards are required.

(2)(A) For a regulation that is not a major regulation, the economic impact assessment required by subdivision (b) of Section 11346.3.

(B) For a major regulation proposed on or after November 1, 2013, the standardized regulatory impact analysis required by subdivision (c) of Section 11346.3.

(3) An identification of each technical, theoretical, and empirical study, report, or similar document, if any, upon which the agency relies in proposing the adoption, amendment, or repeal of a regulation.

(4)(A) A description of reasonable alternatives to the regulation and the agency's reasons for rejecting those alternatives. Reasonable alternatives to be considered include, but are not limited to, alternatives that are proposed as less burdensome and equally effective in achieving the purposes of the regulation in a manner that ensures full compliance with the authorizing statute or other law being implemented or made specific by the proposed regulation. In the case of a regulation that would mandate the use of specific technologies or equipment or prescribe specific actions or procedures, the imposition of performance standards shall be considered as an alternative.

(B) A description of reasonable alternatives to the regulation that would lessen any adverse impact on small business and the agency's reasons for rejecting those alternatives.

(C) Notwithstanding subparagraph (A) or (B), an agency is not required to artificially construct alternatives or describe unreasonable alternatives.

(5)(A) Facts, evidence, documents, testimony, or other evidence on which the agency relies to support an initial determination that the action will not have a significant adverse economic impact on business.

(B)(i) If a proposed regulation is a building standard, the initial statement of reasons shall include the estimated cost of compliance, the estimated potential benefits, and the related assumptions used to determine the estimates.

(ii) The model codes adopted pursuant to Section 18928 of the Health and Safety Code shall be exempt from the requirements of this subparagraph. However, if an interested party has made a request in writing to the agency, at least 30 days before the submittal of the initial statement of reasons, to examine a specific section for purposes of estimating the cost of compliance and the potential benefits for that section, and including the related assumptions used to determine the estimates, then the agency shall comply with the requirements of this subparagraph with regard to that requested section.

GOVERNMENT CODE

(6) A department, board, or commission within the Environmental Protection Agency, the Natural Resources Agency, or the Office of the State Fire Marshal shall describe its efforts, in connection with a proposed rulemaking action, to avoid unnecessary duplication or conflicts with federal regulations contained in the Code of Federal Regulations addressing the same issues. These agencies may adopt regulations different from federal regulations contained in the Code of Federal Regulations addressing the same issues upon a finding of one or more of the following justifications:

(A) The differing state regulations are authorized by law.

(B) The cost of differing state regulations is justified by the benefit to human health, public safety, public welfare, or the environment.

(c) A state agency that adopts or amends a regulation mandated by federal law or regulations, the provisions of which are identical to a previously adopted or amended federal regulation, shall be deemed to have complied with subdivision (b) if a statement to the effect that a federally mandated regulation or amendment to a regulation is being proposed, together with a citation to where an explanation of the regulation can be found, is included in the notice of proposed adoption or amendment prepared pursuant to Section 11346.5. However, the agency shall comply fully with this chapter with respect to any provisions in the regulation that the agency proposes to adopt or amend that are different from the corresponding provisions of the federal regulation.

(d) This section shall be inoperative from January 1, 2012, until January 1, 2014.

based on adequate information concerning the need for, and consequences of, proposed governmental action.

(2) The state agency, before submitting a proposal to adopt, amend, or repeal a regulation to the office, shall consider the proposal's impact on business, with consideration of industries affected including the ability of California businesses to compete with businesses in other states. For purposes of evaluating the impact on the ability of California businesses to compete with businesses in other states, an agency shall consider, but not be limited to, information supplied by interested parties.

(3) An economic impact assessment prepared pursuant to this subdivision for a proposed regulation that is not a major regulation or that is a major regulation proposed before November 1, 2013, shall be prepared in accordance with subdivision (b), and shall be included in the initial statement of reasons as required by Section 11346.2. An economic assessment prepared pursuant to this subdivision for a major regulation proposed on or after November 1, 2013, shall be prepared in accordance with subdivision (c), and shall be included in the initial statement of reasons as required by Section 11346.2.

(b)(1) A state agency proposing to adopt, amend, or repeal a regulation that is not a major regulation or that is a major regulation proposed before November 1, 2013, shall prepare an economic impact assessment that assesses whether and to what extent it will affect the following:

(A) The creation or elimination of jobs within the state.

(B) The creation of new businesses or the elimination of existing businesses within the state.

(C) The expansion of businesses currently doing business within the state.

(D) The benefits of the regulation to the health and welfare of California residents, worker safety, and the state's environment.

(2) This subdivision does not apply to the University of California, the college named in Section 92200 of the Education Code, or the Fair Political Practices Commission.

(3) Information required from a state agency for the purpose of completing the assessment may come from existing state publications.

(4)(A) For purposes of conducting the economic impact assessment pursuant to this subdivision, a state agency may use the consolidated definition of small business in subparagraph (B) in order to determine the number of small businesses within the economy, a specific industry sector, or geographic region. The state agency shall clearly identify the use of the consolidated small business definition in its rulemaking package.

(B) For the exclusive purpose of undertaking the economic impact assessment, a "small business" means a business that is all of the following:

(i) Independently owned and operated.

(ii) Not dominant in its field of operation.

GOVERNMENT CODE

(iii) Has fewer than 100 employees.

(C) Subparagraph (A) shall not apply to a regulation adopted by the Department of Insurance that applies to an insurance company.

(c)(1) Each state agency proposing to adopt, amend, or repeal a major regulation on or after November 1, 2013, shall prepare a standardized regulatory impact analysis in the manner prescribed by the Department of Finance pursuant to Section 11346.36. The standardized regulatory impact analysis shall address all of the following:

(A) The creation or elimination of jobs within the state.

(B) The creation of new businesses or the elimination of existing businesses within the state.

(C) The competitive advantages or disadvantages for businesses currently doing business within the state.

(D) The increase or decrease of investment in the state.

(E) The incentives for innovation in products, materials, or processes.

(F) The benefits of the regulations, including, but not limited to, benefits to the health, safety, and welfare of California residents, worker safety, and the state's environment and quality of life, among any other benefits identified by the agency.

(2) This subdivision shall not apply to the University of California, the college named in Section 92200 of the Education Code, or the Fair Political Practices Commission.

(3) Information required from state agencies for the purpose of completing the analysis may be derived from existing state, federal, or academic publications.

(d) Any administrative regulation adopted on or after January 1, 1993, that requires a report shall not apply to businesses, unless the state agency adopting the regulation makes a finding that it is necessary for the health, safety, or welfare of the people of the state that the regulation apply to businesses.

(e) Analyses conducted pursuant to this section are intended to provide agencies and the public with tools to determine whether the regulatory proposal is an efficient and effective means of implementing the policy decisions enacted in statute or by other provisions of law in the least burdensome manner. Regulatory impact analyses shall inform the agencies and the public of the economic consequences of regulatory choices, not reassess statutory policy. The baseline for the regulatory analysis shall be the most cost-effective set of regulatory measures that are equally effective in achieving the purpose of the regulation in a manner that ensures full compliance with the authorizing statute or other law being implemented or made specific by the proposed regulation.

(f) Each state agency proposing to adopt, amend, or repeal a major regulation on or after November 1, 2013, and that has prepared a standardized regulatory impact analysis pursuant to subdivision (c), shall submit that analysis to the Department of Finance upon completion. The department shall

GOVERNMENT CODE

§ 11517. Contested cases

(a) A contested case may be originally heard by the agency itself and subdivision (b) shall apply. Alternatively, at the discretion of the agency, an administrative law judge may originally hear the case alone and subdivision (c) shall apply.

(b) If a contested case is originally heard before an agency itself, all of the following provisions apply:

(1) An administrative law judge shall be present during the consideration of the case and, if requested, shall assist and advise the agency in the conduct of the hearing.

(2) No member of the agency who did not hear the evidence shall vote on the decision.

(3) The agency shall issue its decision within 100 days of submission of the case.

(c)(1) If a contested case is originally heard by an administrative law judge alone, he or she shall prepare within 30 days after the case is submitted to him or her a proposed decision in a form that may be adopted by the agency as the final decision in the case. Failure of the administrative law judge to deliver a proposed decision within the time required does not prejudice the rights of the agency in the case. Thirty days after the receipt by the agency of the proposed decision, a copy of the proposed decision shall be filed by the agency as a public record and a copy shall be served by the agency on each party and his or her attorney. The filing and service is not an adoption of a proposed decision by the agency.

(2) Within 100 days of receipt by the agency of the administrative law judge's proposed decision, the agency may act as prescribed in subparagraphs (A) to (E), inclusive. If the agency fails to act as prescribed in subparagraphs (A) to (E), inclusive, within 100 days of receipt of the proposed decision, the proposed decision shall be deemed adopted by the agency. The agency may do any of the following:

(A) Adopt the proposed decision in its entirety.

(B) Reduce or otherwise mitigate the proposed penalty and adopt the balance of the proposed decision.

(C) Make technical or other minor changes in the proposed decision and adopt it as the decision. Action by the agency under this paragraph is limited to a clarifying change or a change of a similar nature that does not affect the factual or legal basis of the proposed decision.

(D) Reject the proposed decision and refer the case to the same administrative law judge if reasonably available, otherwise to another administrative law judge, to take additional evidence. If the case is referred to an administrative law judge pursuant to this subparagraph, he or she shall prepare a revised proposed decision, as provided in paragraph (1), based upon the additional evidence and the transcript and other papers that are part of the record of the prior hearing. A copy of the revised proposed decision shall be furnished to each party and his or her attorney as prescribed in this subdivision.

Misc.

BOARD OF PSYCHOLOGY

(E) Reject the proposed decision, and decide the case upon the record, including the transcript, or upon an agreed statement of the parties, with or without taking additional evidence. By stipulation of the parties, the agency may decide the case upon the record without including the transcript. If the agency acts pursuant to this subparagraph, all of the following provisions apply:

(i) A copy of the record shall be made available to the parties. The agency may require payment of fees covering direct costs of making the copy.

(ii) The agency itself shall not decide any case provided for in this subdivision without affording the parties the opportunity to present either oral or written argument before the agency itself. If additional oral evidence is introduced before the agency itself, no agency member may vote unless the member heard the additional oral evidence.

(iii) The authority of the agency itself to decide the case under this subdivision includes authority to decide some but not all issues in the case.

(iv) If the agency elects to proceed under this subparagraph, the agency shall issue its final decision not later than 100 days after rejection of the proposed decision. If the agency elects to proceed under this subparagraph, and has ordered a transcript of the proceedings before the administrative law judge, the agency shall issue its final decision not later than 100 days after receipt of the transcript. If the agency finds that a further delay is required by special circumstance, it shall issue an order delaying the decision for no more than 30 days and specifying the reasons therefor. The order shall be subject to judicial review pursuant to Section 11523.

(d) The decision of the agency shall be filed immediately by the agency as a public record and a copy shall be served by the agency on each party and his or her attorney.

HISTORY:

Added Stats 1999 ch 339 § 2 (AB 1692).

§ 11521. Reconsideration

(a) The agency itself may order a reconsideration of all or part of the case on its own motion or on petition of any party. The agency shall notify a petitioner of the time limits for petitioning for reconsideration. The power to order a reconsideration shall expire 30 days after the delivery or mailing of a decision to a respondent, or on the date set by the agency itself as the effective date of the decision if that date occurs prior to the expiration of the 30-day period or at the termination of a stay of not to exceed 30 days which the agency may grant for the purpose of filing an application for reconsideration. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of any of the applicable periods, an agency may grant a stay of that

GOVERNMENT CODE

expiration for no more than 10 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied.

(b) The case may be reconsidered by the agency itself on all the pertinent parts of the record and such additional evidence and argument as may be permitted, or may be assigned to an administrative law judge. A reconsideration assigned to an administrative law judge shall be subject to the procedure provided in Section 11517. If oral evidence is introduced before the agency itself, no agency member may vote unless he or she heard the evidence.

§ 11522. Reinstatement of license or reduction of penalty

A person whose license has been revoked or suspended may petition the agency for reinstatement or reduction of penalty after a period of not less than one year has elapsed from the effective date of the decision or from the date of the denial of a similar petition. The agency shall give notice to the Attorney General of the filing of the petition and the Attorney General and the petitioner shall be afforded an opportunity to present either oral or written argument before the agency itself. The agency itself shall decide the petition, and the decision shall include the reasons therefor, and any terms and conditions that the agency reasonably deems appropriate to impose as a condition of reinstatement. This section shall not apply if the statutes dealing with the particular agency contain different provisions for reinstatement or reduction of penalty.

Nothing in this subdivision shall prohibit any licensing board, in connection with prospective examinations, licensure, or certification, from inviting individuals with physical or mental disabilities to request reasonable accommodations or from making inquiries related to reasonable accommodations.

ARTICLE 1 DEFINITIONS AND GENERAL PROVISIONS

HISTORY: Added Stats 1978 ch 1147 § 4, effective September 26, 1978.

§ 1204.1. Eligibility of psychology clinic for licensure

In addition to the primary care clinics and specialty clinics specified in Section 1204, clinics eligible for licensure pursuant to this chapter include psychology clinics. A “psychology clinic” is a clinic which provides psychological advice, services, or treatment to patients, under the direction of a clinical psychologist as defined in Section 1316.5, and is operated by a tax-exempt nonprofit corporation which is supported and maintained in whole or in part by donations, bequests, gifts, grants, government funds, or contributions which may be in the form of money, goods, or services. In a psychology clinic, any charges to the patient shall be based on the patient’s ability to pay, utilizing a sliding fee scale. No corporation other than a nonprofit corporation, exempt from federal taxation under paragraph (3), subsection (c) of Section 501 of the Internal Revenue Code of 1954, as amended, or a statutory successor thereof, shall operate a psychology clinic.

Each psychology clinic licensed pursuant to this section shall comply with the provisions of Part 2 (commencing with Section 13100) of Division 12.

Only a psychology clinic may be licensed under this chapter to exclusively provide psychological advice, services, or treatment. However, nothing in this subdivision precludes clinics specified in Section 1204 from providing psycho-

§ 1206. Clinics and facilities exempt from licensure requirements

This chapter does not apply to the following:

(a) Except with respect to the option provided with regard to surgical clinics in paragraph (1) of subdivision (b) of Section 1204 and, further, with respect to specialty clinics specified in paragraph (2) of subdivision (b) of Section 1204, any place or establishment owned or leased and operated as a clinic or office by one or more licensed health care practitioners and used as an office for the practice of their profession, within the scope of their license, regardless of the name used publicly to identify the place or establishment.

(b) Any clinic directly conducted, maintained, or operated by the United States or by any of its departments, officers, or agencies, and any primary care clinic specified in subdivision (a) of Section 1204 that is directly conducted, maintained, or operated by this state or by any of its political subdivisions or districts, or by any city. This subdivision does not preclude the department from adopting regulations that utilize clinic licensing standards as eligibility criteria for participation in programs funded wholly or partially under Title XVIII or XIX of the federal Social Security Act.

(c)(1) Any clinic conducted, maintained, or operated by a federally recognized Indian tribe or tribal organization, as defined in Section 1603or 5304 of Title 25 of the United States Code, that is located on land recognized as tribal land by the federal government.

(2) Any clinic conducted, maintained, or operated by a federally recognized Indian tribe or tribal organization, as defined in Section 1603or 5304 of Title 25 of the United States Code, under a contract with the United States pursuant to the Indian Self-Determination and Education Assistance Act (Public Law 93-638), regardless of the location of the clinic, except that if the clinic chooses to apply to the State Department of Public Health for a state facility license, then the State Department of Public Health will retain authority to regulate that clinic as a primary care clinic as defined by subdivision (a) of Section 1204.

(d) A clinic conducted, operated, or maintained as outpatient departments of hospitals.

(e) Any facility licensed as a health facility under Chapter 2 (commencing with Section 1250).

An intermittent clinic as described in this subdivision shall, however, meet all other requirements of law, including administrative regulations and requirements, pertaining to fire and life safety.

(3)(A) The requirements of paragraph (1) may be waived by the department solely for persons in the professions of psychology, marriage and family therapy, clinical social work, or professional clinical counseling who are gaining qualifying experience for licensure in that profession in this state. A waiver granted pursuant to this paragraph shall not exceed four years from commencement of the employment in this state in a position that includes qualifying experience, at which time licensure shall have been obtained or the employment shall be terminated, except that an extension of a waiver of licensure may be granted for one additional year, based on extenuating circumstances determined by the department pursuant to subdivision (e). For persons employed as psychologists, clinical social workers, marriage and family therapists, or professional clinical counselors less than full time, an extension of a waiver of licensure may be granted for additional years proportional to the extent of part-time employment, as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed six years in the case of clinical social workers, marriage and family therapists, or professional clinical counselors, or five years in the case of psychologists.

(B) For the purposes of this paragraph, "qualifying experience" means experience that satisfies the requirements of subdivision (d) of Section 2914 of, or Section 4980.43, 4996.23, or 4999.46 of, the Business and Professions Code.

(4) The durational limitation upon waivers pursuant to paragraph (3) shall not apply to any of the following:

(A) Active candidates for a doctoral degree in social work, social welfare, or social science, who are enrolled at an accredited university, college, or professional school, but these limitations shall apply following completion of this training.

(B) Active candidates for a doctoral degree in marriage and family therapy who are enrolled at a school, college, or university, specified in subdivision (b) of Section 4980.36 of, or subdivision (b) of Section 4980.37 of, the Business and Professions Code, but the limitations shall apply following completion of the training.

(C) Active candidates for a doctoral degree in professional clinical counseling who are enrolled at a school, college, or university, specified in subdivision (b) of Section 4999.32 of, or subdivision (b) of Section 4999.33 of, the Business and Professions Code, but the limitations shall apply following the completion of the training.

(5) A waiver pursuant to paragraph (3) shall be granted only to the extent necessary to qualify for licensure, except that personnel recruited for employment from outside this state and whose experience is sufficient to gain admission to a licensing examination shall nevertheless have one year from the date of their employment in California to become licensed, at which time licensure shall have been obtained or the employment shall be terminated, provided that the employee shall take the licensure examination at the earliest possible date after the date of the employee's employment. If the employee does not pass the examination at that time, the employee shall have a second opportunity to pass the next possible examination, subject to the one-year limit.

(c) A special permit shall be issued by the department when it finds that the staff, both professional and nonprofessional, and the standards of care and services are adequate and appropriate, and that the special services unit is operated in the manner required in this chapter and by the rules and regulations adopted hereunder.

(d) The department shall apply the same standards to state and other governmental health facilities that it licenses as it applies to health facilities in private ownership, including standards specifying the level of training and supervision of all unlicensed practitioners. Except for psychologists, the department may grant an extension of a waiver of licensure for personnel recruited from outside this state for one additional year, based upon extenuating circumstances as determined by the department pursuant to subdivision (e).

(e) The department shall grant a request for an extension of a waiver based on extenuating circumstances, pursuant to subdivision (b) or (d), if any of the following circumstances exist:

(1) The person requesting the extension has experienced a recent catastrophic event that may impair the person's ability to qualify for and pass the license examination. Those events may include, but are not limited to, significant hardship caused by a natural disaster, serious and prolonged illness of the person, serious and prolonged illness or death of a child, spouse, or parent, or other stressful circumstances.

(2) The person requesting the extension has difficulty speaking or writing the English language, or other cultural and ethnic factors exist that

substantially impair the person's ability to qualify for and pass the license examination.

(3) The person requesting the extension has experienced other personal hardship that the department, in its discretion, determines to warrant the extension.

§ 1316.5. Staff privileges for clinical psychologists at health facilities

(a)(1) Each health facility owned and operated by the state offering care or services within the scope of practice of a psychologist shall establish rules and medical staff bylaws that include provisions for medical staff membership and clinical privileges for clinical psychologists within the scope of their licensure as psychologists, subject to the rules and medical staff bylaws governing medical staff membership or privileges as the facility shall establish. The rules and regulations shall not discriminate on the basis of whether the staff member holds an M.D., D.O., D.D.S., D.P.M., or doctoral degree in psychology within the scope of the member's respective licensure. Each of these health facilities owned and operated by the state shall establish a staff comprised of physicians and surgeons, dentists, podiatrists, psychologists, or any combination thereof, that shall regulate the admission, conduct, suspension, or termination of the staff appointment of psychologists employed by the health facility.

(2) With regard to the practice of psychology in health facilities owned and operated by the state offering care or services within the scope of practice of a psychologist, medical staff status shall include and provide for the right to pursue and practice full clinical privileges for holders of a doctoral degree of psychology within the scope of their respective licensure. These rights and privileges shall be limited or restricted only upon the basis of an individual practitioner's demonstrated competence. Competence shall be determined by health facility rules and medical staff bylaws that are necessary and are applied in good faith, equally and in a nondiscriminatory manner, to all practitioners, regardless of whether they hold an M.D., D.O., D.D.S., D.P.M., or doctoral degree in psychology.

Misc.

HEALTH AND SAFETY CODE

(3) Nothing in this subdivision shall be construed to require a health facility owned and operated by the state to offer a specific health service or services not otherwise offered. If a health service is offered in such a health facility that includes provisions for medical staff membership and clinical privileges for clinical psychologists, the facility shall not discriminate between persons holding an M.D., D.O., D.D.S., D.P.M., or doctoral degree in psychology who are authorized by law to perform the service within the scope of the person's respective licensure.

(4) The rules and medical staff bylaws of a health facility owned and operated by the state that include provisions for medical staff membership and clinical privileges for medical staff and duly licensed clinical psychologists shall not discriminate on the basis of whether the staff member holds an M.D., D.O., D.D.S., D.P.M., or doctoral degree in psychology within the scope of the member's respective licensure. The health facility staff of these health facilities who process, review, evaluate, and determine qualifications for staff privileges for medical staff shall include, if possible, staff members who are clinical psychologists.

(b)(1) The rules of a health facility not owned or operated by this state may enable the appointment of clinical psychologists on the terms and conditions that the facility shall establish. In these health facilities, clinical psychologists may hold membership and serve on committees of the medical staff and carry professional responsibilities consistent with the scope of their licensure and their competence, subject to the rules of the health facility.

(2) Nothing in this subdivision shall be construed to require a health facility not owned or operated by this state to offer a specific health service or services not otherwise offered. If a health service is offered by a health facility with both licensed physicians and surgeons and clinical psychologists on the medical staff, which both licensed physicians and surgeons and clinical psychologists are authorized by law to perform, the service may be performed by either, without discrimination.

(3) This subdivision shall not prohibit a health facility that is a clinical teaching facility owned or operated by a university operating a school of medicine from requiring that a clinical psychologist have a faculty teaching appointment as a condition for eligibility for staff privileges at that facility.

(4) In any health facility that is not owned or operated by this state that provides staff privileges to clinical psychologists, the health facility staff who process, review, evaluate, and determine qualifications for staff privileges for medical staff shall include, if possible, staff members who are clinical psychologists.

(c) No classification of health facilities by the department, nor any other classification of health facilities based on quality of service or otherwise, by any person, body, or governmental agency of this state or any subdivision thereof shall be affected by a health facility's provision for use of its facilities by duly licensed clinical psychologists, nor shall any classification of these facilities be affected by the subjection of the psychologists to the rules and regulations of

the organized professional staff. No classification of health facilities by any governmental agency of this state or any subdivision thereof pursuant to any law, whether enacted prior or subsequent to the effective date of this section, for the purposes of ascertaining eligibility for compensation, reimbursement, or other benefit for treatment of patients shall be affected by a health facility's provision for use of its facilities by duly licensed clinical psychologists, nor shall any classification of these facilities be affected by the subjection of the psychologists to the rules and regulations of the organized professional staff which govern the psychologists' use of the facilities.

(d) "Clinical psychologist," as used in this section, means a psychologist licensed by this state who meets both of the following requirements:

(1) Possesses an earned doctorate degree in psychology from an educational institution meeting the criteria of subdivision (b) of Section 2914 of the Business and Professions Code.

(2) Has not less than two years clinical experience in a multidisciplinary facility licensed or operated by this or another state or by the United States to provide health care, or, is listed in the latest edition of the National Register of Health Service Providers in Psychology, as adopted by the Council for the National Register of Health Service Providers in Psychology.

(e) Nothing in this section is intended to expand the scope of licensure of clinical psychologists. Notwithstanding the Ralph C. Dills Act (Chapter 10.3 (commencing with Section 3512) of Division 4 of Title 1 of the Government Code), the Public Employment Relations Board is precluded from creating any additional bargaining units for the purpose of exclusive representation of state psychologist employees that might result because of medical staff membership and/or privilege changes for psychologists due to the enactment of provisions by Assembly Bill No. 3141 of the 1995–96 Regular Session.

However, no regulation adding or deleting a substance shall have any effect beyond March 1 of the year following the calendar year during which the regulation was adopted.

(c)(1)(A) Any manufacturer, wholesaler, retailer, or other person or entity in this state, prior to selling, transferring, or otherwise furnishing any substance specified in subdivision (a) to any person or business entity in this state or any other state, shall require

(i) a letter of authorization from that person or business entity that includes the currently valid business license number or federal Drug Enforcement Administration (DEA) registration number, the address of the business, and a full description of how the substance is to be used, and

(ii) proper identification from the purchaser. The manufacturer, wholesaler, retailer, or other person or entity in this state shall retain this information in a readily available manner for three years. The requirement for a full description of how the substance is to be used does not require the person or business entity to reveal their chemical processes that are typically considered trade secrets and proprietary information.

(B) For the purposes of this paragraph, "proper identification" for in-state or out-of-state purchasers includes two or more of the following: federal tax identification number; seller's permit identification number; city or county business license number; license issued by the State Department of Public Health; registration number issued by the federal Drug Enforcement Administration; precursor business permit number issued by the Department of Justice; driver's license; or other identification issued by a state.

(2)(A) Any manufacturer, wholesaler, retailer, or other person or entity in this state that exports a substance specified in subdivision (a) to any person or business entity located in a foreign country shall, on or before the date of exportation, submit to the Department of Justice a notification of that transaction, which notification shall include the name and quantity of the substance to be exported and the name, address, and, if assigned by the foreign country or subdivision thereof, business identification number of the person or business entity located in a foreign country importing the substance.

(B) The department may authorize the submission of the notification on a monthly basis with respect to repeated, regular transactions between an exporter and an importer involving a substance specified in subdivision

(a), if the department determines that a pattern of regular supply of the substance exists between the exporter and importer and that the importer has established a record of utilization of the substance for lawful purposes.

The Department of Justice may authorize the submission of the reports on a monthly basis with respect to repeated, regular transactions between the furnisher and the recipient involving the substance or substances if the Department of Justice determines that a pattern of regular supply of the substance or substances exists between the manufacturer, wholesaler, retailer, or other person or entity that sells, transfers, or otherwise furnishes the substance or substances and the recipient of the substance or substances, and the recipient has established a record of utilization of the substance or substances for lawful purposes.

(2) The person selling, transferring, or otherwise furnishing any substance specified in subdivision (a) shall affix his or her signature or otherwise identify himself or herself as a witness to the identification of the purchaser or purchasing individual, and shall, if a common carrier is used, maintain a manifest of the delivery to the purchaser for three years.

Sec. 301 et seq.) or regulations adopted thereunder. However, this section shall apply to preparations in solid or liquid dosage form, except pediatric liquid forms, as defined, containing ephedrine, pseudoephedrine, norpseudoephedrine, or phenylpropanolamine where the individual transaction involves more than three packages or nine grams of ephedrine, pseudoephedrine, norpseudoephedrine, or phenylpropanolamine.

§ 11106.5. Interim order suspending permittee or imposing restrictions

(a) The Department of Justice, or an administrative law judge sitting alone as provided in subdivision (h), may upon petition issue an interim order suspending any permittee or imposing permit restrictions. The petition shall

HEALTH AND SAFETY CODE

include affidavits that demonstrate, to the satisfaction of the department, both of the following:

(1) The permittee has engaged in acts or omissions constituting a violation of this code or has been convicted of a crime substantially related to the permitted activity.

(2) Permitting the permittee to operate, or to continue to operate without restrictions, would endanger the public health, safety, or welfare.

(b) No interim order provided for in this section shall be issued without notice to the permittee, unless it appears from the petition and supporting documents that serious injury would result to the public before the matter could be heard on notice.

(c) Except as provided in subdivision (b), the permittee shall be given at least 15 days' notice of the hearing on the petition for an interim order. The notice shall include documents submitted to the department in support of the petition. If the order was initially issued without notice as provided in subdivision (b), the permittee shall be entitled to a hearing on the petition within 20 days of the issuance of the interim order without notice. The permittee shall be given notice of the hearing within two days after issuance of the initial interim order, and shall receive all documents in support of the petition. The failure of the department to provide a hearing within 20 days following issuance of the interim order without notice, unless the permittee waives his or her right to the hearing, shall result in the dissolution of the interim order by operation of law.

(d) At the hearing on the petition for an interim order, the permittee may do the following:

(1) Be represented by counsel.

(2) Have a record made of the proceedings, copies of which shall be available to the permittee upon payment of costs computed in accordance with the provisions for transcript costs for judicial review contained in Section 11523 of the Government Code.

(3) Present affidavits and other documentary evidence.

(4) Present oral argument.

(e) The department, or an administrative law judge sitting alone as provided in subdivision (h), shall issue a decision on the petition for interim order within five business days following submission of the matter. The standard of proof required to obtain an interim order pursuant to this section shall be a preponderance of the evidence standard. If the interim order was previously issued without notice, the department shall determine whether the order shall remain in effect, be dissolved, or be modified.

(f) The department shall file an accusation within 15 days of the issuance of an interim order. In the case of an interim order issued without notice, the time shall run from the date of the order issued after the noticed hearing. If the permittee files a notice of defense, the hearing shall be held within 30 days of the agency's receipt of the notice of defense. A decision shall be rendered on the accusation no later than 30 days after submission of the matter. Failure to

Misc.

BOARD OF PSYCHOLOGY

comply with any of the requirements in this subdivision shall dissolve the interim order by operation of law.

(g) Interim orders shall be subject to judicial review pursuant to Section 1094.5 of the Code of Civil Procedure and shall be heard only in the superior court in and for the County of Sacramento, San Francisco, Los Angeles, or San Diego. The review of an interim order shall be limited to a determination of whether the department abused its discretion in the issuance of the interim order. Abuse of discretion is established if the respondent department has not proceeded in the manner required by law, or if the court determines that the interim order is not supported by substantial evidence in light of the whole record.

(h) The department may, in its sole discretion, delegate the hearing on any petition for an interim order to an administrative law judge in the Office of Administrative Hearings. If the department hears the noticed petition itself, an administrative law judge shall preside at the hearing, rule on the admission and exclusion of evidence, and advise the department on matters of law. The department shall exercise all other powers relating to the conduct of the hearing, but may delegate any or all of them to the administrative law judge. When the petition has been delegated to an administrative law judge, he or she shall sit alone and exercise all of the powers of the department relating to the conduct of the hearing. A decision issued by an administrative law judge sitting alone shall be final when it is filed with the department. If the administrative law judge issues an interim order without notice, he or she shall preside at the noticed hearing, unless unavailable, in which case another administrative law judge may hear the matter. The decision of the administrative law judge sitting alone on the petition for an interim order is final, subject only to judicial review in accordance with subdivision (g).

(i)(1) Failure to comply with an interim order issued pursuant to subdivision (a) or (b) shall constitute a separate cause for disciplinary action against any permittee, and may be heard at, and as a part of, the noticed hearing provided for in subdivision (f). Allegations of noncompliance with the interim order may be filed at any time prior to the rendering of a decision on the accusation. Violation of the interim order is established upon proof that the permittee was on notice of the interim order and its terms, and that the order was in effect at the time of the violation. The finding of a violation of an interim order made at the hearing on the accusation shall be reviewed as a part of any review of a final decision of the department.

(2) If the interim order issued by the department provides for anything less than a complete suspension of the permittee and the permittee violates the interim order prior to the hearing on the accusation provided for in subdivision (f), the department may, upon notice to the permittee and proof of violation, modify or expand the interim order.

(j) A plea or verdict of guilty or a conviction after a plea of nolo contendere is deemed to be a conviction within the meaning of this section. A certified record of the conviction shall be conclusive evidence of the fact that the

Misc.

HEALTH AND SAFETY CODE

conviction occurred. The department may take action under this section notwithstanding the fact that an appeal of the conviction may be taken.

(k) The interim orders provided for by this section shall be in addition to, and not a limitation on, the authority to seek injunctive relief provided in any other provision of law.

(1) Citations shall be in writing and shall describe with particularity the nature of the violation, including specific reference to the provision of law or regulation of the department determined to have been violated.

(2) Whenever appropriate, the citation shall contain an order of abatement fixing a reasonable time for abatement of the violation.

(3) In no event shall the administrative fine assessed by the department exceed two thousand five hundred dollars (\$2,500) for each violation. In assessing a fine, due consideration shall be given to the appropriateness of the amount of the fine with respect to such factors as the gravity of the violation, the good faith of the permittee, and the history of previous violations.

(4) An order of abatement or a fine assessment issued pursuant to a citation shall inform the permittee that if the permittee desires a hearing to contest the finding of a violation, that hearing shall be requested by written notice to the department within 30 days of the date of issuance of the citation or assessment. Hearings shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

At the conclusion of the informal conference, the department may affirm, modify, or dismiss the citation, including any fine levied or order of abatement issued. The decision shall be deemed to be a final order with regard to the citation issued, including the fine levied and the order of abatement. However, the permittee does not waive its right to request a hearing to contest a citation by

requesting an informal conference. If the citation is dismissed after the informal conference, the request for a hearing on the matter of the citation shall be deemed to be withdrawn. If the citation, including any fine levied or order of abatement, is modified, the citation originally issued shall be considered withdrawn and a new citation issued. If a hearing is requested for a subsequent citation, it shall be requested within 30 days of service of that subsequent citation.

(6) Failure of a permittee to pay a fine within 30 days of the date of assessment or comply with an order of abatement within the fixed time, unless the citation is being appealed, may result in disciplinary action being taken by the department. If a citation is not contested and a fine is not paid, the full amount of the assessed fine shall be added to the renewal of the permit. A permit shall not be renewed without payment of the renewal fee and fine.

(c) The system may contain the following provisions:

(1) A citation may be issued without the assessment of an administrative fine.

(2) Assessment of administrative fines may be limited to only particular violations of the law or department regulations.

(d) Notwithstanding any other provision of law, if a fine is paid to satisfy an assessment based on the finding of a violation, payment of the fine shall be represented as satisfactory resolution of the matter for purposes of public disclosure.

(e) Administrative fines collected pursuant to this section shall be deposited in the General Fund.

(f) The sanctions authorized under this section shall be separate from, and in addition to, any other administrative, civil, or criminal remedies; however, a criminal action may not be initiated for a specific offense if a citation has been issued pursuant to this section for that offense, and a citation may not be issued pursuant to this section for a specific offense if a criminal action for that offense has been filed.

(g) Nothing in this section shall be deemed to prevent the department from serving and prosecuting an accusation to suspend or revoke a permit if grounds for that suspension or revocation exist.

Any action which a board is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

(2) The applicant committed any act involving dishonesty, fraud, or deceit with the intent to substantially benefit himself, herself, or another, or substantially injure another.

(f) The department shall maintain a list of approved security printers and the department shall make this information available to prescribers and other appropriate government agencies, including the Board of Pharmacy.

(g) Before printing any controlled substance prescription forms, a security printer shall verify with the appropriate licensing board that the prescriber possesses a license and current prescribing privileges which permits the prescribing of controlled substances with the federal Drug Enforcement Administration (DEA).

(h) Controlled substance prescription forms shall be provided directly to the prescriber either in person, by certified mail, or by a means that requires a signature signifying receipt of the package and provision of that signature to the security printer. Controlled substance prescription forms provided in person shall be restricted to established customers. (1) For a first violation, a fine not to exceed one thousand dollars (\$1,000).

(2) For a second or subsequent violation, a fine not to exceed two thousand five hundred dollars (\$2,500) for each violation.

(3) For a third or subsequent violation, a filing of an administrative disciplinary action seeking to suspend or revoke security printer approval.

The department may, pursuant to regulation, reduce the number of currently approved security printers to no fewer than three vendors. The department shall ensure that any reduction or limitation of approved security printers does not impact the ability of vendors to meet demand for prescription forms.

§ 11165.2. Department of Justice audits of CURES Prescription Drug Monitoring Program system and users; Citations for subscriber violations; Required provisions; Payment of fine as satisfactory resolution; Deposit of administrative fines; Sanctions separate

(a) The Department of Justice may conduct audits of the CURES Prescription Drug Monitoring Program system and its users.

(b) The Department of Justice may establish, by regulation, a system for the issuance to a CURES Prescription Drug Monitoring Program subscriber of a citation which may contain an order of abatement, or an order to pay an administrative fine assessed by the Department of Justice if the subscriber is in violation of any provision of this chapter or any regulation adopted by the Department of Justice pursuant to this chapter.

(c) The system shall contain the following provisions:

(1) Citations shall be in writing and shall describe with particularity the nature of the violation, including specific reference to the provision of law or regulation of the department determined to have been violated.

(2) Whenever appropriate, the citation shall contain an order of abatement establishing a reasonable time for abatement of the violation.

(3) In no event shall the administrative fine assessed by the department exceed two thousand five hundred dollars (\$2,500) for each violation. In assessing a fine, due consideration shall be given to the appropriateness of the amount of the fine with respect to such factors as the gravity of the violation, the good faith of the subscribers, and the history of previous violations.

(4) An order of abatement or a fine assessment issued pursuant to a citation shall inform the subscriber that if the subscriber desires a hearing to contest the finding of a violation, a hearing shall be requested by written notice to the CURES Prescription Drug Monitoring Program within 30 days of the date of issuance of the citation or assessment. Hearings shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Misc.

BOARD OF PSYCHOLOGY

(5) In addition to requesting a hearing, the subscriber may, within 10 days after service of the citation, request in writing an opportunity for an informal conference with the department regarding the citation. At the conclusion of the informal conference, the department may affirm, modify, or dismiss the citation, including any fine levied or order of abatement issued. The decision shall be deemed to be a final order with regard to the citation issued, including the fine levied or the order of abatement which could include permanent suspension to the system, a monetary fine, or both, depending on the gravity of the violation. However, the subscriber does not waive its right to request a hearing to contest a citation by requesting an informal conference. If the citation is affirmed, a formal hearing may be requested within 30 days of the date the citation was affirmed. If the citation is dismissed after the informal conference, the request for a hearing on the matter of the citation shall be deemed to be withdrawn. If the citation, including any fine levied or order of abatement, is modified, the citation originally issued shall be considered withdrawn and a new citation issued. If a hearing is requested for a subsequent citation, it shall be requested within 30 days of service of that subsequent citation.

(6) Failure of a subscriber to pay a fine within 30 days of the date of assessment or comply with an order of abatement within the fixed time, unless the citation is being appealed, may result in disciplinary action taken by the department. If a citation is not contested and a fine is not paid, the subscriber account will be terminated:

(A) A citation may be issued without the assessment of an administrative fine.

(B) Assessment of administrative fines may be limited to only particular violations of law or department regulations.

(d) Notwithstanding any other provision of law, if a fine is paid to satisfy an assessment based on the finding of a violation, payment of the fine shall be represented as a satisfactory resolution of the matter for purposes of public disclosure.

(e) Administrative fines collected pursuant to this section shall be deposited in the CURES Program Special Fund, available upon appropriation by the Legislature. These special funds shall provide support for costs associated with informal and formal hearings, maintenance, and updates to the CURES Prescription Drug Monitoring Program.

(f) The sanctions authorized under this section shall be separate from, and in addition to, any other administrative, civil, or criminal remedies; however, a criminal action may not be initiated for a specific offense if a citation has been issued pursuant to this section for that offense, and a citation may not be issued pursuant to this section for a specific offense if a criminal action for that offense has been filed.

(g) Nothing in this section shall be deemed to prevent the department from serving and prosecuting an accusation to suspend or revoke a subscriber if grounds for that suspension or revocation exist.

(a) Records of any court of this state, any public or private agency that provides services upon referral under Section 1000.2 of the Penal Code, or of any state agency pertaining to the arrest or conviction of any person for a violation of Section 11357 or subdivision (b) of Section 11360, or pertaining to the arrest or conviction of any person under the age of 18 for a violation of any provision of this article except Section 11357.5, shall not be kept beyond two years from the date of the conviction, or from the date of the arrest if there was no conviction, except with respect to a violation of subdivision (d) of Section 11357, or any other violation by a person under the age of 18 occurring upon the grounds of, or within, any school providing instruction in kindergarten or any of grades 1 to 12, inclusive, during hours the school is open for classes or school-related programs, the records shall be retained until the offender attains the age of 18 years at which time the records shall be destroyed as provided in this section. A court or agency having custody of the records, including the statewide criminal databases, shall provide for the timely destruction of the records in accordance with subdivision (c), and those records

HEALTH AND SAFETY CODE

shall also be purged from the statewide criminal databases. As used in this subdivision, "records pertaining to the arrest or conviction" shall include records of arrests resulting in the criminal proceeding and records relating to other offenses charged in the accusatory pleading, whether the defendant was acquitted or charges were dismissed. The two-year period beyond which records shall not be kept pursuant to this subdivision does not apply to any person who is, at the time at which this subdivision would otherwise require record destruction, incarcerated for an offense subject to this subdivision. For such persons, the two-year period shall commence from the date the person is released from custody. The requirements of this subdivision do not apply to records of any conviction occurring before January 1, 1976, or records of any arrest not followed by a conviction occurring before that date, or records of any arrest for an offense specified in subdivision (c) of Section 1192.7, or subdivision (c) of Section 667.5, of the Penal Code.

(b) This subdivision applies only to records of convictions and arrests not followed by conviction occurring before January 1, 1976, for any of the following offenses:

(1) A violation of Section 11357 or a statutory predecessor thereof.

(2) Unlawful possession of a device, contrivance, instrument, or paraphernalia used for unlawfully smoking cannabis, in violation of Section 11364, as it existed before January 1, 1976, or a statutory predecessor thereof.

(3) Unlawful visitation or presence in a room or place in which cannabis is being unlawfully smoked or used, in violation of Section 11365, as it existed before January 1, 1976, or a statutory predecessor thereof.

(4) Unlawfully using or being under the influence of cannabis, in violation of Section 11550, as it existed before January 1, 1976, or a statutory predecessor thereof.

(A) A person subject to an arrest or conviction for those offenses may apply to the Department of Justice for destruction of records pertaining to the arrest or conviction if two or more years have elapsed since the date of the conviction, or since the date of the arrest if not followed by a conviction. The application shall be submitted upon a form supplied by the Department of Justice and shall be accompanied by a fee, which shall be established by the department in an amount which will defray the cost of administering this subdivision and costs incurred by the state under subdivision (c), but which shall not exceed thirty-seven dollars and fifty cents (\$37.50). The application form may be made available at every local police or sheriff's department and from the Department of Justice and may require that information which the department determines is necessary for purposes of identification.

(B) The department may request, but not require, the applicant to include a self-administered fingerprint upon the application. If the department is unable to sufficiently identify the applicant for purposes of this subdivision without the fingerprint or without additional fingerprints, it shall so notify the applicant and shall request the applicant to submit any

fingerprints which may be required to effect identification, including a complete set if necessary, or, alternatively, to abandon the application and request a refund of all or a portion of the fee submitted with the application, as provided in this section. If the applicant fails or refuses to submit fingerprints in accordance with the department's request within a reasonable time which shall be established by the department, or if the applicant requests a refund of the fee, the department shall promptly mail a refund to the applicant at the address specified in the application or at any other address which may be specified by the applicant. However, if the department has notified the applicant that election to abandon the application will result in forfeiture of a specified amount which is a portion of the fee, the department may retain a portion of the fee which the department determines will defray the actual costs of processing the application, provided the amount of the portion retained shall not exceed ten dollars (\$10).

(C) Upon receipt of a sufficient application, the Department of Justice shall destroy records of the department, if any, pertaining to the arrest or conviction in the manner prescribed by subdivision (c) and shall notify the Federal Bureau of Investigation, the law enforcement agency which arrested the applicant, and, if the applicant was convicted, the probation department which investigated the applicant and the Department of Motor Vehicles, of the application.

(c) Destruction of records of arrest or conviction pursuant to subdivision (a) or (b) shall be accomplished by permanent obliteration of all entries or notations upon the records pertaining to the arrest or conviction, and the record shall be prepared again so that it appears that the arrest or conviction never occurred. However, where (1) the only entries upon the record pertain to the arrest or conviction and (2) the record can be destroyed without necessarily effecting the destruction of other records, then the document constituting the record shall be physically destroyed.

(d) Notwithstanding subdivision (a) or (b), written transcriptions of oral testimony in court proceedings and published judicial appellate reports are not subject to this section. Additionally, no records shall be destroyed pursuant to subdivision (a) if the defendant or a codefendant has filed a civil action against the peace officers or law enforcement jurisdiction which made the arrest or instituted the prosecution and if the agency which is the custodian of those records has received a certified copy of the complaint in the civil action, until the civil action has finally been resolved. Immediately following the final resolution of the civil action, records subject to subdivision (a) shall be destroyed pursuant to subdivision (c) if more than two years have elapsed from the date of the conviction or arrest without conviction.

§ 11361.7. Records not considered accurate, timely, or complete; Use of records

(a) Any record subject to destruction or permanent obliteration pursuant to Section 11361.5, or more than two years of age, or a record of a conviction for an offense specified in subdivision (a) or (b) of Section 11361.5 which became final more than two years previously, shall not be considered to be accurate, relevant, timely, or complete for any purposes by any agency or person. The provisions of this subdivision shall be applicable for purposes of the Privacy Act of 1974 (5 U.S.C. Section 552a) to the fullest extent permissible by law, whenever any information or record subject to destruction or permanent obliteration under Section 11361.5 was obtained by any state agency, local public agency, or any public or private agency that provides services upon referral under Section 1000.2 of the Penal Code, and is thereafter shared with or disseminated to any agency of the federal government.

(b) No public agency shall alter, amend, assess, condition, deny, limit, postpone, qualify, revoke, surcharge, or suspend any certificate, franchise, incident, interest, license, opportunity, permit, privilege, right, or title of any person because of an arrest or conviction for an offense specified in subdivision (a) or (b) of Section 11361.5, or because of the facts or events leading to such an arrest or conviction, on or after the date the records of such arrest or conviction are required to be destroyed by subdivision (a) of Section 11361.5, or two years from the date of such conviction or arrest without conviction with respect to arrests and convictions occurring prior to January 1, 1976. As used in this subdivision, "public agency" includes, but is not limited to, any state, county, city and county, city, public or constitutional corporation or entity, district, local or regional political subdivision, or any department, division, bureau, office, board, commission or other agency thereof.

(c) Any person arrested or convicted for an offense specified in subdivision (a) or (b) of Section 11361.5 may, two years from the date of such a conviction, or from the date of the arrest if there was no conviction, indicate in response to any question concerning his prior criminal record that he was not arrested or convicted for such offense.

(d) The provisions of this section shall be applicable without regard to whether destruction or obliteration of records has actually been implemented pursuant to Section 11361.5.

or by open or negotiated plea, who would not have been guilty of an offense, or who would have been guilty of a lesser offense under the Control, Regulate and Tax Adult Use of Marijuana Act had that act been in effect at the time of the offense may petition for a recall or dismissal of sentence before the trial court that entered the judgment of conviction in their case to request resentencing or dismissal in accordance with Sections 11357, 11358, 11359, 11360, 11362.1, 11362.2, 11362.3, and 11362.4 as those sections have been amended or added by that act.

(b) Upon receiving a petition under subdivision (a), the court shall presume the petitioner satisfies the criteria in subdivision (a) unless the party opposing the petition proves by clear and convincing evidence that the petitioner does not satisfy the criteria. If the petitioner satisfies the criteria in subdivision (a), the court shall grant the petition to recall the sentence or dismiss the sentence because it is legally invalid unless the court determines that granting the petition would pose an unreasonable risk of danger to public safety.

(1) In exercising its discretion, the court may consider, but shall not be limited to evidence provided for in subdivision (b) of Section 1170.18 of the Penal Code.

(2) As used in this section, “unreasonable risk of danger to public safety” has the same meaning as provided in subdivision (c) of Section 1170.18 of the Penal Code.

(c) A person who is serving a sentence and is resentenced pursuant to subdivision (b) shall be given credit for any time already served and shall be subject to supervision for one year following completion of their time in custody or shall be subject to whatever supervision time they would have otherwise been subject to after release, whichever is shorter, unless the court, in its discretion, as part of its resentencing order, releases the person from supervision. Such person is subject to parole supervision under Section 3000.08 of the Penal Code or postrelease community supervision under subdivision (a) of Section 3451 of the Penal Code by the designated agency and the jurisdiction of the court in the county in which the offender is released or resides, or in which an alleged violation of supervision has occurred, for the purpose of hearing petitions to revoke supervision and impose a term of custody.

(d) Under no circumstances may resentencing under this section result in the imposition of a term longer than the original sentence, or the reinstatement of charges dismissed pursuant to a negotiated plea agreement.

(e) A person who has completed their sentence whether by trial or open or negotiated plea, who would not have been guilty of the conviction offense under the Control, Regulate and Tax Adult Use of Marijuana Act had that act been in effect at the time of the offense, may file an application before the trial court that entered the judgment of conviction in their case to have the conviction dismissed and sealed because the prior conviction is now legally invalid or redesignated as a misdemeanor or infraction in accordance with Sections 11357, 11358, 11359, 11360, 11362.1, 11362.2, 11362.3, and 11362.4 as those sections have been amended or added by that act.

HEALTH AND SAFETY CODE

(f) The court shall presume the petitioner satisfies the criteria in subdivision (e) unless the party opposing the application proves by clear and convincing evidence that the petitioner does not satisfy the criteria in subdivision (e). Once the applicant satisfies the criteria in subdivision (e), the court shall redesignate the conviction as a misdemeanor or infraction or dismiss and seal the conviction as legally invalid as now established under the Control, Regulate and Tax Adult Use of Marijuana Act.

(g) Unless requested by the applicant, no hearing is necessary to grant or deny an application filed under subdivision (e).

(h) Any felony conviction that is recalled and resentenced under subdivision (b) or designated as a misdemeanor or infraction under subdivision (f) shall be considered a misdemeanor or infraction for all purposes. Any misdemeanor conviction that is recalled and resentenced under subdivision (b) or designated as an infraction under subdivision (f) shall be considered an infraction for all purposes.

(i) If the court that originally sentenced the petitioner is not available, the presiding judge shall designate another judge to rule on the petition or application.

(j) Nothing in this section is intended to diminish or abrogate any rights or remedies otherwise available to the petitioner or applicant.

(k) Nothing in this and related sections is intended to diminish or abrogate the finality of judgments in any case not falling within the purview of the Control, Regulate and Tax Adult Use of Marijuana Act.

(l) A resentencing hearing ordered under the Control, Regulate and Tax Adult Use of Marijuana Act shall constitute a “post-conviction release proceeding” under paragraph (7) of subdivision (b) of Section 28 of Article I of the California Constitution (Marsy’s Law).

(m) The provisions of this section shall apply equally to juvenile delinquency adjudications and dispositions under Section 602 of the Welfare and Institutions Code if the juvenile would not have been guilty of an offense or would have been guilty of a lesser offense under the Control, Regulate and Tax Adult Use of Marijuana Act.

(n) The Judicial Council shall promulgate and make available all necessary forms to enable the filing of the petitions and applications provided in this section.

appropriate and has been recommended by a physician who has determined that the person's health would benefit from the use of marijuana in the treatment of cancer, anorexia, AIDS, chronic pain, spasticity, glaucoma, arthritis, migraine, or any other illness for which marijuana provides relief.

(B) To ensure that patients and their primary caregivers who obtain and use marijuana for medical purposes upon the recommendation of a physician are not subject to criminal prosecution or sanction.

(C) To encourage the federal and state governments to implement a plan to provide for the safe and affordable distribution of marijuana to all patients in medical need of marijuana.

(2) Nothing in this section shall be construed to supersede legislation prohibiting persons from engaging in conduct that endangers others, nor to condone the diversion of marijuana for nonmedical purposes.

HISTORY:

Adopted by voters, Prop. 215 § 1, effective November 6, 1996.

§ 11362.9. Cannabis Research Program

(a)(1) It is the intent of the Legislature that the state commission objective scientific research by the premier research institute of the world, the University of California, regarding the efficacy and safety of administering cannabis, its naturally occurring constituents, and synthetic compounds, as part of medical treatment. If the Regents of the University of California, by appropriate resolution, accept this responsibility, the University of California shall create a program, to be known as the California Cannabis Research Program, hosted by the Center for Medicinal Cannabis Research. Whenever "California Marijuana Research Program" appears in any statute, regulation, or contract, or in any other code, it shall be construed to refer to the California Cannabis Research Program.

(2) The program shall develop and conduct studies intended to ascertain the general medical safety and efficacy of cannabis and, if found valuable, shall develop medical guidelines for the appropriate administration and use of cannabis. The studies may examine the effect of cannabis on motor skills,

BOARD OF PSYCHOLOGY

the health and safety effects of cannabis, cannabinoids, and other related constituents, and other behavioral and health outcomes.

(b) The program may immediately solicit proposals for research projects to be included in the cannabis studies. Program requirements to be used when evaluating responses to its solicitation for proposals shall include, but not be limited to, all of the following:

(1) Proposals shall demonstrate the use of key personnel, including clinicians or scientists and support personnel, who are prepared to develop a program of research regarding the general medical efficacy and safety of cannabis.

(2) Proposals shall contain procedures for outreach to patients with various medical conditions who may be suitable participants in research on cannabis.

(3) Proposals shall contain provisions for a patient registry.

(4) Proposals shall contain provisions for an information system that is designed to record information about possible study participants, investigators, and clinicians, and deposit and analyze data that accrues as part of clinical trials.

(5) Proposals shall contain protocols suitable for research on cannabis, addressing patients diagnosed with acquired immunodeficiency syndrome (AIDS) or human immunodeficiency virus (HIV), cancer, glaucoma, or seizures or muscle spasms associated with a chronic, debilitating condition. The proposal may also include research on other serious illnesses, provided that resources are available and medical information justifies the research.

(6) Proposals shall demonstrate the use of a specimen laboratory capable of housing plasma, urine, and other specimens necessary to study the concentration of cannabinoids in various tissues, as well as housing specimens for studies of toxic effects of cannabis.

(7) Proposals shall demonstrate the use of a laboratory capable of analyzing cannabis, provided to the program under this section, for purity and cannabinoid content and the capacity to detect contaminants.

(c) In order to ensure objectivity in evaluating proposals, the program shall use a peer review process that is modeled on the process used by the National Institutes of Health, and that guards against funding research that is biased in favor of or against particular outcomes. Peer reviewers shall be selected for their expertise in the scientific substance and methods of the proposed research, and their lack of bias or conflict of interest regarding the applicants or the topic of an approach taken in the proposed research. Peer reviewers shall judge research proposals on several criteria, foremost among which shall be both of the following:

(1) The scientific merit of the research plan, including whether the research design and experimental procedures are potentially biased for or against a particular outcome.

(2) Researchers' expertise in the scientific substance and methods of the proposed research, and their lack of bias or conflict of interest regarding the topic of, and the approach taken in, the proposed research.

HEALTH AND SAFETY CODE

(d) If the program is administered by the Regents of the University of California, any grant research proposals approved by the program shall also require review and approval by the research advisory panel.

(e) It is the intent of the Legislature that the program be established as follows:

(1) The program shall be located at one or more University of California campuses that have a core of faculty experienced in organizing multidisciplinary scientific endeavors and, in particular, strong experience in clinical trials involving psychopharmacologic agents. The campuses at which research under the auspices of the program is to take place shall accommodate the administrative offices, including the director of the program, as well as a data management unit, and facilities for detection and analysis of various naturally occurring and synthetic cannabinoids, as well as storage of specimens.

(2) When awarding grants under this section, the program shall utilize principles and parameters of the other well-tested statewide research programs administered by the University of California, modeled after programs administered by the National Institutes of Health, including peer review evaluation of the scientific merit of applications.

(3) The scientific and clinical operations of the program shall occur partly at University of California campuses and partly at other postsecondary institutions that have clinicians or scientists with expertise to conduct the required studies. Criteria for selection of research locations shall include the elements listed in subdivision (b) and, additionally, shall give particular weight to the organizational plan, leadership qualities of the program director, and plans to involve investigators and patient populations from multiple sites.

(4) The funds received by the program shall be allocated to various research studies in accordance with a scientific plan developed by the Scientific Advisory Council. As the first wave of studies is completed, it is anticipated that the program will receive requests for funding of additional studies. These requests shall be reviewed by the Scientific Advisory Council.

(5) The size, scope, and number of studies funded shall be commensurate with the amount of appropriated and available program funding.

(f) All personnel involved in implementing approved proposals shall be authorized as required by Section 11604.

(g) Studies conducted pursuant to this section shall include the greatest amount of new scientific research possible on the medical uses of, and medical hazards associated with, cannabis. The program shall consult with the Research Advisory Panel analogous agencies in other states, and appropriate federal agencies in an attempt to avoid duplicative research and the wasting of research dollars.

(h) The program shall make every effort to recruit qualified patients and qualified physicians from throughout the state.

(i) The cannabis studies shall employ state-of-the-art research methodologies.

Misc.

BOARD OF PSYCHOLOGY

(j) The program shall ensure that all cannabis used in the studies is of the appropriate medicinal quality. Cannabis used by the program may be obtained from the National Institute on Drug Abuse or any other entity authorized by the appropriate federal agencies, the Attorney General pursuant to Section 11478, or may be cultivated by the program pursuant to applicable federal and state laws and regulations.

(k) The program may review, approve, or incorporate studies and research by independent groups presenting scientifically valid protocols for medical research, regardless of whether the areas of study are being researched by the committee.

(l)(1) To enhance understanding of the efficacy and adverse effects of cannabis as a pharmacological agent, the program shall conduct focused controlled clinical trials on the usefulness of cannabis in patients diagnosed with AIDS or HIV, cancer, glaucoma, or seizures or muscle spasms associated with a chronic, debilitating condition. The program may add research on other serious illnesses, provided that resources are available and medical information justifies the research. The studies shall focus on comparisons of both the efficacy and safety of methods of administering the drug to patients, including inhalational, tinctural, and oral, evaluate possible uses of cannabis as a primary or adjunctive treatment, and develop further information on optimal dosage, timing, mode of administration, and variations in the effects of different cannabinoids and varieties of cannabis or synthetic compounds that simulate the effects of naturally occurring cannabinoids. The studies may also focus on examining testing methods for detecting harmful contaminants in cannabis, including, but not limited to, mold, bacteria, and mycotoxins that could cause harm to patients.

(2) The program shall examine the safety of cannabis in patients with various medical disorders, including the interaction of cannabis with other drugs, relative safety of inhalation versus oral forms, and the effects on mental function in medically ill persons.

(3) The program shall be limited to providing for objective scientific research to ascertain the efficacy and safety of cannabis as part of medical treatment, and should not be construed as encouraging or sanctioning the social or recreational use of cannabis.

(m)(1) Subject to paragraph (2), the program shall, prior to approving proposals, seek to obtain research protocol guidelines from the National Institutes of Health and shall, if the National Institutes of Health issues research protocol guidelines, comply with those guidelines.

(2) If, after a reasonable period of time of not less than six months and not more than a year has elapsed from the date the program seeks to obtain guidelines pursuant to paragraph (1), no guidelines have been approved, the program may proceed using the research protocol guidelines it develops.

(n) In order to maximize the scope and size of the cannabis studies, the program may do any of the following:

(1) Solicit, apply for, and accept funds from foundations, private individuals, and all other funding sources that can be used to expand the scope or

HEALTH AND SAFETY CODE

timeframe of the cannabis studies that are authorized under this section. The program shall not expend more than 5 percent of its General Fund allocation in efforts to obtain money from outside sources.

(2) Include within the scope of the cannabis studies other cannabis research projects that are independently funded and that meet the requirements set forth in subdivisions (a) to (c), inclusive. In no case shall the program accept funds that are offered with any conditions other than that the funds be used to study the efficacy and safety of cannabis as part of medical treatment.

(o)(1) Within six months of the effective date of this section, the program shall report to the Legislature, the Governor, and the Attorney General on the progress of the cannabis studies.

(2) Thereafter, the program shall issue a report to the Legislature every 24 months detailing the progress of the studies. The interim reports required under this paragraph shall include, but not be limited to, data on all of the following:

(A) The names and number of diseases or conditions under study.

(B) The number of patients enrolled in each study, by disease.

(C) Any scientifically valid preliminary findings.

(p) If the Regents of the University of California implement this section, the President of the University of California, or the president's designee, shall appoint a multidisciplinary Scientific Advisory Council, not to exceed 15 members, to provide policy guidance in the creation and implementation of the program. Members shall be chosen on the basis of scientific expertise. Members of the council shall serve on a voluntary basis, with reimbursement for expenses incurred in the course of their participation. The members shall be reimbursed for travel and other necessary expenses incurred in their performance of the duties of the council.

(q) No more than 10 percent of the total funds appropriated may be used for all aspects of the administration of this section.

(r) This section shall be implemented only to the extent that funding for its purposes is appropriated by the Legislature.

(s) Money appropriated to the program pursuant to subdivision (e) of Section 34019 of the Revenue and Taxation Code shall only be used as authorized by the Control, Regulate and Tax Adult Use of Marijuana Act (AUMA).

(t) This section does not limit or preclude cannabis-related research activities at any campus of the University of California.

alcohol shall not be grounds for dismissal from the program, unless the person is not making progress in the program. The court shall consider a report or recommendation of the treatment provider in making this determination. It shall be presumed that a person engaged in a program is making progress, unless that presumption is defeated by clear and convincing evidence. The person may offer evidence or an argument that he or she would benefit from and make progress in a different program or mode. If the court so finds, it may place the person in a different treatment program.

(c) Notwithstanding any other law, the following persons are excluded from participation in the program under this section:

(1) A person with a history of violence that indicates that he or she presents a current risk of violent behavior currently or during the treatment program. This ground for exclusion shall be established by clear and convincing evidence.

(2) A person required to register as a sex offender pursuant to Section 290, unless the court finds by clear and convincing evidence that the person does not present a substantial risk of committing sexual offenses currently or through the course of the program and the person would benefit from the program, including that treatment would reduce the risk that the person would sexually reoffend.

(3) A person who the treatment provider concludes is unamenable to any and all forms of drug treatment. The defendant may present evidence that he or she is amenable to treatment and the court may retain the person in the program if the court finds that the person is amenable to treatment through a different provider or a different mode of treatment.

(d) Notwithstanding any other law, a prior conviction for an offense involving a controlled substance or drug that may not be possessed without a prescription, including a substance listed in Section 11357.5 or 11375.5, is not grounds for exclusion from the program, unless the court finds by clear and convincing evidence that the person is likely to engage in drug commerce for financial gain, rather than for purposes of obtaining a drug or drugs for personal use.

ANALOGS

HISTORY: Added Stats 1988 ch 712 § 4, effective August 29, 1988.

§ 11400. Legislative findings and declarations

The Legislature finds and declares that the laws of this state which prohibit the possession, possession for sale, offer for sale, sale, manufacturing, and transportation of controlled substances are being circumvented by the commission of those acts with respect to analogs of specified controlled substances which have, are represented to have, or are intended to have effects on the central nervous system which are substantially similar to, or greater than, the controlled substances classified in Sections 11054 and 11055 and the synthetic cannabinoid compounds defined in Section 11357.5, of which they are analogs. These analogs have been synthesized by so-called “street chemists” and imported into this state from other jurisdictions as precursors to, or substitutes for, controlled substances and synthetic cannabinoid compounds, due to the nonexistence of applicable criminal penalties. These analogs present grave dangers to the health and safety of the people of this state. Therefore, it is the intent of the Legislature that a controlled substance or controlled substance analog, as defined in Section 11401, be considered identical, for purposes of the penalties and punishment specified in Chapter 6 (commencing with Section 11350), to the controlled substance in Section 11054 or 11055 or the synthetic cannabinoid compound defined in Section 11357.5 of which it is an analog.

HISTORY:

Added Stats 1988 ch 712 § 4, effective August 29, 1988. Amended Stats 2016 ch 627 § 1 (SB 1036), effective January 1, 2017; Stats 2017 ch 561 § 113 (AB 1516), effective January 1, 2018.

§ 11401. “Controlled substance analog”

(a) A controlled substance analog shall, for the purposes of Chapter 6 (commencing with Section 11350), be treated the same as the controlled substance classified in Section 11054 or 11055 or the synthetic cannabinoid compound defined in Section 11357.5 of which it is an analog.

(b) Except as provided in subdivision (c), the term “controlled substance analog” means either of the following:

(1) A substance the chemical structure of which is substantially similar to the chemical structure of a controlled substance classified in Section 11054 or 11055 or a synthetic cannabinoid compound defined in Section 11357.5.

HEALTH AND SAFETY CODE

(2) A substance that has, is represented as having, or is intended to have a stimulant, depressant, or hallucinogenic effect on the central nervous system that is substantially similar to, or greater than, the stimulant, depressant, or hallucinogenic effect on the central nervous system of a controlled substance classified in Section 11054 or 11055 or a synthetic cannabinoid compound defined in Section 11357.5.

(c) The term “controlled substance analog” does not mean any of the following:

(1) A substance for which there is an approved new drug application as defined under Section 505 of the federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 355) or that is generally recognized as safe and effective for use pursuant to Sections 501, 502, and 503 of the federal Food, Drug, and Cosmetic Act (21 U.S.C. Secs. 351, 352, and 353) and Section 330 and following of Title 21 of the Code of Federal Regulations.

(2) With respect to a particular person, a substance for which an exemption is in effect for investigational use for that person under Section 505 of the federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 355), to the extent that the conduct with respect to that substance is pursuant to the exemption.

(3) A substance, before an exemption as specified in paragraph (2) takes effect with respect to the substance, to the extent the substance is not intended for human consumption.

CHAPTER 3.5

COMMUNICABLE DISEASES EXPOSURE NOTIFICATION ACT

HISTORY: Added Stats 2002 ch 342 § 1.

§ 120260. Legislative findings

(a) The Legislature finds and declares all of the following:

(1) Early knowledge of infection with communicable disease is important in order to permit exposed persons to make informed health care decisions as well as to take measures to reduce the likelihood of transmitting the infection to others.

(2) Individual health care providers, agents and employees of health care facilities and individual health care providers, and first responders, including police, firefighters, rescue personnel, and other persons who provide the first response to emergencies, frequently come into contact with the blood and other potentially infectious materials of individuals whose communicable disease infection status is not known.

(3) Even if these exposed individuals use universal infection control precautions to prevent transmission of communicable diseases, there will be occasions when they experience significant exposure to the blood or other potentially infectious materials of patients.

(b) Therefore, it is the intent of the Legislature to provide a narrow exposure notification and information mechanism to permit individual health care providers, the employees or contracted agents of health care facilities and individual health care providers, and first responders, who have experienced a significant exposure to the blood or other potentially infectious materials of a patient, to learn of the communicable disease infection status of the patient.

(a) “Attending physician of the source patient” means any physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code and any person licensed pursuant to the Osteopathic Initiative Act, who provides health care services to the source patient. Notwithstanding any other provision of this subdivision to the contrary, the attending physician of the source patient shall include any of the following persons:

(1) The private physician of the source patient.

(2) The physician primarily responsible for the patient who is undergoing inpatient treatment in a hospital.

(3) A registered nurse or licensed nurse practitioner who has been designated by the attending physician of the source patient.

(b) “Available blood or patient sample” means blood or other tissue or material that was legally obtained in the course of providing health care services, and is in the possession of the physician or other health care provider of the source patient prior to the release of the source patient from the physician’s or health care provider’s facility.

(c) “Certifying physician” means any physician consulted by the exposed individual for the exposure incident. A certifying physician shall have demonstrated competency and understanding of the then applicable guidelines or standards of the Division of Occupational Safety and Health.

(d) “Communicable disease” means any disease that was transferable through the exposure incident, as determined by the certifying physician.

(e) “Exposed individual” means any individual health care provider, first responder, or any other person, including, but not limited to, any employee, volunteer, or contracted agent of any health care provider, who is exposed, within the scope of his or her employment, to the blood or other potentially infectious materials of a source patient.

(f) “Health care provider” means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, any person licensed pursuant to the Osteopathic Initiative Act or the Chiropractic Initiative Act, any person certified pursuant to Division 2.5

(commencing with Section 1797), any clinic, health dispensary, or health facility licensed or exempt from licensure pursuant to Division 2 (commencing with Section 1200), any employee, volunteer, or contracted agent of any group practice prepayment health care service plan regulated pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2), and any professional student of one of the clinics, health dispensaries, or health care facilities or health care providers described in this subdivision.

(g) “First responder” means a police officer, firefighter, rescue worker, or any other person who provides emergency response, first aid care, or other medically related assistance either in the course of the person’s occupational duties or as a volunteer.

(h) “Other potentially infectious materials” means those body fluids identified by the Division of Occupational Safety and Health as potentially capable of transmitting a communicable disease.

(i) “Significant exposure” means direct contact with blood or other potentially infectious materials of a patient in a manner that, according to the then applicable guidelines of the Division of Occupational Safety and Health, is capable of transmitting a communicable disease.

(j) “Source patient” means any person receiving health care services whose blood or other potentially infectious material has been the source of a significant exposure to an exposed individual.

HISTORY:

Added Stats 2002 ch 342 § 1 (AB 2423).

§ 120262. Testing of source patient; Notification to exposed individual

Notwithstanding Chapter 7 (commencing with Section 120975) or any other law, the blood or other tissue or material of a source patient may be tested, and an exposed individual may be informed whether the patient has tested positive or negative for a communicable disease if the exposed individual and the health care facility, if any, have substantially complied with the then applicable guidelines of the Division of Occupational Safety and Health and the State Department of Health Services and if the following procedure is followed:

(a)(1) If a person becomes an exposed individual by experiencing an exposure to the blood or other potentially infectious material of a patient during the course of rendering health care-related services or occupational services, the exposed individual may request an evaluation of the exposure by a physician to determine if it is a significant exposure, as defined in subdivision (h) of Section 120261. A physician or other exposed individual shall not certify his or her own significant exposure. However, an employing physician may certify the exposure of one of his or her employees. Requests for certification shall be made in writing within 72 hours of the exposure.

HEALTH AND SAFETY CODE

(2) A written certification by a physician of the significance of the exposure shall be obtained within 72 hours of the request. The certification shall include the nature and extent of the exposure.

(b)(1) The exposed individual shall be counseled regarding the likelihood of transmission, the limitations of the testing performed, the need for followup testing, and the procedures that the exposed individual must follow regardless of whether the source patient has tested positive or negative for a communicable disease. The exposed individual may be tested in accordance with the then applicable guidelines or standards of the Division of Occupational Safety and Health. The result of this test shall be confirmed as negative before available blood or other patient samples of the source patient may be tested for evidence of infection to a communicable disease, without the consent of the source patient pursuant to subdivision (d).

(2) Within 72 hours of certifying the exposure as significant, the certifying physician shall provide written certification to an attending physician of the source patient that a significant exposure to an exposed individual has occurred, and shall request information on whether the source patient has tested positive or negative for a communicable disease, and the availability of blood or other patient samples. An attending physician shall respond to the request for information within three working days.

(c) If test results of the source patient are already known to be positive for a communicable disease then, except as provided in subdivisions (b) and (c) of Section 121010, when the exposed individual is a health care provider or an employee or agent of the health care provider of the source patient, an attending physician and surgeon of the source patient shall attempt to obtain the consent of the source patient to disclose to the exposed individual the testing results of the source patient regarding communicable diseases. If the source patient cannot be contacted or refuses to consent to the disclosure, then the exposed individual may be informed of the test results regarding communicable diseases of the source patient by an attending physician of the source patient as soon as possible after the exposure has been certified as significant, notwithstanding Section 120980 or any other law.

(d) If the communicable disease status of the source patient is unknown to the certifying physician or an attending physician, if blood or other patient samples are available, and if the exposed individual has tested negative on a baseline test for communicable diseases, the source patient shall be given the opportunity to give informed consent to a test for communicable diseases in accordance with the following:

(1) Within 72 hours after receiving a written certification of significant exposure, an attending physician of the source patient shall do all of the following:

(A) Make a good faith effort to notify the source patient or the authorized legal representative of the source patient about the signifi-

cant exposure. A good faith effort to notify includes, but is not limited to, a documented attempt to locate the source patient by telephone or by first-class mail with a certificate of mailing. An attempt to locate the source patient and the results of that attempt shall be documented in the medical record of the source patient. An inability to contact the source patient, or legal representative of the source patient, after a good faith effort to do so as provided in this subdivision, shall constitute a refusal of consent pursuant to paragraph (2). An inability of the source patient to provide informed consent shall constitute a refusal of consent pursuant to paragraph (2), provided all of the following conditions are met:

(i) The source patient has no authorized legal representative.

(ii) The source patient is incapable of giving consent.

(iii) In the opinion of the attending physician, it is likely that the source patient will be unable to grant informed consent within the 72-hour period during which the physician is required to respond pursuant to paragraph (1).

(B) Attempt to obtain the voluntary informed consent of the source patient or the authorized legal representative of the source patient to perform a test for a communicable disease, on the source patient or on any available blood or patient sample of the source patient. The voluntary informed consent shall be in writing. The source patient shall have the option not to be informed of the test result. An exposed individual shall be prohibited from attempting to obtain directly informed consent for testing for communicable diseases from the source patient.

(C) Provide the source patient with medically appropriate pretest counseling and refer the source patient to appropriate posttest counseling and followup, if necessary. The source patient shall be offered medically appropriate counseling whether or not he or she consents to testing.

(2) If the source patient or the authorized legal representative of the source patient refuses to consent to test for a communicable disease after a documented effort has been made to obtain consent, any available blood or patient sample of the source patient may be tested. The source patient or authorized legal representative of the source patient shall be informed that an available blood sample or other tissue or material will be tested despite his or her refusal, and that the exposed individual shall be informed of the test results regarding communicable diseases.

(3) If the informed consent of the source patient cannot be obtained because the source patient is deceased, consent to perform a test for a communicable disease on any blood or patient sample of the source patient legally obtained in the course of providing health care services at the time of the exposure event shall be deemed granted.

(4) A source patient or the authorized legal representative of a source patient shall be advised that he or she shall be informed of the results of

HEALTH AND SAFETY CODE

the test for communicable diseases only if he or she wishes to be so informed. If a patient refuses to provide informed consent to testing for communicable diseases and refuses to learn the results of the testing, he or she shall sign a form documenting this refusal. The source patient's refusal to sign this form shall be construed to be a refusal to be informed of the test results regarding communicable diseases. Test results for communicable diseases shall only be placed in the medical record when the patient has agreed in writing to be informed of the results.

(5) Notwithstanding any other law, if the source patient or authorized legal representative of a source patient refuses to be informed of the results of the test, the test results regarding communicable diseases of that source patient shall only be provided to the exposed individual in accordance with the then applicable regulations established by the Division of Occupational Safety and Health.

(6) The source patient's identity shall be encoded on the communicable disease test result record.

(e) If an exposed individual is informed of the status of a source patient with regard to a communicable disease pursuant to this section, the exposed individual shall be informed that he or she is subject to existing confidentiality protections for any identifying information about the communicable disease test results, and that medical information regarding the communicable disease status of the source patient shall be kept confidential and may not be further disclosed, except as otherwise authorized by law. The exposed individual shall be informed of the penalties for which he or she would be personally liable for violation of Section 120980.

(f) The costs for the test and counseling for communicable diseases of the exposed individual, or the source patient, or both, shall be borne by the employer of the exposed individual, if any. An employer who directs and controls the exposed individual shall provide the postexposure evaluation and followup required by the Division of Occupational Safety and Health as well as the testing and counseling for source patients required under this chapter. If an exposed individual is a volunteer or a student, then the health care provider or first responder that assigned a task to the volunteer or student may pay for the costs of testing and counseling as if that volunteer or student were an employee. If an exposed individual, who is not an employee of a health facility or of another health care provider, chooses to obtain postexposure evaluation or followup counseling, or both, or treatment, he or she shall be financially responsible for the costs thereof and shall be responsible for the costs of the testing and counseling for the source patient.

(g) This section does not authorize the disclosure of the source patient's identity.

(h) This section does not authorize a health care provider to draw blood or other body fluids except as otherwise authorized by law.

(i) The provisions of this section are cumulative only and shall not

BOARD OF PSYCHOLOGY

preclude testing of source patients for a communicable disease, as authorized by any other law.

(j) Except as otherwise provided under this section, all confidentiality requirements regarding medical records that are provided for under existing law apply to this section.

§ 120985. Disclosure to health care providers

(a) Notwithstanding Section 120980, the results of an HIV test that identifies or provides identifying characteristics of the person to whom the test results apply may be recorded by the physician who ordered the test in the test subject's medical record or otherwise disclosed without written authorization of the subject of the test, or the subject's representative as set forth in Section 121020, to the test subject's providers of health care, as defined in Section 56.05 of the Civil Code, for purposes of diagnosis, care, or treatment of the patient, except that for purposes of this section, "providers of health care" does not include a health care service plan regulated pursuant to Chapter 2.2 (commencing with Section 1340) of Division 2.

BOARD OF PSYCHOLOGY

(b) Recording or disclosure of HIV test results pursuant to subdivision (a) does not authorize further disclosure unless otherwise permitted by law.

HISTORY:

Added Stats 1995 ch 415 § 7 (SB 1360). Amended Stats 2013 ch 444 § 14 (SB 138), effective January 1, 2014.

§ 120990. Written consent to test; Exceptions; Patient shall receive information and counseling

(a) Prior to ordering a test that identifies infection of a patient with HIV, a medical care provider shall inform the patient that the test is planned, provide information about the test, inform the patient that there are numerous treatment options available for a patient who tests positive for HIV and that a person who tests negative for HIV should continue to be routinely tested, and advise the patient that he or she has the right to decline the test. If a patient declines the test, the medical care provider shall note that fact in the patient's medical file.

(b) Subdivision (a) does not apply when a person independently requests an HIV test from a medical care provider.

(c) Except as provided in subdivision (a), a person shall not administer a test for HIV infection unless the person being tested or his or her parent, guardian, conservator, or other person specified in Section 121020 has provided informed consent for the performance of the test. Informed consent may be provided orally or in writing, but the person administering the test shall maintain documentation of consent, whether obtained orally or in writing, in the client's medical record. This consent requirement does not apply to a test performed at an alternative site pursuant to Section 120890 or 120895. This section does not authorize a person to administer a test for HIV unless that person is otherwise lawfully permitted to administer an HIV test.

(d) Subdivision (c) shall not apply when a person independently requests an HIV test from an HIV counseling and testing site that employs a trained HIV counselor, pursuant to Section 120917, provided that the person is provided with information required pursuant to subdivision (a) and his or her independent request for an HIV test is documented by the person administering the test.

(e) Nothing in this section shall preclude a medical examiner or other physician from ordering or performing a test to detect HIV on a cadaver when an autopsy is performed or body parts are donated pursuant to the Uniform Anatomical Gift Act (Chapter 3.5 (commencing with Section 7150) of Part 1 of Division 7).

(f)(1) The requirements of subdivision (c) do not apply when blood is tested as part of a scientific investigation conducted either by a medical researcher operating under the approval of an institutional review board or by the department, in accordance with a protocol for unlinked testing.

(2) For purposes of this subdivision, "unlinked testing" means blood samples that are obtained anonymously, or that have the name or identify-

ing information of the individual who provided the sample removed in a manner that prevents the test results from ever being linked to the particular individual who participated in the research or study.

(g) Nothing in this section permits a person to unlawfully disclose an individual's HIV status, or to otherwise violate provisions of Section 54 of the Civil Code, the Americans With Disabilities Act of 1990 (Public Law 101-336), or the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2 of the Government Code), which prohibit discrimination against individuals who are living with HIV, who test positive for HIV, or who are presumed to be HIV-positive.

(h) After the results of a test performed pursuant to this section have been received, the medical care provider or the person who administers the test shall ensure that the patient receives timely information and counseling, as appropriate, to explain the results and the implications for the patient's health. If the patient tests positive for HIV infection, the medical provider or the person who administers the test shall inform the patient that there are numerous treatment options available and identify followup testing and care that may be recommended, including contact information for medical and psychological services. If the patient tests negative for HIV infection and is determined to be at high risk for HIV infection by the medical provider or person administering the test, the medical provider or the person who administers the test shall advise the patient of the need for periodic retesting, explain the limitations of current testing technology and the current window period for verification of results, and provide information about methods that prevent or reduce the risk of contracting HIV, including, but not limited to, preexposure prophylaxis and postexposure prophylaxis, consistent with guidance of the federal Centers for Disease Control and Prevention, and may offer prevention counseling or a referral to prevention counseling.

(i) This section shall not apply to a clinical laboratory.

§ 120991. Primary care clinic shall offer HIV test

(a) Each patient who has blood drawn at a primary care clinic and who has consented to the HIV test pursuant to Section 120990 shall be offered an HIV test. The primary care clinician shall offer an HIV test consistent with the United States Preventive Services Task Force recommendation for screening HIV infection. This subdivision shall not apply if the primary care clinic has tested the patient for HIV or if the patient has been offered the HIV test and declined the test within the previous 12 months. Any subsequent testing of a patient who has been tested by the primary care clinic shall be consistent with the most recent guidelines issued by the United States Preventive Services Task Force.

BOARD OF PSYCHOLOGY

(b) HIV testing of minors 12 years of age or older shall comply with Section 6926 of the Family Code.

(c) This section shall not prohibit a primary care clinic from charging a patient to cover the cost of HIV testing. The primary care clinic shall be deemed to have complied with this section if an HIV test is offered.

(d) A primary care clinic shall attempt to provide test results to the patient before he or she leaves the facility. If that is not possible, the facility may inform the patient who tests negative for HIV by letter or by telephone, and shall inform a patient with a positive test result in a manner consistent with state law. However, in any case, the primary care clinic shall comply with subdivision (g) of Section 120990.

§ 120992. HIV testing pilot program

(a) There is hereby created a pilot project, to be administered by the department, in order to assess and make recommendations regarding the effectiveness of the routine offering of an HIV test in the emergency department of a hospital.

(b) The department shall select four hospitals that have emergency departments to voluntarily participate in the pilot project. The department may select fewer hospitals if an insufficient number of hospitals express willingness to voluntarily participate.

(1) Two of the hospitals shall be selected from large urban areas.

(2) One hospital shall be selected from a small urban or suburban area.

(3) One hospital shall be selected from a rural area.

(c) Each hospital in the pilot project shall offer an HIV test to any patient in the hospital emergency department who has consented to the HIV test pursuant to Section 120990. The emergency department shall comply with subdivision (h) of Section 120990 and may choose to comply either by using emergency department or other hospital personnel or engaging the services of an HIV organization that has experience in prevention counseling for persons at risk for HIV.

(d)(1) A hospital in the pilot project shall not offer a test to any person who is being treated for a life-threatening emergency or who lacks the capacity to consent to an HIV test.

(2) If an emergency department physician at a hospital in the pilot project determines that a patient is in significant pain or distress, including psychological distress, the hospital shall not offer an HIV test to the patient. Once an emergency department physician determines that the patient has stabilized and is no longer in significant pain or distress, including psychological distress, the hospital shall offer an HIV test to the patient.

HEALTH AND SAFETY CODE

(e) A hospital in the pilot project shall offer HIV tests to individuals 15 to 65 years of age, inclusive, pursuant to the United States Preventive Services Task Force recommendations. In order to protect the confidentiality and privacy interests of minors, the hospital shall not offer HIV tests to individuals 15 to 17 years of age, inclusive, in the presence of their parent or legal guardian.

(f) A hospital in the pilot project shall be authorized to charge a patient for the cost of the HIV testing.

(g) A hospital in the pilot project shall be directed by the department, in a form, manner, and timeframe determined by the department, to collect and report data on the following topics:

(1) The frequency of HIV test offers.

(2) The frequency of consent or nonconsent to an HIV test and any reasons given by the patient for the consent or the nonconsent.

(3) The time taken to offer an HIV test and secure consent from a patient and the time taken to provide information and counseling pursuant to subdivision (h) of Section 120990.

(4) The aggregate HIV positivity rate.

(5) The frequency with which patients agree to participate in a session to receive information and counseling pursuant to subdivision (h) of Section 120990 and the reasons that patients give for refusing to participate.

(6) The frequency of patients leaving the emergency department without receiving their test results.

(h) A hospital in the pilot project shall provide information to the department regarding its practices and protocols for implementing the offer of an HIV test and the required followup to the test, as well as an assessment of the effectiveness of those practices and protocols.

(i)(1) The pilot project shall commence on March 1, 2017, and end on February 28, 2019.

(2) By December 1, 2019, the department shall complete a report to the Legislature on the findings of the hospitals in the pilot project and make recommendations about routine HIV testing in hospital emergency departments. In preparing the report to the Legislature, the department shall solicit input from a broad range of HIV testing and hospital stakeholders.

(j)(1) The requirement for submitting a report imposed under paragraph (2) of subdivision (i) is inoperative on December 1, 2023, pursuant to Section 10231.5 of the Government Code.

(2) A report submitted pursuant to paragraph (2) of subdivision (i) shall be submitted in compliance with Section 9795 of the Government Code.

(k) For purposes of this section, "hospital" means a general acute care hospital as defined in subdivision (a) of Section 1250.

§ 121015. Liability for disclosure of AIDS test results; Confidentiality of identity of person tested and persons contacted

(a) Notwithstanding Section 120980 or any other provision of law, no physician and surgeon who has the results of a confirmed positive test to detect HIV infection of a patient under his or her care shall be held criminally or civilly liable for disclosing to a person reasonably believed to be the spouse, or to a person reasonably believed to be a sexual partner or a person with whom the patient has shared the use of hypodermic needles, or to the local health officer or designated local public health agency staff for HIV partner services, that the patient has tested positive on a test to detect HIV infection, except that no physician and surgeon shall disclose any identifying information about the individual believed to be infected, except as required in Section 121022 or with the written consent of the individual pursuant to subdivision (g) of Section 120980.

(b) No physician and surgeon shall disclose the information described in subdivision (a) unless he or she has first discussed the test results with the patient and has offered the patient appropriate educational and psychological counseling, that shall include information on the risks of transmitting the human immunodeficiency virus to other people and methods of avoiding those risks, and has attempted to obtain the patient's voluntary consent for notification of his or her contacts. The physician and surgeon shall notify the patient of his or her intent to notify the patient's contacts prior to any notification. When the information is disclosed to a person reasonably believed to be a spouse, or to a person reasonably believed to be a sexual partner, or a person with whom the patient has shared the use of hypodermic needles, the physician and surgeon shall refer that person for appropriate care, counseling, and followup. This section shall not apply to disclosures made other than for the purpose of diagnosis, care, and treatment of persons notified pursuant to this section, or for the purpose of interrupting the chain of transmission.

(c) This section is permissive on the part of the attending physician, and all requirements and other authorization for the disclosure of test results to detect HIV infection are limited to the provisions contained in this chapter, Chapter 10 (commencing with Section 121075) and Sections 1603.1 and 1603.3. No physician has a duty to notify any person of the fact that a patient is reasonably believed to be infected with HIV, except as required by Section 121022.

(d) The local health officer or the designated local public health agency staff for HIV partner services may, without incurring civil or criminal liability, alert any persons reasonably believed to be a spouse, sexual partner, or partner of shared needles of an individual who has tested positive on an HIV test about their exposure, without disclosing any identifying information about the individual believed to be infected or the physician making the report, and shall

(e) The local health officer shall keep confidential the identity and the seropositivity status of the individual tested and the identities of the persons contacted, as long as records of contacts are maintained.

(f) Except as provided in Section 1603.1, 1603.3, or 121022, no person shall be compelled in any state, county, city, or local civil, criminal, administrative, legislative, or other proceedings to identify or provide identifying characteristics that would identify any individual reported or person contacted pursuant to this section.

§ 121020. Requirement of written consent for incompetent subject; Consent for minor or infant; Disclosure of results; Positive test by infant

(a)(1) When the subject of an HIV test is not competent to give consent for the test to be performed, written consent for the test may be obtained from the subject's parents, guardians, conservators, or other person lawfully authorized to make health care decisions for the subject. For purposes of this paragraph, a minor shall be deemed not competent to give consent if he or she is under 12 years of age.

(2) Notwithstanding paragraph (1), when the subject of the HIV test is a minor adjudged to be a dependent child of the court pursuant to Section 360 of the Welfare and Institutions Code, written consent for the test to be performed may be obtained from the court pursuant to its authority under Section 362 or 369 of the Welfare and Institutions Code.

(ii) The social worker provides known information concerning the infant's possible risk factors regarding exposure to HIV to the attending physician and surgeon.

(iii) The social worker has made reasonable efforts to contact the parent or guardian but was unable to do so, and the social worker has documented his or her efforts to contact that person.

(B) The attending physician and surgeon and the social worker shall comply with all applicable state and federal confidentiality and privacy laws, including Section 121025, to protect the confidentiality and privacy interests of both the infant and the biological mother.

(b) Written consent shall only be obtained for the subject pursuant to paragraphs (1) and (2) of subdivision (a) when necessary to render appropriate care or to practice preventative measures.

(c) The person authorized to consent to the test pursuant to subdivision (a) shall be permitted to do any of the following:

(1) Notwithstanding Sections 120975 and 120980, receive the results of the test on behalf of the subject without written authorization.

(2) Disclose the test results on behalf of the subject in accordance with Sections 120975 and 120980.

(3) Provide written authorization for the disclosure of the test results on behalf of the subject in accordance with Sections 120975 and 120980.

(d)(1) If an infant tested for HIV pursuant to paragraph (3) of subdivision (a) tests positive for HIV infection and the physician and surgeon determines that immediate HIV medical care is necessary to render appropriate care to that infant, the provision of HIV medical care shall be considered emergency medical care, pursuant to subdivision (d) of Section 369 of the Welfare and Institutions Code.

(2) If an infant tests positive for HIV in a test performed pursuant to this section, the social worker shall provide to the physician and surgeon any available contact information for the biological mother for purposes of reporting the HIV infection to the local health officer pursuant to Section 121022. Cases reported to the local health officer under this subdivision are subject to the requirements of Section 120175.

(e) Pursuant to Section 121025, reported cases of HIV infection shall not be disclosed, discoverable, or compelled to be produced in any civil, criminal, administrative, or other proceeding.

(f) State and local health department employees and contractors shall be required to sign confidentiality agreements developed by the department that include information related to the penalties for a breach of confidentiality and the procedures for reporting a breach of confidentiality, prior to accessing confidential HIV-related public health records. Those agreements shall be reviewed annually by either the department or the appropriate local health department.

(g) A person shall not disclose identifying information reported pursuant to subdivision (a) to the federal government, including, but not limited to, any

§ 123110. Inspection of records; Copying of records; Violations; Construction of section

(a) Notwithstanding Section 5328 of the Welfare and Institutions Code, and except as provided in Sections 123115 and 123120, any adult patient of a health care provider, any minor patient authorized by law to consent to medical treatment, and any patient’s personal representative shall be entitled to inspect patient records upon presenting to the health care provider a request for those records and upon payment of reasonable costs, as specified in subdivision (k). However, a patient who is a minor shall be entitled to inspect patient records pertaining only to health care of a type for which the minor is lawfully authorized to consent. A health care provider shall permit this inspection during business hours within five working days after receipt of the request. The inspection shall be conducted by the patient or patient’s personal representative requesting the inspection, who may be accompanied by one other person of their choosing.

HEALTH AND SAFETY CODE

(b)(1) Additionally, any patient or patient's personal representative shall be entitled to a paper or electronic copy of all or any portion of the patient records that they have a right to inspect, upon presenting a request to the health care provider specifying the records to be copied, together with a fee to defray the costs of producing the copy or summary, as specified in subdivision (k). The health care provider shall ensure that the copies are transmitted within 15 days after receiving the request.

(2) The health care provider shall provide the patient or patient's personal representative with a copy of the record in the form and format requested if it is readily producible in the requested form and format, or, if not, in a readable paper copy form or other form and format as agreed to by the health care provider and the patient or patient's personal representative. If the requested patient records are maintained electronically and if the patient or patient's personal representative requests an electronic copy of those records, the health care provider shall provide them in the electronic form and format requested if they are readily producible in that form and format, or, if not, in a readable electronic form and format as agreed to by the health care provider and the patient or patient's personal representative.

(c) Copies of X-rays or tracings derived from electrocardiography, electroencephalography, or electromyography need not be provided to the patient or patient's personal representative under this section, if the original X-rays or tracings are transmitted to another health care provider upon written request of the patient or patient's personal representative and within 15 days after receipt of the request. The request shall specify the name and address of the health care provider to whom the records are to be delivered. All reasonable costs, not exceeding actual costs, incurred by a health care provider in providing copies pursuant to this subdivision may be charged to the patient or representative requesting the copies.

(d)(1) Notwithstanding any provision of this section, and except as provided in Sections 123115 and 123120, a patient, employee of a nonprofit legal services entity representing the patient, or the personal representative of a patient, is entitled to a copy, at no charge, of the relevant portion of the patient's records, upon presenting to the provider a written request, and proof that the records or supporting forms are needed to support a claim or appeal regarding eligibility for a public benefit program, a petition for U nonimmigrant status under the Victims of Trafficking and Violence Protection Act, or a self-petition for lawful permanent residency under the Violence Against Women Act. (3) This subdivision shall not apply to any patient who is represented by a private attorney who is paying for the costs related to the patient's claim or appeal, pending the outcome of that claim or appeal. For purposes of this subdivision, "private attorney" means any attorney not employed by a nonprofit legal services entity.

(e) If a patient, employee of a nonprofit legal services entity representing the patient, or the patient's personal representative requests a record pursuant to subdivision (d), the health care provider shall ensure that the copies are transmitted within 30 days after receiving the written request.

(f) This section shall not be construed to preclude a health care provider from requiring reasonable verification of identity prior to permitting inspection or copying of patient records, provided this requirement is not used oppressively or discriminatorily to frustrate or delay compliance with this section. This section does not supersede any rights that a patient or personal representative might otherwise have or exercise under Section 1158 of the Evidence Code or any other provision of law. This chapter does not require a health care provider to retain records longer than required by applicable statutes or administrative regulations.

(g)(1) This chapter shall not be construed to render a health care provider liable for the quality of their records or the copies provided in excess of existing law and regulations with respect to the quality of medical records. A health care provider shall not be liable to the patient or any other person for any consequences that result from disclosure of patient records as required by this chapter. A health care provider shall not discriminate against classes or categories of providers in the transmittal of X-rays or other patient records, or copies of these X-rays or records, to other providers as authorized by this section.

(2) Every health care provider shall adopt policies and establish procedures for the uniform transmittal of X-rays and other patient records that effectively prevent the discrimination described in this subdivision. A health care provider may establish reasonable conditions, including a reasonable deposit fee, to ensure the return of original X-rays transmitted to another health care provider, provided the conditions do not discriminate on the basis of, or in a manner related to, the license of the provider to which the X-rays are transmitted.

(h) Any health care provider described in paragraphs (4) to (10), inclusive, of subdivision (a) of Section 123105 who willfully violates this chapter is guilty of unprofessional conduct. Any health care provider described in paragraphs (1) to (3), inclusive, of subdivision (a) of Section 123105 that willfully violates this chapter is guilty of an infraction punishable by a fine of not more than one hundred dollars (\$100). The state agency, board, or commission that issued the

health care provider's professional or institutional license shall consider a violation as grounds for disciplinary action with respect to the licensure, including suspension or revocation of the license or certificate.

(i) This section prohibits a health care provider from withholding patient records or summaries of patient records because of an unpaid bill for health care services. Any health care provider who willfully withholds patient records or summaries of patient records because of an unpaid bill for health care services is subject to the sanctions specified in subdivision (h).

(j)(1) Except as provided in subdivision (d), a health care provider may impose a reasonable, cost-based fee for providing a paper or electronic copy or summary of patient records, provided the fee includes only the cost of the following:

(A) Labor for copying the patient records requested by the patient or patient's personal representative, whether in paper or electronic form.

(B) Supplies for creating the paper copy or electronic media if the patient or patient's personal representative requests that the electronic copy be provided on portable media.

(C) Postage, if the patient or patient's personal representative has requested the copy, or the summary or explanation, be mailed.

(D) Preparing an explanation or summary of the patient record, if agreed to by the patient or patient's personal representative.

(2) The fee from a health care provider shall not exceed twenty-five cents (\$.25) per page for paper copies or fifty cents (\$.50) per page for records that are copied from microfilm.

(1) With respect to which the minor has a right of inspection under Section 123110.

(2) When the health care provider determines that access to the patient records requested by the representative would have a detrimental effect on the provider's professional relationship with the minor patient or the minor's physical safety or psychological well-being. The decision of the health care provider as to whether or not a minor's records are available for inspection or copying under this section shall not attach any liability to the provider, unless the decision is found to be in bad faith.

§ 123130. Preparation of summary of record; Conference with patient

(a) A health care provider may prepare a summary of the record, according to the requirements of this section, for inspection and copying by a patient. If the health care provider chooses to prepare a summary of the record rather than allowing access to the entire record, he or she shall make the summary of the record available to the patient within 10 working days from the date of the patient's request. However, if more time is needed because the record is of extraordinary length or because the patient was discharged from a licensed health facility within the last 10 days, the health care provider shall notify the patient of this fact and the date that the summary will be completed, but in no case shall more than 30 days elapse between the request by the patient and the delivery of the summary. In preparing the summary of the record the health care provider shall not be obligated to include information that is not contained in the original record.

(b) A health care provider may confer with the patient in an attempt to clarify the patient's purpose and goal in obtaining his or her record. If as a consequence the patient requests information about only certain injuries, illnesses, or episodes, this subdivision shall not require the provider to prepare the summary required by this subdivision for other than the injuries, illnesses, or episodes so requested by the patient. The summary shall contain for each injury, illness, or episode any information included in the record relative to the following:

- (3) Diagnosis, where determined.
- (4) Treatment plan and regimen including medications prescribed.

- (6) Prognosis including significant continuing problems or conditions.
- (7) Pertinent reports of diagnostic procedures and tests and all discharge summaries.

(8) Objective findings from the most recent physical examination, such as blood pressure, weight, and actual values from routine laboratory tests.

(c) This section shall not be construed to require any medical records to be written or maintained in any manner not otherwise required by law.

(d) The summary shall contain a list of all current medications prescribed, including dosage, and any sensitivities or allergies to medications recorded by the provider.

(e) Subdivision (c) of Section 123110 shall be applicable whether or not the health care provider elects to prepare a summary of the record.

(f) The health care provider may charge no more than a reasonable fee based on actual time and cost for the preparation of the summary. The cost shall be based on a computation of the actual time spent preparing the summary for availability to the patient or the patient's representative. It is the intent of the

§ 123148. Report to patient of results of test

(a) Notwithstanding any other law, a health care professional at whose request a test is performed shall provide or arrange for the provision of the results of a test to the patient who is the subject of the test if so requested by the patient, in oral or written form. The results shall be disclosed in plain language and in oral or written form, except the results may be disclosed in electronic form if requested by the patient unless deemed inappropriate by the health care professional who requested the test. The telephone shall not be considered an electronic form of disclosing test results subject to the limits on electronic disclosure of test results for the purpose of this section.

(b)(1) Consent of the patient to receive their test results by internet posting or other electronic means shall be obtained in a manner consistent with the requirements of Section 56.10 or 56.11 of the Civil Code. In the event that a health care professional arranges for the provision of test results by internet posting or other electronic manner, the results shall be disclosed to a patient in a reasonable time period. Access to test results shall be restricted by the use of a secure personal identification number when the results are disclosed to a patient by internet posting or other electronic manner.

(2) Paragraph (1) shall not prohibit direct communication by internet posting or the use of other electronic means to disclose test results by a treating health care professional who ordered the test for their patient or by a health care professional acting on behalf of, or with the authorization of, the treating health care professional who ordered the test.

(c) When a patient requests access to their test results by internet posting, the health care professional shall advise the patient of any charges that may be assessed directly to the patient or insurer for the service and that the patient may call the health care professional for a more detailed explanation of the laboratory test results when delivered.

(d) The electronic disclosure of test results under this section shall be in accordance with any applicable federal law governing privacy and security of electronic personal health records. However, any state statute that governs privacy and security of electronic personal health records, shall apply to test results under this section and shall prevail over federal law if federal law permits.

patient within a reasonable time period after the test results are received by the health care professional who requested the test.

(f) Notwithstanding subdivision (a), unless the patient requests the disclosure, the health care professional deems this disclosure as an appropriate means, and a health care professional has first discussed in person, by telephone, or by any other means of oral communication, the test results with the patient, in compliance with any other applicable laws, none of the following test results and any other related results shall be disclosed to a patient by internet posting or other electronic means:

(1)(A) A positive HIV test, unless an HIV test subject is anonymously tested and the test result is posted on a secure internet website and can only be viewed with the use of a secure code that can access only a single set of test results and that is provided to the patient at the time of testing. The test result shall be posted only if there is no link to any information that identifies or refers to the subject of the test and the information required pursuant to subdivision (h) of Section 120990 is provided.

(B) Subparagraph (A) does not prevent the disclosure of HIV test results, including viral load and CD4 count test results, to a patient living with HIV by secure internet website or other electronic means if the patient has previously been informed about the results of a positive HIV test pursuant to the requirements of this section.

(2) Presence of antigens indicating a hepatitis infection.

In no event shall patient identifiable HIV-related test results and health information disclosed in this section be used in violation of subdivision (f) of Section 120980.

(h) A third party to whom test results are disclosed pursuant to this section shall be deemed a provider of administrative services, as that term is used in paragraph (3) of subdivision (c) of Section 56.10 of the Civil Code, and shall be subject to all limitations and penalties applicable to that section.

(i) A patient may not be required to pay a cost, or be charged a fee, for electing to receive their test results in a manner other than by internet posting or other electronic form.

(j) A patient or their physician may revoke consent provided under this section at any time and without penalty, except to the extent that action has been taken in reliance on that consent.

Change of plea and dismissal of charges after termination of probation; Release from penalties and disabilities; Subsequent prosecutions; Registration of sex offenders; Possession of firearm; Reimbursement to county or city; Notice to prosecuting attorney [Repealed effective January 1, 2028]

(a)(1) When a defendant has fulfilled the conditions of probation for the entire period of probation, or has been discharged prior to the termination of the period of probation, or in any other case in which a court, in its discretion and the interest of justice, determines that a defendant should be granted the relief available under this section, the defendant shall, at any time after the termination of the period of probation, if they are not then serving a sentence for an offense, on probation for an offense, or charged with the commission of an offense, be permitted by the court to withdraw their plea of guilty or plea of nolo contendere and enter a plea of not guilty; or, if they have been convicted after a plea of not guilty, the court shall set aside the verdict of guilty; and, in either case, the court shall thereupon dismiss the accusations or information against the defendant and except as noted below, the defendant shall thereafter be released from all penalties and disabilities resulting from the offense of which they have been convicted, except as provided in Section 13555 of the Vehicle Code. The probationer shall be informed, in their probation papers, of this right and privilege and the right, if any, to petition for a certificate of rehabilitation and pardon. The probationer may make the application and change of plea in person or by attorney, or by the probation officer authorized in writing. However, in any subsequent prosecution of the defendant for any other offense, the prior conviction may be pleaded and proved and shall have the same effect as if probation had not been granted or the accusation or information dismissed. The order shall state, and the probationer shall be informed, that the order does not relieve them of the obligation to disclose the conviction in response to any direct question contained in any questionnaire or application for public office, for licensure by any state or local agency, or for contracting with the California State Lottery Commission.

(3) The relief available under this section may be granted only if the defendant is not on parole or under supervision pursuant to subparagraph (B) of paragraph (5) of subdivision (h) of Section 1170, and is not serving a sentence for, on probation for, or charged with the commission of, an offense.

(4) The defendant shall be informed, either orally or in writing, of the provisions of this section and of their right, if any, to petition for a certificate of rehabilitation and pardon at the time of sentencing.

(5) The defendant may make the application and change of plea in person or by attorney, or by a probation officer authorized in writing.

(6) If the defendant seeks relief under this section for a felony that resulted in a sentence to the state prison, the relief available under this section may only be granted if that felony did not result in a requirement to register as a sex offender pursuant to Chapter 5.5 (commencing with Section 290) of Title 9 of Part 1.

(b) Relief granted pursuant to subdivision (a) is subject to all of the following conditions:

(1) In any subsequent prosecution of the defendant for any other offense, the prior conviction may be pleaded and proved and shall have the same effect as if the accusation or information had not been dismissed.

(2) The order shall state, and the defendant shall be informed, that the order does not relieve them of the obligation to disclose the conviction in response to a direct question contained in a questionnaire or application for public office, for licensure by a state or local agency or by a federally recognized tribe, for enrollment as a provider of in-home supportive services and waiver personal care services pursuant to Article 7 (commencing with Section 12300) of Chapter 3 of Part 3 of Division 9 of the Welfare and Institutions Code or pursuant to Section 14132.95, 14132.952, 14132.956, or 14132.97 of the Welfare and Institutions Code, or for contracting with the California State Lottery Commission.

(c) This section applies to any conviction specified in subdivision (a) that occurred before, on, or after January 1, 2021.

(d) When the court considers a petition for relief under this section, in its discretion and in the interest of justice, an unpaid order of restitution or restitution fine shall not be grounds for denial of the petition for relief.

(e) A person who petitions for a change of plea or setting aside of a verdict under this section may be required to reimburse the court for the actual costs of services rendered, whether or not the petition is granted and the records are sealed or expunged, at a rate to be determined by the court not to exceed one hundred fifty dollars (\$150), and to reimburse the county for the actual costs of services rendered, whether or not the petition is granted and the records are sealed or expunged, at a rate to be determined by the county board of supervisors not to exceed one hundred fifty dollars (\$150), and to reimburse any city for the actual costs of services rendered, whether or not the petition is granted and the records are sealed or expunged, at a rate to be determined by the city council not to exceed one hundred fifty dollars (\$150). The court may order reimbursement when the petitioner appears to have the ability to pay, without undue hardship, all or a portion of the costs for services established pursuant to this subdivision.

(f)(1) Relief shall not be granted under this section unless the prosecuting attorney has been given 15 days' notice of the petition for relief. The probation officer shall notify the prosecuting attorney when a petition is filed, pursuant to this section.

(2) It shall be presumed that the prosecuting attorney has received notice if proof of service is filed with the court.

(g) If, after receiving notice pursuant to subdivision (f), the prosecuting attorney fails to appear and object to a petition for dismissal, the prosecuting attorney shall not move to set aside or otherwise appeal the grant of that petition.

(h) Relief granted pursuant to this section does not release the defendant from the terms and conditions of any unexpired criminal protective orders that have been issued by the court pursuant to paragraph (1) of subdivision (i) of Section 136.2, subdivision (j) of Section 273.5, subdivision (l) of Section 368, or subdivision (k) of Section 646.9. These protective orders shall remain in full effect until expiration or until any further order by the court modifying or terminating the order, despite the dismissal of the underlying accusation or information.

(a) If a defendant was sentenced prior to the implementation of the 2011 Realignment Legislation for a crime for which the defendant would otherwise have been eligible for sentencing pursuant to subdivision (h) of Section 1170, the court, in its discretion and in the interest of justice, may order the following relief, subject to the conditions of subdivision (b):

(1) The court may permit the defendant to withdraw their plea of guilty or plea of nolo contendere and enter a plea of not guilty, or, if the defendant has been convicted after a plea of not guilty, the court shall set aside the verdict of guilty, and, in either case, the court shall thereupon dismiss the accusations or information against the defendant and the defendant shall be released from all penalties and disabilities resulting from the offense of which they have been convicted, except as provided in Section 13555 of the Vehicle Code.

(b) Relief granted pursuant to subdivision (a) is subject to the following conditions:

(1) In a subsequent prosecution of the defendant for any other offense, the prior conviction may be pleaded and proved and shall have the same effect as if the accusation or information had not been dismissed.

(2) The order shall state, and the defendant shall be informed, that the order does not relieve the defendant of the obligation to disclose the conviction in response to a direct question contained in a questionnaire or application for public office, for licensure by a state or local agency, or for contracting with the California State Lottery Commission.

(c) When the court considers a petition for relief under this section, in its discretion and in the interest of justice, an unpaid order of restitution or restitution fine shall not be grounds for denial of the petition for relief.

(d) A person who petitions for a change of plea or setting aside of a verdict under this section may be required to reimburse the court for the actual costs of services rendered, whether or not the petition is granted and the records are sealed or expunged, at a rate to be determined by the court not to exceed one hundred fifty dollars (\$150), and to reimburse the county for the actual costs of services rendered, whether or not the petition is granted and the records are sealed or expunged, at a rate to be determined by the county board of supervisors not to exceed one hundred fifty dollars (\$150), and to reimburse any city for the actual costs of services rendered, whether or not the petition is granted and the records are sealed or expunged, at a rate to be determined by the city council not to exceed one hundred fifty dollars (\$150). The department shall electronically submit a notice to the superior court that sentenced the defendant. If probation is transferred multiple times, the department shall electronically submit a notice to all other involved courts. The electronic notice shall be in a mutually agreed upon format.

If a court receives notification that a case was dismissed pursuant to this section or Section 1203.4, 1203.4a, 1203.41, or 1203.42, the court shall update its records to reflect the dismissal and shall not disclose information concerning a conviction granted relief to any person or entity, in any format, except to the person whose conviction was granted relief or a criminal justice agency, as defined in Section 851.92.

(4) Relief granted pursuant to this section is subject to the following conditions:

(B) Relief granted pursuant to this section does not relieve a person of the obligation to disclose the conviction in response to a direct question contained in a questionnaire or application for public office, for enrollment as a provider of in-home supportive services and waiver personal care services pursuant to Article 7 (commencing with Section 12300) of Chapter 3 of Part 3 of Division 9 of the Welfare and Institutions Code or pursuant to Section 14132.95, 14132.952, 14132.956, or 14132.97 of the Welfare and

(C) Relief granted pursuant to this section has no effect on the ability of a criminal justice agency, as defined in Section 851.92, to access and use records that are granted relief to the same extent that would have been permitted for a criminal justice agency had relief not been granted.

(D) Relief granted pursuant to this section does not limit the jurisdiction of the court over a subsequently filed motion to amend the record, petition or motion for postconviction relief, or collateral attack on a conviction for which relief has been granted pursuant to this section.

(E) Relief granted pursuant to this section does not affect a person's authorization to own, possess, or have in the person's custody or control a firearm, or the person's susceptibility to conviction under Chapter 2 (commencing with Section 29800) of Division 9 of Title 4 of Part 6, if the criminal conviction would otherwise affect this authorization or susceptibility.

(F) Relief granted pursuant to this section does not affect a prohibition from holding public office that would otherwise apply under law as a result of the criminal conviction.

(G) Relief granted pursuant to this section does not release a person from the terms and conditions of any unexpired criminal protective order that has been issued by the court pursuant to paragraph (1) of subdivision (i) of Section 136.2, subdivision (j) of Section 273.5, subdivision (l) of Section 368, or subdivision (k) of Section 646.9. (ii) Notwithstanding clause (i) or any other law, information relating to a conviction for a controlled substance offense listed in Section 11350 or 11377, or former Section 11500 or 11500.5, of the Health and Safety Code that is more than five years old, for which relief is granted pursuant to this section, shall not be disclosed.

(5) This section shall not limit petitions, motions, or orders for relief in a criminal case, as required or authorized by any other law, including, but not limited to, Sections 1203.4 and 1204.4a.

(6) Commencing July 1, 2022, and subject to an appropriation in the annual Budget Act, the department shall annually publish statistics for each county regarding the total number of convictions granted relief pursuant to this section and the total number of convictions prohibited from automatic relief pursuant to subdivision (b), on the OpenJustice Web portal, as defined in Section 13010.

(b)(1) The prosecuting attorney or probation department may, no later than 90 calendar days before the date of a person's eligibility for relief pursuant to this section, file a petition to prohibit the department from granting automatic relief pursuant to this section, based on a showing that granting that relief would pose a substantial threat to the public safety. If probation was transferred pursuant to Section 1203.9, the prosecuting attorney or probation department in either the receiving county or the transferring county shall file the petition in the county of current jurisdiction.

(2) The court shall give notice to the defendant and conduct a hearing on the petition within 45 days after the petition is filed.

(3) At a hearing on the petition pursuant to this subdivision, the defendant, the probation department, the prosecuting attorney, and the arresting agency, through the prosecuting attorney, may present evidence to the court. Notwithstanding Sections 1538.5 and 1539, the hearing may be heard and determined upon declarations, affidavits, police investigative reports, copies of state summary criminal history information and local summary criminal history information, or any other evidence submitted by the parties that is material, reliable, and relevant.

(4) The prosecutor or probation department has the initial burden of proof to show that granting conviction relief would pose a substantial threat to the public safety. In determining whether granting relief would pose a substan-

tial threat to the public safety, the court may consider any relevant factors including, but not limited to, either of the following:

(A) Declarations or evidence regarding the offense for which a grant of relief is being contested.

(B) The defendant's record of arrests and convictions.

(5) If the court finds that the prosecutor or probation department has satisfied the burden of proof, the burden shifts to the defendant to show that the hardship of not obtaining relief outweighs the threat to the public safety of providing relief. In determining whether the defendant's hardship outweighs the threat to the public safety, the court may consider any relevant factors including, but not limited to, either of the following:

(A) The hardship to the defendant that has been caused by the conviction and that would be caused if relief is not granted.

(B) Declarations or evidence regarding the defendant's good character.

(6) If the court grants a petition pursuant to this subdivision, the court shall furnish a disposition report to the Department of Justice pursuant to Section 13151, stating that relief pursuant to this section was denied, and the department shall not grant relief pursuant to this section. If probation was transferred pursuant to Section 1203.9, the department shall electronically submit a notice to the transferring court, and, if probation was transferred multiple times, to all other involved courts.

(7) A person denied relief pursuant to this section may continue to be eligible for relief pursuant to Section 1203.4 or 1203.4a. If the court subsequently grants relief pursuant to one of those sections, the court shall furnish a disposition report to the Department of Justice pursuant to Section 13151, stating that relief was granted pursuant to the applicable section, and the department shall grant relief pursuant to that section. If probation was transferred pursuant to Section 1203.9, the department shall electronically submit a notice that relief was granted pursuant to the applicable section to the transferring court and, if probation was transferred multiple times, to all other involved courts.

(c) At the time of sentencing, the court shall advise a defendant, either orally or in writing, of the provisions of this section and of the defendant's right, if any, to petition for a certificate of rehabilitation and pardon.

(d) This section shall become inoperative on July 1, 2023, and, as of January 1, 2024, is repealed.

rehabilitation or pardon pursuant to Chapter 3.5 (commencing with Section 4852.01) of Title 6 of Part 3.

(6) Commencing July 1, 2022, and subject to an appropriation in the annual Budget Act, the department shall annually publish statistics for each county regarding the total number of convictions granted relief pursuant to this section and the total number of convictions prohibited from automatic relief pursuant to subdivision (b), on the OpenJustice Web portal, as defined in Section 13010.

(b)(1) The prosecuting attorney or probation department may, no later than 90 calendar days before the date of a person's eligibility for relief pursuant to this section, file a petition to prohibit the department from granting automatic relief pursuant to this section, based on a showing that granting that relief would pose a substantial threat to the public safety. If probation was transferred pursuant to Section 1203.9, the prosecuting attorney or probation department in either the receiving county or the transferring county shall file the petition in the county of current jurisdiction.

(2) The court shall give notice to the defendant and conduct a hearing on the petition within 45 days after the petition is filed.

(3) At a hearing on the petition pursuant to this subdivision, the defendant, the probation department, the prosecuting attorney, and the arresting agency, through the prosecuting attorney, may present evidence to the court. Notwithstanding Sections 1538.5 and 1539, the hearing may be heard and determined upon declarations, affidavits, police investigative reports, copies of state summary criminal history information and local summary criminal history information, or any other evidence submitted by the parties that is material, reliable, and relevant.

(4) The prosecutor or probation department has the initial burden of proof to show that granting conviction relief would pose a substantial threat to the public safety. In determining whether granting relief would pose a substantial threat to the public safety, the court may consider any relevant factors including, but not limited to, either of the following:

(A) Declarations or evidence regarding the offense for which a grant of relief is being contested.

(B) The defendant's record of arrests and convictions.

(5) If the court finds that the prosecutor or probation department has satisfied the burden of proof, the burden shifts to the defendant to show that the hardship of not obtaining relief outweighs the threat to the public safety of providing relief. In determining whether the defendant's hardship outweighs the threat to the public safety, the court may consider any relevant factors including, but not limited to, either of the following:

(A) The hardship to the defendant that has been caused by the conviction and that would be caused if relief is not granted.

(B) Declarations or evidence regarding the defendant's good character.

(6) If the court grants a petition pursuant to this subdivision, the court shall furnish a disposition report to the Department of Justice pursuant to

If probation was transferred pursuant to Section 1203.9, the department shall electronically submit a notice to the transferring court, and, if probation was transferred multiple times, to all other involved courts.

(7) A person denied relief pursuant to this section may continue to be eligible for relief pursuant to law, including, but not limited to, Section 1203.4, 1203.4a, 1203.4b, or 1203.41. If the court subsequently grants relief pursuant to one of those sections, the court shall furnish a disposition report to the Department of Justice pursuant to Section 13151, stating that relief was granted pursuant to the applicable section, and the department shall grant relief pursuant to that section. If probation was transferred pursuant to Section 1203.9, the department shall electronically submit a notice that relief was granted pursuant to the applicable section to the transferring court and, if probation was transferred multiple times, to all other involved courts.

(c) At the time of sentencing, the court shall advise a defendant, either orally or in writing, of the provisions of this section and of the defendant's right, if any, to petition for a certificate of rehabilitation and pardon.

(d) This section shall become operative on July 1, 2023.

§ 5068.5. Licensure requirements for persons providing mental health services; Exemptions and waiver

(a) Notwithstanding any other law, except as provided in subdivisions (b) and (c), any person employed or under contract to provide diagnostic, treatment, or other mental health services in the state or to supervise or provide consultation on these services in the state correctional system shall be a physician and surgeon, a psychologist, or other health professional, licensed to practice in this state.

However, this durational limitation upon waivers shall not apply to active candidates for a doctoral degree in social work, social welfare, or social science who are enrolled at an accredited university, college, or professional school, but these limitations shall apply following completion of that training.

(3) A waiver pursuant to this subdivision shall be granted only to the extent necessary to qualify for licensure, except that personnel recruited for employment from outside this state and whose experience is sufficient to gain admission to a licensure examination shall nevertheless have one year from the date of their employment in California to become licensed, at which time licensure shall have been obtained or the employment shall be terminated, provided that the employee shall take the licensure examination at the earliest possible date after the date of the employee's employment, and if the employee does not pass the examination at that time, the employee shall have a second opportunity to pass the next possible examination, subject to the one-year limit.

(d) The department shall grant a request for an extension of a waiver of licensure pursuant to subdivision (c) based on extenuating circumstances if any of the following circumstances exist:

Those events may include, but are not limited to, significant hardship caused by a natural disaster; serious and prolonged illness of the person; serious and prolonged illness or death of a child, spouse, or parent; or other stressful circumstances.

The mandated reporter may include with the report any nonprivileged documentary evidence the mandated reporter possesses relating to the incident.

(1) For purposes of this article, "reasonable suspicion" means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing, when appropriate, on the person's training and experience, to suspect child abuse or neglect. "Reasonable suspicion" does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect; any "reasonable suspicion" is sufficient. For purposes of this article, the pregnancy of a minor does not, in and of itself, constitute a basis for a reasonable suspicion of sexual abuse.

(2) The agency shall be notified, and a report shall be prepared and sent by fax or electronic transmission, even if the child has expired, regardless of whether or not the possible abuse was a factor contributing to the death, and even if suspected child abuse was discovered during an autopsy.

(3) A report made by a mandated reporter pursuant to this section shall be known as a mandated report.

(b) If, after reasonable efforts, a mandated reporter is unable to submit an initial report by telephone, the mandated reporter shall immediately or as soon as is practicably possible, by fax or electronic transmission, make a one-time automated written report on the form prescribed by the Department of Justice, and shall also be available to respond to a telephone followup call by the agency with which the mandated reporter filed the report. A mandated reporter who files a one-time automated written report because the mandated reporter was

unable to submit an initial report by telephone is not required to submit a written followup report.

(1) The one-time automated written report form prescribed by the Department of Justice shall be clearly identifiable so that it is not mistaken for a standard written followup report. In addition, the automated one-time report shall contain a section that allows the mandated reporter to state the reason the initial telephone call was not able to be completed. The reason for the submission of the one-time automated written report in lieu of the procedure prescribed in subdivision (a) shall be captured in the statewide child welfare information system. The department shall work with stakeholders to modify reporting forms and the statewide child welfare information system as is necessary to accommodate the changes enacted by these provisions.

(2) This subdivision shall not become operative until the statewide child welfare information system is updated to capture the information prescribed in this subdivision.

(3) This subdivision shall become inoperative three years after this subdivision becomes operative or on January 1, 2009, whichever occurs first.

(4) This section does not supersede the requirement that a mandated reporter first attempt to make a report via telephone, or that agencies specified in Section 11165.9 accept reports from mandated reporters and other persons as required.

(c) A mandated reporter who fails to report an incident of known or reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by a fine of one thousand dollars (\$1,000) or by both that imprisonment and fine. If a mandated reporter intentionally conceals the mandated reporter's failure to report an incident known by the mandated reporter to be abuse or severe neglect under this section, the failure to report is a continuing offense until an agency specified in Section 11165.9 discovers the offense.

(d)(1) A clergy member who acquires knowledge or a reasonable suspicion of child abuse or neglect during a penitential communication is not subject to subdivision (a). For the purposes of this subdivision, "penitential communication" means a communication, intended to be in confidence, including, but not limited to, a sacramental confession, made to a clergy member who, in the course of the discipline or practice of the clergy member's church, denomination, or organization, is authorized or accustomed to hear those communications, and under the discipline, tenets, customs, or practices of the clergy member's church, denomination, or organization, has a duty to keep those communications secret.

(2) This subdivision does not modify or limit a clergy member's duty to report known or suspected child abuse or neglect when the clergy member is acting in some other capacity that would otherwise make the clergy member a mandated reporter.

(3)(A) On or before January 1, 2004, a clergy member or any custodian of records for the clergy member may report to an agency specified in Section

Misc.

BOARD OF PSYCHOLOGY

11165.9 that the clergy member or any custodian of records for the clergy member, prior to January 1, 1997, in the clergy member's professional capacity or within the scope of the clergy member's employment, other than during a penitential communication, acquired knowledge or had a reasonable suspicion that a child had been the victim of sexual abuse and that the clergy member or any custodian of records for the clergy member did not previously report the abuse to an agency specified in Section 11165.9. The provisions of Section 11172 shall apply to all reports made pursuant to this paragraph.

(B) This paragraph shall apply even if the victim of the known or suspected abuse has reached the age of majority by the time the required report is made.

(C) The local law enforcement agency shall have jurisdiction to investigate any report of child abuse made pursuant to this paragraph even if the report is made after the victim has reached the age of majority.

(e)(1) A commercial film, photographic print, or image processor who has knowledge of or observes, within the scope of that person's professional capacity or employment, any film, photograph, videotape, negative, slide, or any representation of information, data, or an image, including, but not limited to, any film, filmstrip, photograph, negative, slide, photocopy, videotape, video laser disc, computer hardware, computer software, computer floppy disk, data storage medium, CD-ROM, computer-generated equipment, or computer-generated image depicting a child under 16 years of age engaged in an act of sexual conduct, shall, immediately or as soon as practicably possible, telephonically report the instance of reasonably suspected abuse to the law enforcement agency located in the county in which the images are seen. Within 36 hours of receiving the information concerning the incident, the reporter shall prepare and send, fax, or electronically transmit a written followup report of the incident with a copy of the image or material attached.

(2) A commercial computer technician who has knowledge of or observes, within the scope of the technician's professional capacity or employment, any representation of information, data, or an image, including, but not limited to, any computer hardware, computer software, computer file, computer floppy disk, data storage medium, CD-ROM, computer-generated equipment, or computer-generated image that is retrievable in perceivable form and that is intentionally saved, transmitted, or organized on an electronic medium, depicting a child under 16 years of age engaged in an act of sexual conduct, shall immediately, or as soon as practicably possible, telephonically report the instance of reasonably suspected abuse to the law enforcement agency located in the county in which the images or materials are seen. As soon as practicably possible after receiving the information concerning the incident, the reporter shall prepare and send, fax, or electronically transmit a written followup report of the incident with a brief description of the images or materials.

PENAL CODE

(3) For purposes of this article, “commercial computer technician” includes an employee designated by an employer to receive reports pursuant to an established reporting process authorized by subparagraph (B) of paragraph (43) of subdivision (a) of Section 11165.7.

(4) As used in this subdivision, “electronic medium” includes, but is not limited to, a recording, CD-ROM, magnetic disk memory, magnetic tape memory, CD, DVD, thumbdrive, or any other computer hardware or media.

(5) As used in this subdivision, “sexual conduct” means any of the following:

(A) Sexual intercourse, including genital-genital, oral-genital, anal-genital, or oral-anal, whether between persons of the same or opposite sex or between humans and animals.

(B) Penetration of the vagina or rectum by any object.

(C) Masturbation for the purpose of sexual stimulation of the viewer.

(D) Sadomasochistic abuse for the purpose of sexual stimulation of the viewer.

(E) Exhibition of the genitals, pubic, or rectal areas of a person for the purpose of sexual stimulation of the viewer.

(f) Any mandated reporter who knows or reasonably suspects that the home or institution in which a child resides is unsuitable for the child because of abuse or neglect of the child shall bring the condition to the attention of the agency to which, and at the same time as, the mandated reporter makes a report of the abuse or neglect pursuant to subdivision (a).

(g) Any other person who has knowledge of or observes a child whom the person knows or reasonably suspects has been a victim of child abuse or neglect may report the known or suspected instance of child abuse or neglect to an agency specified in Section 11165.9. For purposes of this section, “any other person” includes a mandated reporter who acts in the person’s private capacity and not in the person’s professional capacity or within the scope of the person’s employment.

(h) When two or more persons, who are required to report, jointly have knowledge of a known or reasonably suspected instance of child abuse or neglect, and when there is agreement among them, the telephone report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report.

(i)(1) The reporting duties under this section are individual, and no supervisor or administrator may impede or inhibit the reporting duties, and no person making a report shall be subject to any sanction for making the report. However, internal procedures to facilitate reporting and apprise supervisors and administrators of reports may be established provided that they are not inconsistent with this article. An internal policy shall not direct an employee to allow the employee’s supervisor to file or process a mandated report under any circumstances.

BOARD OF PSYCHOLOGY

(2) The internal procedures shall not require any employee required to make reports pursuant to this article to disclose the employee's identity to the employer.

(3) Reporting the information regarding knowledge of or reasonably suspected child abuse or neglect to an employer, supervisor, school principal, school counselor, coworker, or other person shall not be a substitute for making a mandated report to an agency specified in Section 11165.9.

(j)(1) A county probation or welfare department shall immediately, or as soon as practicably possible, report by telephone, fax, or electronic transmission to the law enforcement agency having jurisdiction over the case, to the agency given the responsibility for investigation of cases under Section 300 of the Welfare and Institutions Code, and to the district attorney's office every known or reasonably suspected instance of child abuse or neglect, as defined in Section 11165.6, except acts or omissions coming within subdivision (b) of Section 11165.2, or reports made pursuant to Section 11165.13 based on risk to a child that relates solely to the inability of the parent to provide the child with regular care due to the parent's substance abuse, which shall be reported only to the county welfare or probation department. A county probation or welfare department also shall send by fax or electronic transmission a written report thereof within 36 hours of receiving the information concerning the incident to any agency to which it makes a telephone report under this subdivision.

(2) A county probation or welfare department shall immediately, and in no case in more than 24 hours, report to the law enforcement agency having jurisdiction over the case after receiving information that a child or youth who is receiving child welfare services has been identified as the victim of commercial sexual exploitation, as defined in subdivision (d) of Section 11165.1.

(3) When a child or youth who is receiving child welfare services and who is reasonably believed to be the victim of, or is at risk of being the victim of, commercial sexual exploitation, as defined in Section 11165.1, is missing or has been abducted, the county probation or welfare department shall immediately, or in no case later than 24 hours from receipt of the information, report the incident to the appropriate law enforcement authority for entry into the National Crime Information Center database of the Federal Bureau of Investigation and to the National Center for Missing and Exploited Children.

(k) A law enforcement agency shall immediately, or as soon as practicably possible, report by telephone, fax, or electronic transmission to the agency given responsibility for investigation of cases under Section 300 of the Welfare and Institutions Code and to the district attorney's office every known or reasonably suspected instance of child abuse or neglect reported to it, except acts or omissions coming within subdivision (b) of Section 11165.2, which shall be reported only to the county welfare or probation department. A law enforcement agency shall report to the county welfare or probation department

every known or reasonably suspected instance of child abuse or neglect reported to it that is alleged to have occurred as a result of the action of a person responsible for the child's welfare, or as the result of the failure of a person responsible for the child's welfare to adequately protect the minor from abuse when the person responsible for the child's welfare knew or reasonably should have known that the minor was in danger of abuse. A law enforcement agency also shall send by fax or electronic transmission a written report thereof within 36 hours of receiving the information concerning the incident to any agency to which it makes a telephone report under this subdivision.

§ 11166.02. Internet-based reporting of child abuse and neglect

(a) A county welfare agency, in accordance with Section 10612.5 of the Welfare and Institutions Code, may develop a program for internet-based reporting of child abuse and neglect. The program may receive reports by mandated reporters, as defined in Section 11165.7, of suspected child abuse or neglect and shall meet all of the following conditions:

(1) The suspected child abuse or neglect does not indicate that the child is subject to an immediate risk of abuse, neglect, or exploitation or that the child is in imminent danger of severe harm or death.

(2) The agency provides an internet form that includes standardized safety assessment qualifying questions in order to obtain necessary information required to assess the need for child welfare services and a response. The State Department of Social Services shall provide guidance through written directives to counties participating in the program to incorporate qualifying questions in the online report that would indicate the need to redirect the mandated reporter to perform a telephone report.

(3) The mandated reporter is required to complete all required fields, including identity and contact information of the mandated reporter, in order to submit the report.

(4) The agency provides an internet-based reporting system that has appropriate security protocols to preserve the confidentiality of the reports and any documents or photographs submitted through the system.

BOARD OF PSYCHOLOGY

(5) This section does not change current statutory or regulatory requirements regarding timely review, assessment, and response to reports of possible abuse or neglect.

(b)(1) In a county where the program is active, a mandated reporter may use the internet-based reporting tool in lieu of the required initial telephone report required by subdivision (a) of Section 11166. A mandated reporter submitting an internet-based report in accordance with this subdivision shall, as soon as practically possible, cooperate with the agency on any requests for additional information if needed to investigate the report, subject to applicable confidentiality requirements.

(2) In a county where the program is active, a mandated reporter who submits the initial report through the internet-based reporting tool in lieu of the required initial telephone report is not required to submit the written followup report required pursuant to subdivision (a) of Section 11166.

(c) A county shall decommission its system for internet-based reporting of child abuse and neglect, as developed pursuant to this section, when the State Department of Social Services notifies counties that internet-based reporting of child abuse and neglect is available and functional within the statewide comprehensive child welfare information system.

The local law enforcement agency having jurisdiction over a case reported under Section 11166 shall report to the county welfare or probation department that it is investigating the case within 36 hours after starting its investigation. The county welfare department or probation department shall, in cases where a minor is a victim of actions specified in Section 288 of this code and a petition has been filed pursuant to Section 300 of the Welfare and Institutions Code with regard to the minor, evaluate what action or actions would be in the best interest of the child victim. (4) The children's advocacy center shall provide a dedicated child-focused setting designed to provide a safe, comfortable, and neutral place where forensic interviews and other children's advocacy center services may be appropriately provided for children and families.

(5) The children's advocacy center shall use written protocols for case review and case review procedures, and shall use a case tracking system to provide information on essential demographics and case information.

(6) The children's advocacy center shall verify that members of the multidisciplinary team responsible for medical evaluations have specific training in child abuse or child sexual abuse examinations.

(7) The children's advocacy center shall verify that members of the multidisciplinary team responsible for mental health services are trained in and deliver trauma-focused, evidence-supported mental health treatments.

(8) The children's advocacy center shall verify that interviews conducted in the course of investigations are conducted in a forensically sound manner and occur in a child-focused setting designed to provide a safe, comfortable, and dedicated place for children and families.

(d) The files, reports, records, communications, and working papers used or developed in providing services through a children's advocacy center are confidential and are not public records.

(e) Notwithstanding any other law providing for the confidentiality of information or records relating to the investigation of suspected child abuse or neglect, the members of a multidisciplinary team associated with a children's advocacy center, including agency representatives, child forensic interviewers, and other providers at the children's advocacy center, are authorized to share with other multidisciplinary team members any information or records concerning the child and family and the person who is the subject of the investigation of suspected child abuse or neglect for the sole purpose of facilitating a forensic interview or case discussion or providing services to the

§ 11169. Forwarding of reports to Department of Justice

(a) An agency specified in Section 11165.9 shall forward to the Department of Justice a report in writing of every case it investigates of known or suspected child abuse or severe neglect that is determined to be substantiated, other than cases coming within subdivision (b) of Section 11165.2. An agency shall not forward a report to the Department of Justice unless it has conducted an active investigation and determined that the report is substantiated, as defined in Section 11165.12. If a report has previously been filed which subsequently proves to be not substantiated, the Department of Justice shall be notified in writing of that fact and shall not retain the report. The reports required by this section shall be in a form approved by the Department of Justice and may be sent by fax or electronic transmission. An agency specified in Section 11165.9 receiving a written report from another agency specified in Section 11165.9 shall not send that report to the Department of Justice.

BOARD OF PSYCHOLOGY

(b) On and after January 1, 2012, a police department or sheriff's department specified in Section 11165.9 shall no longer forward to the Department of Justice a report in writing of any case it investigates of known or suspected child abuse or severe neglect.

(c) At the time an agency specified in Section 11165.9 forwards a report in writing to the Department of Justice pursuant to subdivision (a), the agency shall also notify in writing the known or suspected child abuser that he or she has been reported to the Child Abuse Central Index (CACI). The notice required by this section shall be in a form approved by the Department of Justice. The requirements of this subdivision shall apply with respect to reports forwarded to the department on or after the date on which this subdivision becomes operative.

(d) Subject to subdivision (e), any person who is listed on the CACI has the right to a hearing before the agency that requested his or her inclusion in the CACI to challenge his or her listing on the CACI. The hearing shall satisfy due process requirements. It is the intent of the Legislature that the hearing provided for by this subdivision shall not be construed to be inconsistent with hearing proceedings available to persons who have been listed on the CACI prior to the enactment of the act that added this subdivision.

(e) A hearing requested pursuant to subdivision (d) shall be denied when a court of competent jurisdiction has determined that suspected child abuse or neglect has occurred, or when the allegation of child abuse or neglect resulting in the referral to the CACI is pending before the court. A person who is listed on the CACI and has been denied a hearing pursuant to this subdivision has a right to a hearing pursuant to subdivision (d) only if the court's jurisdiction has terminated, the court has not made a finding concerning whether the suspected child abuse or neglect was substantiated, and a hearing has not previously been provided to the listed person pursuant to subdivision (d).

(f) Any person listed in the CACI who has reached 100 years of age shall have his or her listing removed from the CACI.

(g) Any person listed in the CACI as of January 1, 2013, who was listed prior to reaching 18 years of age, and who is listed once in CACI with no subsequent listings, shall be removed from the CACI 10 years from the date of the incident resulting in the CACI listing.

(h) If, after a hearing pursuant to subdivision (d) or a court proceeding described in subdivision (e), it is determined the person's CACI listing was based on a report that was not substantiated, the agency shall notify the Department of Justice of that result and the department shall remove that person's name from the CACI.

(i) Agencies, including police departments and sheriff's departments, shall retain child abuse or neglect investigative reports that result or resulted in a report filed with the Department of Justice pursuant to subdivision (a) for the same period of time that the information is required to be maintained on the CACI pursuant to this section and subdivision (a) of Section 11170. Nothing in this section precludes an agency from retaining the reports for a longer period of time if required by law.

(e)(1) The department shall make available to an out-of-state agency, for purposes of approving a prospective foster or adoptive parent in compliance with the Adam Walsh Child Protection and Safety Act of 2006 (Public Law 109-248), information regarding a known or suspected child abuser maintained pursuant to subdivision (a) concerning the prospective foster or adoptive parent, and any other adult living in the home of the prospective foster or adoptive parent. The department shall make that information available only when the out-of-state agency makes the request indicating that continual compliance will be maintained with the requirement in paragraph (20) of subsection (a) of Section 671 of Title 42 of the United States Code that requires the state to have in place safeguards to prevent the unauthorized disclosure of information in any child abuse and neglect registry maintained by the state and prevent the information from being used for a purpose other than the conducting of background checks in foster or adoption placement cases.

(2) With respect to any information provided by the department in response to the out-of-state agency's request, the out-of-state agency is responsible for obtaining the original investigative report from the reporting agency, and for drawing independent conclusions regarding the quality of the evidence disclosed and its sufficiency for making decisions regarding the approval of prospective foster or adoptive parents.

(3)(A) Whenever information contained in the index is furnished pursuant to this subdivision, the department shall charge the out-of-state agency making the request a fee. The fee shall not exceed the reasonable costs to the department of providing the information. The only increase shall be at a rate not to exceed the legislatively approved cost-of-living adjustment for the department. In no case shall the fee exceed fifteen dollars (\$15).

(B) All moneys received by the department pursuant to this subdivision shall be deposited in the Department of Justice Child Abuse Fund, established under subparagraph (B) of paragraph (12) of subdivision (b). Moneys in the fund shall be available, upon appropriation by the Legislature, for expenditure by the department to offset the costs incurred to process requests for information pursuant to this subdivision.

(f)(1) Any person may determine if he or she is listed in the CACI by making a request in writing to the Department of Justice. The request shall be notarized and include the person's name, address, date of birth, and either a social security number or a California identification number. Upon receipt of a notarized request, the Department of Justice shall make available to the requesting person information identifying the date of the report and the submitting agency. The requesting person is responsible for obtaining the investigative report from the submitting agency pursuant to paragraph (11) of subdivision (b) of Section 11167.5.

Any X-ray taken pursuant to this subdivision shall be administered by a physician and surgeon or dentist or their agents.

(b) With respect to the cost of an X-ray taken by the county coroner or at the request of the county coroner in suspected child abuse or neglect cases, the county may charge the parent or legal guardian of the child-victim the costs incurred by the county for the X-ray.

(a) No mandated reporter shall be civilly or criminally liable for any report

BOARD OF PSYCHOLOGY

required or authorized by this article, and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of their professional capacity or outside the scope of their employment. Any other person reporting a known or suspected instance of child abuse or neglect shall not incur civil or criminal liability as a result of any report authorized by this article unless it can be proven that a false report was made and the person knew that the report was false or was made with reckless disregard of the truth or falsity of the report, and any person who makes a report of child abuse or neglect known to be false or with reckless disregard of the truth or falsity of the report is liable for any damages caused. No person required to make a report pursuant to this article, nor any person taking photographs at their direction, shall incur any civil or criminal liability for taking photographs of a suspected victim of child abuse or neglect, or causing photographs to be taken of a suspected victim of child abuse or neglect, without parental consent, or for disseminating the photographs, images, or material with the reports required by this article. However, this section shall not be construed to grant immunity from this liability with respect to any other use of the photographs.

(b) Any person, who, pursuant to a request from a government agency investigating a report of suspected child abuse or neglect, provides the requesting agency with access to the victim of a known or suspected instance of child abuse or neglect shall not incur civil or criminal liability as a result of providing that access.

(c) Any commercial computer technician, and any employer of any commercial computer technician, who, pursuant to a warrant from a law enforcement agency investigating a report of suspected child abuse or neglect, provides the law enforcement agency with a computer or computer component which contains possible evidence of a known or suspected instance of child abuse or neglect, shall not incur civil or criminal liability as a result of providing that computer or computer component to the law enforcement agency.

(d) Any person who, in good faith, provides information or assistance, including medical evaluations or consultations, to an agency specified in Section 11165.9, in connection with a report, investigation, or legal intervention pursuant to a good faith report of child abuse or neglect under this article, shall not incur civil or criminal liability as a result of providing that information or assistance. This subdivision does not grant immunity from liability for an individual who is suspected of committing abuse or neglect of the child who is the subject of the report.

(e)(1) The Legislature finds that even though it has provided immunity from liability to persons required or authorized to make reports pursuant to this article, that immunity does not eliminate the possibility that actions may be brought against those persons based upon required or authorized reports. In order to further limit the financial hardship that those persons may incur as a result of fulfilling their legal responsibilities, it is necessary that they not be unfairly burdened by legal fees incurred in defending those actions.

PENAL CODE

Therefore, a mandated reporter may present a claim to the Department of General Services for reasonable attorney's fees and costs incurred in any action against that person on the basis of making a report required or authorized by this article if the court has dismissed the action upon a demurrer or motion for summary judgment made by that person, or if they prevail in the action. The Department of General Services shall allow that claim if the requirements of this subdivision are met, and the claim shall be paid from an appropriation to be made for that purpose. Attorney's fees awarded pursuant to this section shall not exceed an hourly rate greater than the rate charged by the Attorney General of the State of California at the time the award is made and shall not exceed an aggregate amount of fifty thousand dollars (\$50,000).

(2) This subdivision shall not apply if a public entity has provided for the defense of the action pursuant to Section 995 of the Government Code.

(f) A court may award attorney's fees and costs to a commercial film and photographic print processor when a suit is brought against the processor because of a disclosure mandated by this article and the court finds this suit to be frivolous.

(c) The State Department of Social Services shall provide such orientation and training as it deems necessary to assure that its officers, employees, or agents who conduct inspections of facilities licensed to care for children are knowledgeable about the reporting requirements of this article and have adequate training to identify conditions leading to, and the signs of, child abuse or neglect, as defined in Section 11165.6.

§ 11174.3. Interview with suspected victim of child abuse or neglect at school; Presence of school staff member at interview; Confidentiality; Notification of requirements

(a) Whenever a representative of a government agency investigating suspected child abuse or neglect or the State Department of Social Services deems it necessary, a suspected victim of child abuse or neglect may be interviewed during school hours, on school premises, concerning a report of suspected child abuse or neglect that occurred within the child's home or out-of-home care facility. (3) The court shall not continue the hearing unless the child consents to the continuance and the court determines that additional evidence is necessary to support the findings required by subdivision (c). Any continuance shall be for only such period of time as is necessary to obtain the evidence and only if it is not detrimental to the child.

(d)(1) The court may grant a request to have the child admitted, or authorize a child's voluntary consent to admission, into a psychiatric residential treatment facility, only if it finds, by clear and convincing evidence, all of the following:

(A) That the child suffers from a mental disorder which may reasonably be expected to be cured or ameliorated by a course of treatment offered by the hospital, facility, or program in which the child wishes to be placed.

(B) That the psychiatric residential treatment facility is the least restrictive setting needed to treat the child's mental disorder.

(C) That there is no other available hospital, program, or facility which might better serve the child's medical needs and best interest, including community-based mental health services.

(D) That the child has given knowing and intelligent consent to admission to the facility and that the consent was not made under fear or threat of detention or initiation of conservatorship proceedings.

(E) That the child and, where appropriate, the parent, legal guardian, or Indian custodian have been advised of the nature of inpatient psychiatric services, patient's rights as identified in Section 6006, and their right to contact a patients' rights advocate.

(2)(A) When authorizing a parent's request for admission or the child's voluntary consent, the court may make any orders necessary to ensure that the child welfare agency promptly makes all necessary arrangements to ensure that the child is discharged in a timely manner and with all services and supports in place as necessary for a successful transition into another setting.

(B) The court's order authorizing the admission to a psychiatric residential treatment facility shall be effective until the first of the following events occurs: (1) the parent, guardian, or Indian custodian, or the child if

admission was granted pursuant to Section 6552, withdraws consent for the child to be present in the psychiatric residential treatment facility, (2) the court finds that the child no longer suffers from a mental disorder that may reasonably be expected to be ameliorated by the treatment offered by the facility or that the psychiatric residential treatment facility is no longer the least restrictive alternative for the treatment of the child's mental health needs, or (3) the court makes a superseding order. This section does not require a court order to discharge a child if the parent, guardian, Indian custodian, or child withdraws their consent for admission.

(3) For children who were in the custody of their parent, legal guardian, or Indian custodian at the time of the authorization of admission and based on the evidence presented during the ex parte hearing, the court shall consider whether the parent's, legal guardian's, or Indian custodian's conduct contributed to the deterioration of the child's mental disorder. If the court determines that the parent's, legal guardian's, or Indian custodian's conduct may have contributed to the deterioration, it shall direct the county child welfare agency to investigate whether the child may be safely returned to the custody of the parent, legal guardian, or Indian custodian upon their discharge from the psychiatric residential treatment facility and to take appropriate action, including, but not limited to, taking the child into temporary custody prior to the child's discharge from the facility and filing a subsequent petition pursuant to Section 342 or a supplemental petition pursuant to Section 387.

(e)(1) Whenever a nonminor dependent seeks to voluntarily consent to admission to a psychiatric residential treatment facility, the social worker shall file an ex parte application within 48 hours of the request, or, if the courts are closed for more than 48 hours after being informed of the request, on the first judicial day after being informed of the request, for a hearing to address whether the nonminor dependent has been advised of the nature of inpatient psychiatric services, patient's rights as identified in Section 6006, and their right to contact a patients' rights advocate, and give informed voluntary consent to admission. The application shall satisfy the requirements of Title 3 of the California Rules of Court, and include all of the following:

(A) A brief description of the medical necessity for admission into a psychiatric residential treatment facility.

(B) The name of the psychiatric residential treatment facility proposed for treatment.

(C) A copy of the child welfare agency's plan developed pursuant to subdivisions (c) and (d) of Section 16010.10.

(D) A description of any mental health services, including community-based mental health services, that were offered or provided to the nonminor dependent and an explanation for why those services were not sufficient, or an explanation for why no such services were offered or provided.

Misc.

BOARD OF PSYCHOLOGY

(E) A brief description of why the nonminor dependent believes admission to a less restrictive facility would not adequately address their mental disorder.

(F) A statement describing how the nonminor dependent was given the opportunity to confer privately with their counsel regarding the application.

(G) The information required by this paragraph shall be sufficient to satisfy the applicant's initial burden of establishing the need for an ex parte hearing required by subdivision (c) of Rule 3.1202 of the California Rules of Court.

(2) Upon receipt of an ex parte application pursuant to paragraph (1), the juvenile court shall schedule a hearing for the next judicial day. The court clerk shall immediately notify the social worker and nonminor dependent's counsel of the date, time, and place for the hearing.

(3) The social worker shall provide notice of the hearing in accordance with Title 3 of the California Rules of Court to all parties to the proceeding and their counsel of record, the nonminor dependent's tribe, if applicable, the nonminor dependent's court-appointed special advocate, if applicable, and any person designated as the nonminor dependent's educational or developmental representative pursuant to subdivision (a) of Section 361. The provisions in subdivision (c) of Section 527 of the Code of Civil Procedure shall apply to notice of the hearing. The social worker shall make arrangements for the nonminor dependent to be present for the hearing.

(4) At the hearing, the court shall consider evidence in the form of oral testimony under oath, affidavit or declaration, or other admissible evidence, as to all of the following:

(A) Whether the nonminor dependent's receipt of treatment in the psychiatric residential treatment facility is medically necessary.

(B) Whether any less restrictive treatment setting could serve the nonminor dependent's treatment needs, including a less restrictive facility or community-based services.

(C) Whether and how the nonminor dependent has been advised of the nature of inpatient psychiatric services, patient's rights as identified in Section 6006, and their right to contact a patients' rights advocate.

(D) Whether and how the social worker addressed the voluntary admission with the nonminor dependent's attorney, including whether the nonminor dependent was given the opportunity to confer privately with their attorney about a voluntary admission.

(E) Whether and how the possible voluntary admission was addressed with the child and family team, whether any member of the team objects to voluntary admission, and the reasons for the objection.

(F) Whether the nonminor dependent gives knowing and intelligent consent to admission.

(G) The county child welfare agency's plan for the nonminor dependent, as described in subdivisions (c) and (d) of Section 16010.10.

WELFARE AND INSTITUTIONS CODE

(5)(A) At the hearing, the court shall make a finding whether the nonminor dependent has given knowing and intelligent consent to admission. If the court finds that the nonminor dependent has not given knowing and intelligent consent, it shall direct the social worker to convey its finding to the facility and direct the facility to discharge the nonminor dependent in accordance with the nonminor dependent's aftercare plan. The social worker shall ensure that the aftercare plan is implemented to ensure integration with the nonminor dependent's family, school, and community upon discharge. If the court finds that the nonminor dependent has given knowing and intelligent consent, nothing in this section requires a court order to discharge the nonminor if the nonminor dependent subsequently withdraws their consent.

(B)(i) The court may make any orders necessary to ensure that the child welfare agency promptly makes all necessary arrangements to ensure that the nonminor dependent is discharged in a timely manner and with all services and supports in place as necessary for a successful transition into a less restrictive setting.

(ii) The judicial proceedings described in this subdivision shall not delay a nonminor dependent's access to medically necessary services as defined in Section 14059.5 of the Welfare and Institutions Code and Section 1396d(r) of Title 42 of the United States Code, which may include voluntary admission to a psychiatric residential treatment facility for inpatient psychiatric services, while the judicial proceedings are ongoing.

(f)(1)(A) No later than 60 days following the admission of a child to a psychiatric residential treatment facility, and every 30 days thereafter, the court shall hold a review hearing on the child's placement in the facility based upon the medical necessity of that placement.

(B) If the hearing described in subparagraph (A) coincides with the date for a status review hearing for a child pursuant to Section 364, 366.21, 366.22, 366.25, or 366.3, the court may hold the hearing simultaneously with the status review hearing.

(C) At the hearing described in subparagraph (A), the court shall consider all of the following:

(i) Whether the parent, guardian, Indian custodian, or child consents, or continues to consent, to the voluntary admission made pursuant to this section.

(ii) Whether the child continues to suffer from a mental disorder that may reasonably be expected to be cured or ameliorated by a course of treatment offered by the facility.

(iii) Whether there continues to be no other available less restrictive hospital, program, facility, or community-based mental health service which might better serve the child's medical needs and best interest.

(iv) Whether the psychiatric residential treatment facility, which is licensed pursuant to Section 4081, continues to meet its legal obligation to provide services to the child.

BOARD OF PSYCHOLOGY

(v) The county child welfare agency's plan as described in subdivisions (c) and (d) of Section 16010.10, and the agency's actions to implement that plan.

(D) If the court finds at any hearing that the child, if the child consented to admission pursuant to Section 6552, continues to give voluntary consent to admission, that the child continues to suffer from a mental disorder which may reasonably be expected to be cured or ameliorated by a course of treatment offered by the facility, and that there continues to be no other available less restrictive hospital, program, facility, or community-based mental health service which might better serve the child's medical need and best interest, the court may authorize the child's continued consent to admission to a psychiatric residential treatment facility. If the child has been in the facility for over 30 days, there shall be a rebuttable presumption that the facility is not the least restrictive alternative to serve the child's medical need and best interest.

(E)(i) If the court finds that the child, if the child consented to admission pursuant to Section 6552, no longer gives voluntary consent, that the child no longer suffers from a mental disorder which may reasonably be expected to be cured or ameliorated by a course of treatment offered by the facility, or that there is another available hospital, program, facility, or community-based mental health service which might better serve the child's medical need and best interest, the social worker shall work immediately with the facility for discharge to a different setting with the appropriate and necessary services and supports in place. A statement from the child's attorney that the child no longer gives voluntary consent to the admission to the facility may be sufficient to support a finding that the child no longer gives voluntary consent. The court shall set a hearing no later than 30 days to verify that the child has been discharged. If the child has not been discharged by the time of the hearing, the court shall issue any and all orders to effectuate the child's immediate discharge, including exercising its powers under subdivision (b) of Section 362. This paragraph does not preclude involuntary detention of the child pursuant to the applicable requirements of the Children's Civil Commitment and Mental Health Treatment Act of 1988 or the Lanterman-Petris-Short Act if the child withdraws voluntary consent. This paragraph does not preclude a parent, guardian, Indian custodian, or child's social worker or attorney from arranging the child's discharge from the facility without a court order.

(ii) If the court's determination under clause (i) includes a determination that the child should receive treatment through another hospital, program, facility, or community-based mental health service, the court shall hold a hearing no later than 60 days from the child's discharge to ensure that the other services have been provided.

(F) If the court determines the psychiatric residential treatment facility, which is licensed pursuant to Section 4081, failed to meet its legal

obligation to provide services to the child, it may direct the social worker to engage with the facility to ensure the child is receiving all necessary services. If necessary, the court may exercise its powers under subdivision (b) of Section 362.

(G) The court may make any orders necessary to ensure that the child welfare agency makes all necessary arrangements for the child's discharge promptly and that all services and supports are in place for the child's successful transition to a different setting. The court may direct the social worker to work with the facility on the child's aftercare plans as appropriate based on the child's progress.

(H) This paragraph does not prevent the court from holding review hearings more frequently at its discretion.

(2)(A) No later than 60 days following the admission of a nonminor dependent to a psychiatric residential treatment facility, and every 30 days thereafter, the court shall hold a review hearing on the child or nonminor dependent's placement in the facility based upon the medical necessity of that placement.

(B) If the hearing described in subparagraph (A) coincides with the date for a review hearing for a nonminor dependent pursuant to Section 366.31, the court may hold the hearing simultaneously with the status review hearing.

(C) At the hearing in subparagraph (A), the court shall consider all of the following:

(i) Whether the nonminor dependent continues to consent to the voluntary admission made pursuant to this section.

(ii) Whether the nonminor dependent's receipt of treatment in the psychiatric residential treatment facility is medically necessary.

(iii) Whether there is any less restrictive alternative to meet the nonminor dependent's needs, including a less restrictive facility or home or community-based mental health services.

(iv) Whether the psychiatric residential treatment facility, which is licensed pursuant to Section 4081, continues to meet its legal obligation to provide services to the nonminor dependent.

(v) The county child welfare agency's plan as described in subdivisions (c) and (d) of Section 16010.10, and the agency's actions to implement that plan.

(D) If the court finds at any review hearing that the nonminor dependent continues to voluntarily consent to admission and that the evidence supports the nonminor dependent's need for care and treatment in the psychiatric residential treatment facility, the court shall enter these findings in the record and direct the social worker to transmit them to the facility or interdisciplinary team. The court may direct the social worker to work with the facility on the nonminor dependent's aftercare plan as appropriate based on the nonminor dependent's need to achieve independence.

(E)(i) If the court finds that the nonminor dependent no longer voluntarily consents to admission, the social worker shall notify the facility and immediately work with the nonminor dependent and the facility for discharge to a less restrictive setting with the appropriate and necessary services and supports in place. A statement from the nonminor dependent's attorney that the nonminor dependent no longer gives voluntary consent to the admission to the facility is be sufficient to support a finding that the nonminor dependent no longer gives voluntary consent. The court shall set a hearing no later than 30 days to verify that the nonminor dependent has been discharged. If the nonminor dependent has not been discharged by the time of the hearing, the court shall issue any and all orders to effectuate the nonminor dependent's immediate discharge, including exercising its powers under subdivision (b) of Section 362. This paragraph does not preclude involuntary detention of the nonminor dependent pursuant to the requirements of the Lanterman-Petris-Short Act if the nonminor dependent withdraws voluntary consent. This paragraph does not preclude the nonminor dependent from arranging their own discharge from the facility without a court order.

(ii) If the court's determination under clause (i) includes a determination that the nonminor dependent should receive treatment through another hospital, program, facility, or community-based mental health service, the court shall hold a hearing no later than 60 days from the nonminor dependent's discharge to ensure that the other services have been provided.

(F) If the court determines the psychiatric residential treatment facility, which is licensed pursuant to Section 4081, failed to meet its legal obligation to provide services to the nonminor dependent, it may direct the social worker to engage with the facility to ensure the nonminor dependent is receiving all necessary services. If necessary, the court may exercise its powers under subdivision (b) of Section 362.

(G) The court may make any orders necessary to ensure that the child welfare agency makes all necessary arrangements for the nonminor dependent's discharge promptly and that all services and supports are in place for the child's successful transition to a different setting. The court may direct the social worker to work with the facility on the nonminor dependent's aftercare plans as appropriate based on the nonminor dependent's progress.

(H) This paragraph does not prevent the court from holding review hearings more frequently at its discretion.

(g) Whenever a child or nonminor dependent is discharged due to revocation of consent to admission, the county child welfare agency shall, within two court days of being notified of the revocation of consent, file a petition pursuant to Section 388 requesting an order vacating the court's authorization of the child's or nonminor dependent's admission to the facility. This subdivision does not

WELFARE AND INSTITUTIONS CODE

require a court order for the discharge of a child arranged for by the child's social worker or attorney or nonminor dependent when consent to admission has been withdrawn.

(h) At any review hearing pursuant to Section 364, 366.21, 366.22, 366.3, or 366.31, if a child or nonminor dependent has been admitted to a psychiatric residential treatment facility pursuant to the consent of a conservator, the court shall review the child welfare agency's plan developed pursuant to subdivisions (c) and (d) of Section 16010.10. The court may make any orders necessary to ensure that the child welfare agency promptly makes all necessary arrangements to ensure that the child or nonminor dependent is discharged in a timely manner and with all services and supports in place as necessary for a successful transition to a less restrictive setting. The court may direct the social worker to work with the facility and, where appropriate, the child's or nonminor dependent's court-appointed conservator, to ensure the child or nonminor dependent is receiving all necessary child welfare services and to develop the child's or nonminor dependent's aftercare plan as appropriate based on the evidence of the child's or nonminor dependent's progress.

(i) The documentation required by this section shall not contain information that is privileged or confidential under existing state or federal law or regulation without the appropriate waiver or consent.

(j) For purposes of this section, a "psychiatric residential treatment facility" refers to a psychiatric residential treatment facility defined in Section 1250.10 of the Health and Safety Code.

(k) All provisions in this section that apply to nonminor dependents shall apply equally to foster children who remain under juvenile court jurisdiction pursuant to subdivision (a) of Section 303 after reaching the age of majority even if they do not meet the definition of "nonminor dependent" contained in subdivision (v) of Section 11400.

§ 5150. Detention upon probable cause; Assessment; Alternative services; Application for admission; Personal property of person taken into custody; Advisement, record of advisement

(a) When a person, as a result of a mental health disorder, is a danger to others, or to themselves, or gravely disabled, a peace officer, professional person in charge of a facility designated by the county for evaluation and treatment, member of the attending staff, as defined by regulation, of a facility designated by the county for evaluation and treatment, designated members of a mobile crisis team, or professional person designated by the county may, upon probable cause, take, or cause to be taken, the person into custody for a

WELFARE AND INSTITUTIONS CODE

period of up to 72 hours for assessment, evaluation, and crisis intervention, or placement for evaluation and treatment in a facility designated by the county for evaluation and treatment and approved by the State Department of Health Care Services. The 72-hour period begins at the time when the person is first detained. At a minimum, assessment, as defined in Section 5150.4, and evaluation, as defined in subdivision (a) of Section 5008, shall be conducted and provided on an ongoing basis. Crisis intervention, as defined in subdivision (e) of Section 5008, may be provided concurrently with assessment, evaluation, or any other service.

(b) When determining if a person should be taken into custody pursuant to subdivision (a), the individual making that determination shall apply the provisions of Section 5150.05, and shall not be limited to consideration of the danger of imminent harm.

(c) The professional person in charge of a facility designated by the county for evaluation and treatment, member of the attending staff, or professional person designated by the county shall assess the person to determine whether the person can be properly served without being detained. If, in the judgment of the professional person in charge of the facility designated by the county for evaluation and treatment, member of the attending staff, or professional person designated by the county, the person can be properly served without being detained, the person shall be provided evaluation, crisis intervention, or other inpatient or outpatient services on a voluntary basis. This subdivision does not prevent a peace officer from delivering an individual to a designated facility for assessment under this section. Furthermore, the assessment requirement of this subdivision does not require a peace officer to perform any additional duties other than those specified in Sections 5150.1 and 5150.2.

(d) If a person is evaluated by a professional person in charge of a facility designated by the county for evaluation or treatment, member of the attending staff, or professional person designated by the county and is found to be in need of mental health services, but is not admitted to the facility, all available alternative services provided pursuant to subdivision (c) shall be offered, as determined by the county mental health director.

(e) If, in the judgment of the professional person in charge of the facility designated by the county for evaluation and treatment, member of the attending staff, or the professional person designated by the county, the person cannot be properly served without being detained, the admitting facility shall require an application in writing stating the circumstances under which the person's condition was called to the attention of the peace officer, professional person in charge of the facility designated by the county for evaluation and treatment, member of the attending staff, or professional person designated by the county, and stating that the peace officer, professional person in charge of the facility designated by the county for evaluation and treatment, member of the attending staff, or professional person designated by the county has probable cause to believe that the person is, as a result of a mental health disorder, a danger to others, or to themselves, or, or gravely disabled. The

application shall also record whether the historical course of the person's mental disorder was considered in the determination, pursuant to Section 5150.05. If the probable cause is based on the statement of a person other than the peace officer, professional person in charge of the facility designated by the county for evaluation and treatment, member of the attending staff, or professional person designated by the county, the person shall be liable in a civil action for intentionally giving a statement that the person knows to be false. A copy of the application shall be treated as the original.

(f) At the time a person is taken into custody for evaluation, or within a reasonable time thereafter, unless a responsible relative or the guardian or conservator of the person is in possession of the person's personal property, the person taking them into custody shall take reasonable precautions to preserve and safeguard the personal property in the possession of or on the premises occupied by the person. The person taking them into custody shall then furnish to the court a report generally describing the person's property so preserved and safeguarded and its disposition, in substantially the form set forth in Section 5211, except that if a responsible relative or the guardian or conservator of the person is in possession of the person's property, the report shall include only the name of the relative or guardian or conservator and the location of the property, whereupon responsibility of the person taking them into custody for that property shall terminate. As used in this section, "responsible relative" includes the spouse, parent, adult child, domestic partner, grandparent, grandchild, or adult brother or sister of the person.

(g)(1) Each person, at the time the person is first taken into custody under this section, shall be provided, by the person who takes them into custody, the following information orally in a language or modality accessible to the person. If the person cannot understand an oral advisement, the information shall be provided in writing. The information shall be in substantially the following form:

(2) If taken into custody at the person's own residence, the person shall also be provided the following information:

You may bring a few personal items with you, which I will have to approve. Please inform me if you need assistance turning off any appliance or water. You may make a phone call and leave a note to tell your friends or family where you have been taken.

The information shall be given orally and in writing and in a language or modality accessible to the person. The written information shall be available to the person in English and in the language that is the person's primary means of communication. Accommodations for other disabilities that may affect communication shall also be provided. The information shall be in substantially the following form:

You may request to be evaluated or treated by a mental health professional of your choice. We cannot guarantee the facility or mental health professional you choose will be available, but we will honor your choice if we can.

During these 72 hours you will be evaluated by the facility staff, and you may be given treatment, including medications. It is possible for you to be released before the end of the 72 hours. But if the staff decides that you need continued treatment you can be held for a longer period of time. If you are held longer than 72 hours, you have the right to a lawyer and a qualified interpreter and a hearing before a judge. (2) However, unless they specifically indicate in writing their willingness and ability to help, family, friends, or others shall not be considered willing or able to provide this help.

(3) The purpose of this subdivision is to avoid the necessity for, and the harmful effects of, requiring family, friends, and others to publicly state, and requiring the certification review officer to publicly find, that no one is willing or able to assist a person with a mental health disorder in providing for the person’s basic needs for food, clothing, or shelter.

control, any firearm whatsoever, or any other deadly weapon, the firearm or other deadly weapon shall be confiscated by any law enforcement agency or peace officer, who shall retain custody of the firearm or other deadly weapon.

“Deadly weapon,” as used in this section, has the meaning prescribed by Section 8100.

(b)(1) Upon confiscation of any firearm or other deadly weapon from a person who has been detained or apprehended for examination of his or her mental condition, the peace officer or law enforcement agency shall issue a receipt describing the deadly weapon or any firearm and listing any serial number or other identification on the firearm and shall notify the person of the procedure for the return, sale, transfer, or destruction of any firearm or other deadly weapon which has been confiscated. A peace officer or law enforcement agency that provides the receipt and notification described in Section 33800 of the Penal Code satisfies the receipt and notice requirements.

(4) For purposes of this subdivision, the procedure for the return, sale, or transfer of confiscated firearms includes the procedures described in this section and the procedures described in Chapter 2 (commencing with Section 33850) of Division 11 of Title 4 of Part 6 of the Penal Code.

(5) In lieu of destroying a firearm that has been confiscated pursuant to this section that is a nuisance, unclaimed, abandoned, or otherwise subject to destruction, a law enforcement agency may retain or transfer the firearm as provided in Section 34005 of the Penal Code.

(c) Upon the release of a person as described in subdivision (b), the confiscating law enforcement agency shall have 30 days to initiate a petition in the superior court for a hearing to determine whether the return of a firearm or other deadly weapon would be likely to result in endangering the person or others, and to send a notice advising the person of his or her right to a hearing on this issue. The law enforcement agency may make an ex parte application stating good cause for an order extending the time to file a petition. Including any extension of time granted in response to an ex parte request, a petition shall be filed within 60 days of the release of the person from a health facility.

(d) If the law enforcement agency does not initiate proceedings within the 30-day period, or the period of time authorized by the court in an ex parte order issued pursuant to subdivision (c), it shall make the weapon available for return upon compliance with all applicable requirements, including the requirements specified in Chapter 2 (commencing with Section 33850) of Division 11 of Title 4 of Part 6 of the Penal Code.

WELFARE AND INSTITUTIONS CODE

(e) The law enforcement agency shall inform the person that he or she has 30 days to respond to the court clerk to confirm his or her desire for a hearing, and that the failure to respond will result in a default order forfeiting the confiscated firearm or weapon. For a confiscated firearm, the period of forfeiture is 180 days pursuant to Section 33875 of the Penal Code, unless the person contacts the law enforcement agency to facilitate the sale or transfer of the firearm to a licensed dealer pursuant to Section 33870 of the Penal Code. For the purpose of this subdivision, the person's last known address shall be the address provided to the law enforcement officer by the person at the time of the person's detention or apprehension.

(f) If the person responds and requests a hearing, the court clerk shall set a hearing, no later than 30 days from receipt of the request. The court clerk shall notify the person and the district attorney of the date, time, and place of the hearing.

(g) If the person does not respond within 30 days of the notice, the law enforcement agency may file a petition for order of default, allowing the law enforcement agency to destroy the firearm in 180 days from the date the court enters default unless the person contacts the law enforcement agency to facilitate the sale or transfer of the firearm to a licensed dealer pursuant to Section 33870 of the Penal Code.

(h) If, after a hearing, the court determines that the return of the firearm or other deadly weapon would likely endanger the person or others, the law enforcement agency may destroy the firearm within 180 days from the date that the court makes that determination, unless the person contacts the law enforcement agency to facilitate the sale or transfer of the firearm to a licensed dealer pursuant to Section 33870 of the Penal Code.

The reports shall be disclosed upon request to the person and to the district attorney. The court shall set the hearing within 60 days of receipt of the request for a hearing. Upon showing good cause, the district attorney shall be entitled to a continuance not to exceed 30 days after the district attorney was notified of the hearing date by the clerk of the court. The district attorney may notify the county behavioral health director of the hearing who shall provide information about the detention of the person that may be relevant to the court and shall file that information with the superior court. That information shall be disclosed to the person and to the district attorney. The court, upon motion of the person subject to paragraph (1) establishing that confidential information is likely to be discussed during the hearing that would cause harm to the person, shall conduct the hearing in camera with only the relevant parties present, unless the court finds that the public interest would be better served by conducting the hearing in public. (10) If the court finds that the people have met their burden to show by a preponderance of the evidence that the person would not be likely to use firearms in a safe and lawful manner and the person is subject to a lifetime firearm prohibition because the person had been admitted as specified in subparagraph (A) of paragraph (1) more than once within the previous one-year period, the court shall inform the person of his or her right to file a subsequent petition no sooner than five years from the date of the hearing.

(11) A person subject to a lifetime firearm prohibition is entitled to bring subsequent petitions pursuant to this subdivision. A person shall not be entitled to file a subsequent petition, and shall not be entitled to a subsequent hearing, until five years have passed since the determination on the person's last petition. A hearing on subsequent petitions shall be conducted as described in this subdivision, with the exception that the burden of proof shall be on the petitioner to establish by a preponderance of the evidence that the petitioner can use a firearm in a safe and lawful

(2)(A) For each person certified for intensive treatment under paragraph (1), the facility shall, within 24 hours of the certification, submit a report to the Department of Justice, on a form prescribed by the department, containing information regarding the person, including, but not limited to, the legal identity of the person and the legal grounds upon which the person was certified. A report submitted pursuant to this paragraph shall only be used for the purposes specified in paragraph (2) of subdivision (f).

(B) Facilities shall submit reports pursuant to this paragraph exclusively by electronic means, in a manner prescribed by the Department of Justice.

(3) Prior to, or concurrent with, the discharge of each person certified for intensive treatment under paragraph (1), the facility shall inform the person of that information specified in paragraph (3) of subdivision (f).

(4) A person who is subject to paragraph (1) may petition the superior court of his or her county of residence for an order that he or she may own, possess, control, receive, or purchase firearms. At the time the petition is filed, the clerk of the court shall set a hearing date within 60 days of receipt of the petition and notify the person, the Department of Justice, and the district attorney. The people of the State of California shall be the respondent in the proceeding and shall be represented by the district attorney. Upon motion of the district attorney, or on its own motion, the superior court may transfer the petition to the county in which the person resided at the time of his or her detention, the county in which the person was detained, or the county in which the person was evaluated or treated. Within seven days after receiving notice of the petition, the Department of Justice shall file copies of the reports described in this section with the superior court. The reports shall be disclosed upon request to the person and to the district attorney. The district attorney shall be entitled to a continuance of the hearing to a date of not less than 30 days after the district attorney was notified of the hearing date by the clerk of the court. If additional continuances are granted, the total length of time for continuances shall not exceed 60 days. The district attorney may notify the county behavioral health director of the petition, and the county behavioral health director shall provide information about the detention of the person that may be relevant to the court and shall file that information with the superior court. That information shall be disclosed to the person and to the district attorney. The

Notwithstanding any other law, any declaration, police reports, including criminal history information, and any other material and relevant evidence that is not excluded under Section 352 of the Evidence Code, shall be admissible at the hearing under this section. If the court finds by a preponderance of the evidence that the person would be likely to use firearms in a safe and lawful manner, the court may order that the person may own, control, receive, possess, or purchase firearms, and that person shall comply with the procedure described in Chapter 2 (commencing with Section 33850) of Division 11 of Title 4 of Part 6 of the Penal Code for the return of any firearms. This paragraph shall apply only to those categories of mandated reporters that the State Department of Public Health determines, upon approval by the Division of Medi-Cal Fraud and Elder Abuse and the state long-term care ombudsman, have access to plans of care and have the training and experience necessary to determine whether the conditions specified in this section have been met.

(c)(1) Any mandated reporter who has knowledge, or reasonably suspects, that types of elder or dependent adult abuse for which reports are not mandated have been inflicted upon an elder or dependent adult, or that their emotional well-being is endangered in any other way, may report the known or suspected instance of abuse.

(2) If the suspected or alleged abuse occurred in a long-term care facility other than a state mental health hospital or a state developmental center, the report may be made to the long-term care ombudsman program. Except in an emergency, the local ombudsman shall report any case of known or suspected abuse to the State Department of Public Health and any case of known or suspected criminal activity to the Division of Medi-Cal Fraud and Elder Abuse, as soon as is practicable.

(3) If the suspected or alleged abuse occurred in a state mental health hospital or a state developmental center, the report may be made to the designated investigator of the State Department of State Hospitals or the State Department of Developmental Services or to a local law enforcement agency. Except in an emergency, the local law enforcement agency shall report any case of known or suspected criminal activity to the Division of Medi-Cal Fraud and Elder Abuse, as soon as is practicable.

(4) If the suspected or alleged abuse occurred in a place other than a place described in paragraph (2) or (3), the report may be made to the county adult protective services agency.

(5) If the conduct involves criminal activity not covered in subdivision (b), it may be immediately reported to the appropriate law enforcement agency.

(d) If two or more mandated reporters are present and jointly have knowledge or reasonably suspect that types of abuse of an elder or a dependent adult for which a report is or is not mandated have occurred, and there is agreement among them, the telephone report or internet report, as authorized by Section 15658, may be made by a member of the team selected by mutual agreement, and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report.

(e) A telephone report or internet report, as authorized by Section 15658, of a known or suspected instance of elder or dependent adult abuse shall include, if known, the name of the person making the report, the name and age of the elder or dependent adult, the present location of the elder or dependent adult,

(f) The reporting duties under this section are individual, and no supervisor or administrator shall impede or inhibit the reporting duties, and no person making the report shall be subject to any sanction for making the report. However, internal procedures to facilitate reporting, ensure confidentiality, and apprise supervisors and administrators of reports may be established, provided they are not inconsistent with this chapter.

(g)(1) Whenever this section requires a county adult protective services agency to report to a law enforcement agency, the law enforcement agency shall, immediately upon request, provide a copy of its investigative report concerning the reported matter to that county adult protective services agency.

(2) Whenever this section requires a law enforcement agency to report to a county adult protective services agency, the county adult protective services agency shall, immediately upon request, provide to that law enforcement agency a copy of its investigative report concerning the reported matter.

(3) The requirement to disclose investigative reports pursuant to this subdivision shall not include the disclosure of social services records or case files that are confidential, nor shall this subdivision allow disclosure of any reports or records if the disclosure would be prohibited by any other state or federal law.

(h) Failure to report, or impeding or inhibiting a report of, physical abuse, as defined in Section 15610.63, abandonment, abduction, isolation, financial abuse, or neglect of an elder or dependent adult, in violation of this section, is a misdemeanor, punishable by not more than six months in the county jail, by a fine of not more than one thousand dollars (\$1,000), or by both that fine and imprisonment. A mandated reporter who willfully fails to report, or impedes or inhibits a report of, physical abuse, as defined in Section 15610.63, abandonment, abduction, isolation, financial abuse, or neglect of an elder or dependent adult, in violation of this section, if that abuse results in death or great bodily injury, shall be punished by not more than one year in a county jail, by a fine of not more than five thousand dollars (\$5,000), or by both that fine and imprisonment. If a mandated reporter intentionally conceals their failure to report an incident known by the mandated reporter to be abuse or severe neglect under this section, the failure to report is a continuing offense until a law enforcement agency specified in paragraph (1) of subdivision (b) of Section 15630 discovers the offense.

(i) For purposes of this section, "dependent adult" has the same meaning as that term is defined in Section 15610.23.

§ 15630.2. Report suspected financial abuse by mandated reporter; Elder or dependent adult; Liability; Definitions

(a) For purposes of this section, the following terms have the following definitions:

(1) “Financial abuse” has the same meaning as in Section 15610.30.

(2) “Broker-dealer” has the same meaning as in Section 25004 of the Corporations Code.

(3) “Investment adviser” has the same meaning as in Section 25009 of the Corporations Code.

(4) “Mandated reporter of suspected financial abuse of an elder or dependent adult” means a broker-dealer or an investment adviser.

(b)(1) Any mandated reporter of suspected financial abuse of an elder or dependent adult who has direct contact with the elder or dependent adult or who reviews or approves the elder or dependent adult’s financial documents, records, or transactions, in connection with providing financial services with respect to an elder or dependent adult, and who, within the scope of their employment or professional practice, has observed or has knowledge of an incident that is directly related to the transaction or matter that is within that scope of employment or professional practice, that reasonably appears to be financial abuse, or who reasonably suspects that abuse, based solely on the information before them at the time of reviewing or approving the document, record, or transaction in the case of mandated reporters who do not have direct contact with the elder or dependent adult, shall report the known or suspected instance of financial abuse by telephone or through a confidential internet reporting tool, as authorized pursuant to Section 15658, immediately, or as soon as practicably possible. If reported by telephone, a written report shall be sent, or an internet report shall be made through the confidential internet reporting tool established in Section 15658, within two working days to the local adult protective services agency, the local law enforcement agency, and the Department of Financial Protection and Innovation.

(2) When two or more mandated reporters jointly have knowledge or reasonably suspect that financial abuse of an elder or a dependent adult for which the report is mandated has occurred, and when there is an agreement among them, the telephone report or internet report, as authorized by

Section 15658, may be made by a member of the reporting team who is selected by mutual agreement. A single report may be made and signed by the selected member of the reporting team. Any member of the team who has knowledge that the member designated to report has failed to do so shall thereafter make that report.

(3) If the mandated reporter knows that the elder or dependent adult resides in a long-term care facility, as defined in Section 15610.47, the report shall be made to the local ombudsman, local law enforcement agency, and the Department of Financial Protection and Innovation.

(c) An allegation by the elder or dependent adult, or any other person, that financial abuse has occurred is not sufficient to trigger the reporting requirement under this section if both of the following conditions are met:

(1) The mandated reporter of suspected financial abuse of an elder or dependent adult is aware of no other corroborating or independent evidence of the alleged financial abuse of an elder or dependent adult. The mandated reporter of suspected financial abuse of an elder or dependent adult is not required to investigate any accusations.

(2) In the exercise of their professional judgment, the mandated reporter of suspected financial abuse of an elder or dependent adult reasonably believes that financial abuse of an elder or dependent adult did not occur.

(d) Failure to report financial abuse under this section shall be subject to a civil penalty not exceeding one thousand dollars (\$1,000) or if the failure to report is willful, a civil penalty not exceeding five thousand dollars (\$5,000), which shall be paid by the employer of the mandated reporter of suspected financial abuse of an elder or dependent adult to the party bringing the action. Subdivision (h) of Section 15630 shall not apply to violations of this section.

(e) The civil penalty provided for in subdivision (d) shall be recovered only in a civil action brought against the broker-dealer or investment adviser by the Attorney General, district attorney, or county counsel. An action shall not be brought under this section by any person other than the Attorney General, district attorney, or county counsel. Multiple actions for the civil penalty may not be brought for the same violation.

(f) As used in this section, "suspected financial abuse of an elder or dependent adult" occurs when a person who is required to report under subdivision (b) observes or has knowledge of behavior or unusual circumstances or transactions, or a pattern of behavior or unusual circumstances or transactions, that would lead an individual with like training or experience, based on the same facts, to form a reasonable belief that an elder or dependent adult is the victim of financial abuse as defined in Section 15610.30.

(g) Reports of suspected financial abuse of an elder or dependent adult made pursuant to this section are covered under subdivision (b) of Section 47 of the Civil Code.

(h)(1) A mandated reporter of suspected financial abuse of an elder or dependent adult who makes a report pursuant to this section may notify any trusted contact person who had previously been designated by the elder or

WELFARE AND INSTITUTIONS CODE

dependent adult to receive notification of any known or suspected financial abuse, unless the trusted contact person is suspected of the financial abuse. This authority does not affect the ability of the mandated reporter to make any other notifications otherwise permitted by law.

(2) A mandated reporter of suspected financial abuse of an elder or dependent adult shall not be civilly liable for any notification made in good faith and with reasonable care pursuant to this subdivision.

(i)(1) A mandated reporter of suspected financial abuse of an elder or dependent adult is authorized to not honor a power of attorney described in Division 4.5 (commencing with Section 4000) of the Probate Code as to an attorney-in-fact, if the mandated reporter of suspected financial abuse of an elder or dependent adult makes a report to an adult protective services agency or a local law enforcement agency of any state that the principal may be subject to financial abuse, as described in this chapter or as defined in similar laws of another state, by that attorney-in-fact or person acting for or with that attorney-in-fact.

(2) If a mandated reporter of suspected financial abuse of an elder or dependent adult does not honor a power of attorney as to an attorney-in-fact pursuant to paragraph (1), the power of attorney shall remain enforceable as to every other attorney-in-fact also designated in the power of attorney about whom a report has not been made.

(3) For purposes of this subdivision, the terms “principal” and “attorney-in-fact” have the same meanings as those terms are used in Division 4.5 (commencing with Section 4000) of the Probate Code.

(j)(1) A mandated reporter of suspected financial abuse of an elder or dependent adult may temporarily delay a requested disbursement from, or a requested transaction involving, an account of an elder or dependent adult or an account to which an elder or dependent adult is a beneficiary if the mandated reporter meets all of following conditions:

(A) They have a reasonable belief, after initiating an internal review of the requested disbursement or transaction and the suspected financial abuse, that the requested disbursement or transaction may result in the financial abuse of an elder or dependent adult.

(B) Immediately, but no later than two business days after the requested disbursement or transaction is delayed, they provide written notification of the delay and the reason for the delay to all parties authorized to transact business on the account, unless a party is reasonably believed to have engaged in suspected financial abuse of the elder or dependent.

(C) Immediately, but no later than two business days after the requested disbursement or transaction is delayed, they notify the local county adult protective services agency, local law enforcement agency, and the Department of Financial Protection and Innovation about the delay.

(D) They provide any updates relevant to the report to the local adult protective services agency, the local law enforcement agency, and the Department of Financial Protection and Innovation.

BOARD OF PSYCHOLOGY

(2) Any delay of a requested disbursement or transaction authorized by this subdivision shall expire upon either of the following, whichever is sooner:

(A) A determination by the mandated reporter that the requested disbursement or transaction will not result in financial abuse of the elder or dependent adult provided that the mandated reporter first consults with the local county adult protective services agency, local law enforcement agency, and the Department of Financial Protection and Innovation, and receives no objection from those entities.

(B) Fifteen business days after the date on which the mandated reporter first delayed the requested disbursement or transaction, unless the adult protective services agency, local law enforcement agency, or the Department of Financial Protection and Innovation requests that the mandated reporter extend the delay, in which case the delay shall expire no more than 25 business days after the date on which the mandated reporter first delayed the requested disbursement or transaction, unless sooner terminated by the adult protective services agency, local law enforcement agency, the Department of Financial Protection and Innovation, or an order of a court of competent jurisdiction.

(3) A court of competent jurisdiction may enter an order extending the delay of the requested disbursement or transaction or may order other protective relief based on the petition of the adult protective services agency, the mandated reporter who initiated the delay, or any other interested party.

(4) A mandated reporter of suspected financial abuse of an elder or dependent adult shall not be civilly liable for any temporary disbursement delay or transaction made in good faith and with reasonable care on an account pursuant to this subdivision.

(k) Notwithstanding any provision of law, a local adult protective services agency, a local law enforcement agency, and the Department of Financial Protection and Innovation may disclose to a mandated reporter of suspected financial abuse of an elder or dependent adult or their employer, upon request, the general status or final disposition of any investigation that arose from a report made by that mandated reporter of suspected financial abuse of an elder or dependent adult pursuant to this section.

§ 15634. Immunity from liability of persons authorized to report abuse; Attorney fees

(a) No care custodian, clergy member, health practitioner, mandated reporter of suspected financial abuse of an elder or dependent adult, or employee of an adult protective services agency or a local law enforcement agency who reports a known or suspected instance of abuse of an elder or dependent adult shall be civilly or criminally liable for any report required or authorized by this article. Any other person reporting a known or suspected instance of abuse of an elder or dependent adult shall not incur civil or criminal liability as a result of any report authorized by this article, unless it can be proven that a false report was made and the person knew that the report was false. No person required to make a report pursuant to this article, or any person taking photographs at his or her discretion, shall incur any civil or criminal liability for taking photographs of a suspected victim of abuse of an elder or dependent adult or causing photographs to be taken of such a suspected victim or for disseminating the photographs with the reports required by this article. However, this section shall not be construed to grant immunity from this liability with respect to any other use of the photographs.

(b) No care custodian, clergy member, health practitioner, mandated reporter of suspected financial abuse of an elder or dependent adult, or employee

of an adult protective services agency or a local law enforcement agency who, pursuant to a request from an adult protective services agency or a local law enforcement agency investigating a report of known or suspected abuse of an elder or dependent adult, provides the requesting agency with access to the victim of a known or suspected instance of abuse of an elder or dependent adult, shall incur civil or criminal liability as a result of providing that access.

(c) The Legislature finds that, even though it has provided immunity from liability to persons required to report abuse of an elder or dependent adult, immunity does not eliminate the possibility that actions may be brought against those persons based upon required reports of abuse. In order to further limit the financial hardship that those persons may incur as a result of fulfilling their legal responsibilities, it is necessary that they not be unfairly burdened by legal fees incurred in defending those actions. Therefore, a care custodian, clergy member, health practitioner, or an employee of an adult protective services agency or a local law enforcement agency may present to the Department of General Services a claim for reasonable attorneys' fees incurred in any action against that person on the basis of making a report required or authorized by this article if the court has dismissed the action upon a demurrer or motion for summary judgment made by that person, or if he or she prevails in the action. The Department of General Services shall allow that claim if the requirements of this subdivision are met, and the claim shall be paid from an appropriation to be made for that purpose. Attorneys' fees awarded pursuant to this section shall not exceed an hourly rate greater than the rate charged by the Attorney General at the time the award is made and shall not exceed an aggregate amount of fifty thousand dollars (\$50,000). This subdivision shall not apply if a public entity has provided for the defense of the action pursuant to Section 995 of the Government Code.

LOCAL AGENCY CROSS-REPORTING

HISTORY: Added Stats 1994 ch 594 § 20. Former Article 5, entitled "Investigation of Reports of Elder and Dependent Adult Abuse and Neglect," consisting of § 15640, was added Stats 1985 ch 1120 § 11 and repealed Stats 1994 ch 594 § 19.

§ 15640. Cross-report to law enforcement agency and licensing agency; Report of long-term care ombudsman

(a)(1) An adult protective services agency shall immediately, or as soon as practically possible, report by telephone to the law enforcement agency having jurisdiction over the case any known or suspected instance of criminal activity, and to any public agency given responsibility for investigation in that jurisdiction of cases of elder and dependent adult abuse, every known or suspected instance of abuse of an elder or dependent adult pursuant to Section 15630, 15630.1, or 15630.2. A county adult protective services agency shall also send a written report thereof within two working days of receiving the information concerning the incident to each agency to which it is required to make a telephone report under this subdivision. Before making any cross-report of allegations of financial abuse to law enforcement agencies, an adult protective services agency shall first determine whether there is reasonable suspicion of any criminal activity.

(2) If an adult protective services agency receives a report of abuse alleged to have occurred in a long-term care facility, that adult protective services agency shall immediately inform the person making the report that they are required to make the report to the long-term care ombudsman program or to a local law enforcement agency. The adult protective services agency shall not accept the report by telephone but shall forward any written report received to the long-term care ombudsman.

(b) If an adult protective services agency or local law enforcement agency or ombudsman program receiving a report of known or suspected elder or dependent adult abuse determines, pursuant to its investigation, that the abuse is being committed by a health practitioner licensed under Division 2 (commencing with Section 500) of the Business and Professions Code, or any related initiative act, or by a person purporting to be a licensee, the adult protective services agency or local law enforcement agency or ombudsman program shall immediately, or as soon as practically possible, report this information to the appropriate licensing agency. The licensing agency shall investigate the report in light of the potential for physical harm. The transmittal of information to the appropriate licensing agency shall not relieve the adult protective services agency or local law enforcement agency or ombudsman program of the responsibility to continue its own investigation as required under applicable provisions of law. The information reported pursuant to this subdivision shall remain confidential and shall not be disclosed.

Misc.

BOARD OF PSYCHOLOGY

(c) A local law enforcement agency shall immediately, or as soon as practically possible, report by telephone to the long-term care ombudsman program when the abuse is alleged to have occurred in a long-term care facility or to the county adult protective services agency when it is alleged to have occurred anywhere else, and to the agency given responsibility for the investigation of cases of elder and dependent adult abuse every known or suspected instance of abuse of an elder or dependent adult. A local law enforcement agency shall also send a written report thereof within two working days of receiving the information concerning the incident to any agency to which it is required to make a telephone report under this subdivision.

(d) A long-term care ombudsman coordinator may report the instance of abuse to the county adult protective services agency or to the local law enforcement agency for assistance in the investigation of the abuse if the victim gives their consent. A long-term care ombudsman program and the Licensing and Certification Division of the State Department of Public Health shall immediately report by telephone and in writing within two working days to the Division of Medi-Cal Fraud and Elder Abuse any instance of neglect occurring in a health care facility that has seriously harmed any patient or reasonably appears to present a serious threat to the health or physical well-being of a patient in that facility. If a victim or potential victim of the neglect withholds consent to being identified in that report, the report shall contain circumstantial information about the neglect, but shall not identify that victim or potential victim. The Division of Medi-Cal Fraud and Elder Abuse and the reporting agency shall maintain the confidentiality of the report until the report becomes a matter of public record.

(e) When a county adult protective services agency, a long-term care ombudsman program, or a local law enforcement agency receives a report of abuse, neglect, or abandonment of an elder or dependent adult alleged to have occurred in a long-term care facility, that county adult protective services agency, long-term care ombudsman coordinator, or local law enforcement agency shall report the incident to the licensing agency by telephone as soon as possible.

(f) County adult protective services agencies, long-term care ombudsman programs, and local law enforcement agencies shall report the results of their investigations of referrals or reports of abuse to the respective referring or reporting agencies.

INVESTIGATION OF REPORTS

HISTORY: Added Stats 1994 ch 594 § 21. Former Article 6, entitled "Criminal Record Reporting," consisting of § 15660, was added Stats 1993 ch 537 § 4 and renumbered Article 11 by Stats 1994 ch 594 § 26.

§ 15650. Designation of agency to receive reports; Inventory of service agencies to assist victims

(a) Investigation of reports of known or suspected instances of abuse in long-term care facilities shall be the responsibility of the division, the local law enforcement agency, and the long-term care ombudsman program.

(b) Investigations of known or suspected instances of abuse outside of long-term care facilities shall be the responsibility of the county adult protective services agency, unless another public agency is given responsibility for investigation in that jurisdiction, and the local law enforcement agency.

(c) The investigative responsibilities set forth in this section are in addition to, and not in derogation of or substitution for, the investigative and regulatory responsibilities of licensing agencies, such as the State Department of Social Services Community Care Licensing Division and the State Department of Public Health Licensing and Certification Division and their authorized representatives.

(d) Other public agencies involved in the investigation of abuse or advocacy of respective client populations, or both, include, but shall not be limited to, the State Department of State Hospitals and the State Department of Developmental Services. Other public agencies shall conduct or assist in, or both, the investigation of reports of abuse of elder and dependent adults within their jurisdiction in conjunction with county adult protective services, local ombudsman programs, and local law enforcement agencies.

(e) Each county adult protective services agency shall maintain an inventory of all public and private service agencies available to assist victims of abuse, as defined by Section 15610.07. This inventory shall be used to refer victims in the event that the county adult protective services agency cannot resolve the immediate needs of the victim, and to serve the victim on a long-term, followup basis. The intent of this section is to acknowledge that limited funds are available to resolve all suspected cases of abuse reported to a county adult protective services agency.

(f) Each local ombudsman program shall maintain an inventory of all public and private agencies available to assist long-term care residents who are victims of abuse, as defined by Section 15610.07. This inventory shall be used to refer cases of abuse in the event that another agency has jurisdiction over the resident, the abuse is verified and further investigation is needed by a law enforcement or licensing agency, or the program does not have sufficient resources to provide immediate assistance. The intent of this section is to

acknowledge that ombudsman responsibility in abuse cases is to receive reports, determine the validity of reports, refer verified abuse cases to appropriate agencies for further action as necessary, and follow up to complete the required report information. Other ombudsman services shall be provided to the resident, as appropriate.

(g) The responsibilities and jurisdiction granted by this section to the entities described in subdivisions (a) to (d), inclusive, are subject to the responsibility and jurisdiction granted pursuant to Section 368.5 of the Penal Code. The legislature finds and declares that this subdivision is declaratory of existing law.

A referral may be made before or after an individual begins to receive adult protective services, and a referral does not preclude the individual from receiving adult protective services or Home Safe program services.

DISCIPLINARY GUIDELINES AND UNIFORM STANDARDS RELATED TO SUBSTANCE ABUSING LICENSEES

Article 7. Standards Related to Denial, Discipline, and Reinstatement of Licenses

§ 1395.2. Disciplinary Guidelines and Uniform Standards Related to Substance Abusing Licensees.

(a) In reaching a decision on a disciplinary action under the administrative adjudication provisions of the Administrative Procedure Act (Government Code Section 11400 et seq.), the Board of Psychology shall consider and apply the “Disciplinary Guidelines and Uniform Standards Related to Substance Abusing Licensees (4/15),” which is hereby incorporated by reference.

(b) If the conduct found to be grounds for discipline involves drugs and/or alcohol, the licensee shall be presumed to be a substance-abusing licensee for purposes of section 315 of the Code. If the licensee does not rebut that presumption, in addition to any and all other relevant terms and conditions contained in the Disciplinary Guidelines, the terms and conditions that incorporate the Uniform Standards Related to Substance Abusing Licensees shall apply as written and be used in the order placing the license on probation.

(c) Deviation from the Disciplinary Guidelines, including the standard terms of probation, is appropriate where the Board of Psychology in its sole discretion determines that the facts of the particular case warrant such a deviation; for example: the presence of mitigating or aggravating factors; the age of the case; or evidentiary issues.

BOARD OF PSYCHOLOGY

I. INTRODUCTION

The Board of Psychology of the California Department of Consumer Affairs (hereinafter “the Board”) is a consumer protection agency with the priority of protecting consumers of psychological services from unsafe, incompetent, or negligent practitioners in exercising its licensing, regulatory, and disciplinary functions. In keeping with its mandate to protect this particularly vulnerable population, the Board has adopted the following recommended guidelines for disciplinary orders and conditions of probation for violations of the Psychology Licensing Law. This document, designed for use by administrative law judges, attorneys, psychologists, registered psychologists, psychological assistants, others involved in the disciplinary process, and ultimately the Board, may be revised from time to time.

For purposes of this document, in addition to licensure as a psychologist, the term “license” includes a psychological assistant registration and registered psychologist registration. The terms and conditions of probation are divided into two general categories:

- (1) Standard Conditions are those conditions of probation which will generally appear in all cases involving probation as a standard term and condition; and
- (2) Optional Conditions are those conditions that address the specific circumstances of the case and require discretion to be exercised depending on the nature and circumstances of a particular case.

The Board of Psychology’s Uniform Standards Related to Substance Abusing Licensees, which are derived from the Department of Consumer Affairs’ Substance Abuse Coordination Committee’s “Uniform Standards Regarding Substance-Abusing Healing Arts Licensees (4/11)” pursuant to section 315 of the Code, describe those terms or conditions that shall be applied to a substance abusing licensee, and are incorporated into the terms and conditions of probation.

The Board recognizes that an individual case may necessitate a departure from these guidelines for disciplinary orders. However, in such a case, the mitigating or aggravating circumstances must be detailed in the “Finding of Fact,” which is in every Proposed Decision, so that the circumstances can be better understood and evaluated by the Board before final action is taken.

If at the time of hearing, the Administrative Law Judge finds that the respondent, for any reason, is not capable of safe practice, the Board expects outright revocation or denial of the license. This is particularly true in any case of patient sexual abuse. In less egregious cases, a stayed revocation with probation pursuant to the attached Penalty Guidelines would be appropriate.

DISCIPLINARY GUIDELINES

II. DISCIPLINARY GUIDELINES

A. GENERAL CONSIDERATIONS

Factors to be considered - In determining whether revocation, suspension, or probation is to be imposed in a given case, factors such as the following should be considered:

1. Nature and severity of the act(s), offense(s), or crime(s) under consideration.
2. Actual or potential harm to any consumer, client or the public.
3. Prior record of discipline or citations.
4. Number and/or variety of current violations.
5. Mitigation and aggravation evidence.
6. Rehabilitation evidence.
7. In the case of a criminal conviction, compliance with terms of sentence and/or court-ordered probation.
8. Overall criminal record.
9. Time passed since the act(s) or offense(s) occurred.
10. Whether or not the respondent cooperated with the Board's investigation, other law enforcement or regulatory agencies, and/or the injured parties.
11. Recognition by respondent of his or her wrongdoing and demonstration of corrective action to prevent recurrence.

Pursuant to section 2960.1 of the Code (set out below in the Penalty Guidelines), any proposed decision or decision that contains any finding of fact that the licensee or registrant engaged in any act of sexual contact, when that act is with a patient, or with a former patient within two years following termination of therapy, shall contain an order of revocation. The revocation shall not be stayed by the Administrative Law Judge.

Pursuant to section 2964.3 of the Code, any person required to register as a sex offender pursuant to Section 290 of the Penal Code is not eligible for licensure or registration by the Board.

Except where an order is required by statute, deviation from the Disciplinary Guidelines, including the standard terms of probation, is appropriate where the Board determines that the facts of the particular case warrant such a deviation.

B. PENALTY GUIDELINES FOR DISCIPLINARY ACTIONS

The general bases for discipline are listed by statute number in the Business & Professions Code. An accusation, statement of issues, or other charging document may also allege violations of other related statutes or regulations. The bases are followed by the Board-determined penalty, including the names and numbers for the optional terms and conditions. The standard terms of probation as stated shall be included in all decisions and orders. **Except where there is a finding that respondent is a substance-abusing licensee**, the Board recognizes that the penalties and conditions of probation listed are merely guidelines and that individual cases will necessitate variations that take into account unique circumstances.

BOARD OF PSYCHOLOGY

If there are deviations or omissions from the guidelines in formulating a Proposed Decision, the Board requires that the Administrative Law Judge hearing the case include an explanation of the deviations or omissions in the Proposed Decision so that the circumstances can be better understood by the Board during its review and consideration of the Proposed Decision for final action.

III. TERMS AND CONDITIONS OF PROBATION

Terms and conditions of probation are divided into two categories. The first category consists of **optional terms and conditions** that may be appropriate as demonstrated in the Penalty Guidelines depending on the nature and circumstances of each particular case. The second category consists of the **standard terms and conditions**, which must appear in all Proposed Decisions and Stipulated Settlements.

BOARD OF PSYCHOLOGY

To enhance the clarity of a Proposed Decision or Stipulation, the Board requests that all optional conditions (1-13) that are being imposed be listed first in sequence followed immediately by all of the standard terms and conditions, which include cost recovery (15-31).

A. OPTIONAL TERMS AND CONDITIONS

Listed below are optional conditions of probation that the Board would expect to be included in any Proposed Decision or Stipulation as appropriate.

1. Actual Suspension

As part of probation, respondent is suspended from the practice of psychology for _____ days beginning with the effective date of this Decision. During the suspension, any probation period is tolled and will not commence again until the suspension is completed.

RATIONALE: A suspension longer than 6 months is not effective, and a violation or violations warranting a longer suspension should result in revocation, not stayed.

2. Psychological Evaluation

Within ninety (90) days of the effective date of this Decision and on a periodic basis thereafter as may be required by the Board or its designee, respondent shall undergo a psychological evaluation (and psychological testing, if deemed necessary) by a Board-appointed California-licensed psychologist. Respondent shall sign a release that authorizes the evaluator to furnish the Board a current DSM V diagnosis and a written report regarding the respondent's judgment and/or ability to function independently as a psychologist with safety to the public, and whatever other information the Board deems relevant to the case. The completed evaluation is the sole property of the Board. The evaluation should not be disclosed to anyone not authorized by the Board or by court order.

If the Board concludes from the results of the evaluation that respondent is unable to practice independently and safely, upon written notice from the Board, respondent shall immediately cease accepting new patients and, in accordance with professional standards, shall appropriately refer/terminate existing patients within thirty (30) days and shall not resume practice until a Board-appointed evaluator determines that respondent is safe to practice. The term of probation shall be extended by this period of time that he or she was ordered to cease practice.

If not otherwise ordered herein, if ongoing psychotherapy is recommended in the psychological evaluation, the Board will notify respondent in writing to submit to such therapy and to select a psychotherapist for approval by the Board or its designee within thirty (30) days of such notification. The therapist shall (1) be a California-licensed psychologist with a clear and current license; (2) have no previous business, professional, personal or other relationship with respondent; (3) not be the same person as respondent's practice or billing monitor. Frequency of psychotherapy shall be determined upon recommendation of the treating psychotherapist with approval by the Board or its designee.

DISCIPLINARY GUIDELINES

Respondent shall continue psychotherapy until released by the approved psychologist and approved by the Board or its designee. The Board or its designee may order a re-evaluation upon receipt of the therapist's recommendation.

Respondent shall execute a release authorizing the therapist to provide to the Board any information the Board or its designee deems appropriate, including quarterly reports of respondent's therapeutic progress. Respondent shall furnish a copy of this Decision to the therapist. If the therapist determines that the respondent cannot continue to independently render psychological services, with safety to the public, he/she shall notify the Board immediately.

Respondent shall pay all costs associated with the psychological evaluation and ongoing psychotherapy. Failure to pay costs will be considered a violation of the probation order.

Option of Evaluation as a Condition Precedent:

In some cases, the psychological evaluation may be imposed as either a condition precedent to the continued practice of psychology, or to the issuance or reinstatement of a license, so that the respondent or petitioner is not entitled to begin or continue practice until found to be safe to do so. In such cases, the following language shall be used as the first sentence of the first paragraph of this term:

As a condition precedent to the [continued practice of psychology][issuance of a license] [reinstatement of a license], within ninety (90) days of the effective date of this Decision, and on a periodic basis thereafter as may be required by the Board or its designee, Respondent shall undergo a psychological evaluation (and psychological testing, if deemed necessary) by a Board-appointed California-licensed psychologist. The term of probation shall be extended by the period of time during which respondent is not entitled to practice.

In addition, the following language shall also be used as the first sentence of the second paragraph of this term:

If the Board concludes from the results of the evaluation that [respondent][petitioner] is unable to practice independently and safely, upon written notice from the Board [respondent shall, in accordance with professional standards, appropriately refer/terminate existing patients within thirty (30) days and shall not resume practice until a Board-appointed evaluator determines that respondent is safe to practice][respondent or petitioner shall not be issued or have reinstated a license until a Board-appointed evaluator determines that respondent or petitioner is safe to practice].

RATIONALE: Psychological evaluations shall be utilized when an offense calls into question the judgment and/or emotional and/or mental condition of the respondent or where there has been a history of abuse or dependency of alcohol or controlled substances. When appropriate, respondent shall be barred from rendering psychological services under the terms of probation until he or she has undergone an

BOARD OF PSYCHOLOGY

evaluation, the evaluator has recommended resumption of practice, and the Board has accepted and approved the evaluation.

3. Physical Examination

Within ninety (90) days of the effective date of this Decision, respondent shall undergo a physical examination by a physician and surgeon (physician) licensed in California and approved by the Board. Respondent shall sign a release authorizing the physician to furnish the Board a report that shall provide an assessment of respondent's physical condition and capability to safely provide psychological services to the public. If the evaluating physician determines that respondent's physical condition prevents safe practice, or that he or she can only practice with restrictions, the physician shall notify the Board, in writing, within five (5) working days.

The Board shall notify respondent in writing of the physician's determination of unfitness to practice, and shall order the respondent to cease practice or place restrictions on respondent's practice. Respondent shall comply with any order to cease practice or restriction of his or her practice, and shall immediately cease accepting new patients and, in accordance with professional standards, shall appropriately refer/terminate existing patients within thirty (30) days. Respondent shall not resume practice until a Board-appointed evaluator determines that respondent is safe to practice, and the Board is satisfied of respondent's fitness to practice safely and has so notified respondent in writing. The term of probation shall be extended by the period of time during which respondent is ordered to cease practice. If the evaluating physician determines it to be necessary, a recommended treatment program will be instituted and followed by the respondent with the physician providing written progress reports to the Board on a quarterly basis or as otherwise determined by the Board or its designee.

It shall be the respondent's responsibility to assure that the required quarterly progress reports are filed by the treating physician in a timely manner. Respondent shall pay all costs of such examination(s). Failure to pay these costs shall be considered a violation of probation.

RATIONALE: This condition permits the Board to require the probationer to obtain appropriate treatment for physical problems/disabilities that could affect safe practice of psychology. The physical examination can also be conducted to ensure that there is no physical evidence of alcohol/drug abuse.

4. Practice Monitor/Billing Monitor/Worksite Monitor

Within ninety (90) days of the effective date of this Decision, respondent shall submit to the Board or its designee for prior approval, the name and qualifications of a psychologist who has agreed to serve as a [practice monitor][billing monitor][worksite monitor]. The [practice monitor][billing monitor] shall (1) be a California-licensed psychologist with a clear and current license; (2) have no prior business, professional, personal or other relationship with respondent; and (3) not be the same person as respondent's therapist. The monitor's

DISCIPLINARY GUIDELINES

education and experience shall be in the same field of practice as that of the respondent. The [practice monitor][billing monitor] may also serve as a worksite monitor, **if ordered for a substance-abusing licensee**, as long as he or she also meets the requirements for a worksite monitor.

Once approved, the monitor(s) shall submit to the Board or its designee a plan by which respondent's practice shall be monitored. Monitoring shall consist of a least one hour per week of individual face to face meetings and shall continue during the entire probationary period unless modified or terminated by the Board or its designee. The respondent shall provide the [practice][billing] monitor with a copy of this Decision and access to respondent's fiscal and/or patient records. Respondent shall obtain any necessary patient releases to enable the [practice][billing] monitor to review records and to make direct contact with patients. Respondent shall execute a release authorizing the monitor to divulge any information that the Board may request. It shall be respondent's responsibility to assure that the monitor submits written reports to the Board or its designee on a quarterly basis verifying that monitoring has taken place and providing an evaluation of respondent's performance.

Respondent shall notify all current and potential patients of any term or condition of probation that will affect their therapy or the confidentiality of their records (such as this condition, which requires a [practice monitor][billing monitor]). Such notifications shall be signed by each patient prior to continuing or commencing treatment.

Add the language of the next 3 paragraphs regarding reporting by a worksite monitor if one is ordered for a substance-abusing licensee:

The worksite monitor shall not have a current or former financial, personal, or familial relationship with the licensee, or other relationship that could reasonably be expected to compromise the ability of the monitor to render impartial and unbiased reports to the Board. All other requirements for a worksite monitor shall meet the requirements of a worksite monitor under Uniform Standards #7. Reporting by the worksite monitor to the Board shall be as follows:

Any suspected substance abuse must be orally reported to the Board and the licensee's employer within one (1) business day of occurrence. If the occurrence is not during the Board's normal business hours, the oral report must be within one (1) hour of the next business day. A written report shall be submitted to the Board within forty-eight (48) hours of occurrence.

The worksite monitor shall complete and submit a written report monthly or as directed by the Board. The report shall include: the licensee's name; license number; worksite monitor's name and signature; worksite monitor's license number; worksite location(s); dates licensee had face-to-face contact with monitor; worksite staff interviewed as applicable; attendance report; any change in behavior and/or personal habits; any indicators that can lead to suspected substance abuse.

BOARD OF PSYCHOLOGY

The licensee shall complete the required consent forms and sign an agreement with the worksite monitor and the Board to allow the Board to communicate with the worksite monitor.

If the monitor(s) quit(s) or is otherwise no longer available, respondent shall notify the Board within ten (10) days and get approval from the Board for a new monitor within thirty (30) days. If no new monitor is approved within thirty (30) days, respondent shall not practice until a new monitor has been approved by the Board or its designee. The term of probation shall be extended by the period of time during which respondent is ordered to cease practice. Respondent shall pay all costs associated with this monitoring requirement. Failure to pay these costs shall be considered a violation of probation.

RATIONALE and APPLICATION OF UNIFORM STANDARD #7: Monitoring shall be utilized when respondent's ability to function independently is in doubt or when fiscal improprieties have occurred, as a result of a deficiency in knowledge or skills, or as a result of questionable judgment. A worksite monitor may be ordered where the Uniform Standards Related to a Substance-Abusing Licensee apply, if necessary for the protection of the public.

5. Restriction of Patient Population

Respondent's practice shall be restricted to exclude patients who are _____. Within thirty (30) days from the effective date of the decision, respondent shall submit to the Board or its designee, for prior approval, a plan to implement this restriction. Respondent shall submit proof satisfactory to the Board or its designee of compliance with this term of probation.

RATIONALE: In cases wherein some factor of the patient population at large (e.g. age, gender, practice setting) may put a patient at risk if in therapy with the respondent, language appropriate to the case may be developed to restrict such a population. The language would vary greatly by case.

6. Psychotherapy

Within ninety (90) days of the effective date of this Decision, a therapist shall be selected by the respondent for approval by the Board. The therapist shall (1) be a California-licensed psychologist with a clear and current license; (2) have no previous business, professional, personal, or other relationship with respondent; and (3) not be the same person as respondent's monitor. Respondent shall furnish a copy of this Decision to the therapist. Psychotherapy shall, at a minimum, consist of one hour per week over a period of fifty-two (52) consecutive weeks after which it may continue or terminate upon the written recommendation of the therapist with written approval by the Board or its designee. The Board or its designee may order a psychological evaluation upon receipt of the therapist's recommendation.

DISCIPLINARY GUIDELINES

Respondent shall execute a release authorizing the therapist to provide to the Board or its designee any information the Board deems appropriate, including quarterly reports of respondent's therapeutic progress. It shall be respondent's responsibility to assure that the required quarterly reports are filed by the therapist in a timely manner. If the therapist notifies the Board that the therapist believes the respondent cannot continue to safely render psychological services, upon notification from the Board respondent shall immediately cease accepting new patients and, in accordance with professional standards, shall appropriately refer/terminate existing patients within thirty (30) days and shall not resume practice until a Board-appointed evaluator determines that respondent is again safe to practice. The term of probation shall be extended by the period of time during which respondent is ordered to cease practice.

If, prior to the termination of probation, respondent is found not to be mentally fit to resume the practice of psychology without restrictions, the Board shall retain continuing jurisdiction over the respondent's license and the term of probation shall be extended until the Board or its designee determines that the respondent is mentally fit to resume the practice of psychology without restrictions.

Cost of psychotherapy is to be paid by the respondent.

RATIONALE: The need for psychotherapy may be determined pursuant to a psychological evaluation or as evident from the facts of the case. The frequency of psychotherapy shall be related to the offense involved and the extent to which the offense calls into question the judgment, motivation, and emotional and/or mental condition of the respondent.

7. Examination(s)

Examination for Professional Practice in Psychology (EPPP) or California Psychology Law and Ethics Examination (CPLÉE) Term MUST INCLUDE either Option 1 or Option 2:

Option 1 (Condition Subsequent)

Within ninety (90) days of the effective date of the decision, respondent shall take and pass the [EPPP][CPLÉE]. If respondent fails to take or fails such examination, the Board shall order respondent to cease practice and upon such order respondent shall immediately cease practice, refrain from accepting new patients and, in accordance with professional standards, shall appropriately refer/terminate existing patients within thirty (30) days and shall not resume practice until the re-examination has been successfully passed, as evidenced by written notice to respondent from the Board or its designee. The term of probation shall be extended by the period of time during which respondent's practice was ordered ceased. It is respondent's responsibility to contact the Board in writing to make arrangements for such examination. Respondent shall pay the established examination fee(s). Reexamination after a failure shall be consistent with 16 C.C.R. section 1388(f), and any applicable sections of the Business & Professions Code.

BOARD OF PSYCHOLOGY

Option 2 (Condition Precedent to either continued practice, or to reinstatement of a license)

Respondent [is ordered to cease the practice of psychology][shall not be reinstated] until respondent has taken and passed the [EPPP][CPLEE]. The term of probation shall be extended by the period of time during which respondent is ordered to cease practice. It is respondent's responsibility to contact the Board in writing to make arrangements for such examination(s). Respondent shall pay the established examination fee(s). Re-examination after a failure must be consistent with 16 C.C.R. section 1388(f), and any applicable sections of the Business & Professions Code.

RATIONALE: In cases involving evidence of serious deficiencies in the body of knowledge required to be minimally competent to practice independently, it may be appropriate to require the respondent to take and pass the EPPP, the national examination for psychologists, because the Board no longer administers an examination that tests knowledge of the field, during the course of the probation period. In some instances, it may be appropriate to order that practice be ceased until the examination has been taken and passed (condition precedent). In cases involving deficiencies in knowledge of laws and ethics, the CPLEE may be ordered. Either one or both examinations may be appropriate, depending on the nature of the violation(s).

8. Restitution

Within ninety (90) days of the effective date of this Decision, respondent shall provide proof to the Board or its designee of restitution in the amount of \$_____ paid to _____. Failure to pay restitution shall be considered a violation of probation. Restitution is to be paid regardless of the tolling of probation.

RATIONALE: In offenses involving economic exploitation, restitution is a necessary term of probation. For example, restitution would be a standard term in any case involving Medi-Cal or other insurance fraud. The amount of restitution shall be at a minimum the amount of money that was fraudulently obtained by the licensee. Evidence relating to the amount of restitution would have to be introduced at the Administrative hearing.

9. Clinical Diagnostic Evaluation

Within thirty (30) days of the effective date of the Decision and at any time upon order of the Board, respondent shall undergo a clinical diagnostic evaluation. Respondent shall provide the evaluator with a copy of the Board's Decision prior to the clinical diagnostic evaluation being performed.

The evaluator shall be a licensed practitioner who holds a valid, unrestricted license to conduct clinical diagnostic evaluations, and has three (3) years' experience in providing evaluations of health care professionals with substance abuse disorders. The evaluator shall not have or have ever had a financial, personal, business or other relationship with the licensee. Respondent shall cause the evaluator to submit to the Board a written clinical

DISCIPLINARY GUIDELINES

diagnostic evaluation report within ten (10) days from the date the evaluation was completed, unless an extension, not to exceed thirty (30) days, is granted to the evaluator by the Board.

Respondent shall pay all costs associated with the clinical diagnostic evaluation. Failure to pay costs will be considered a violation of the probation order.

The following language for a cease practice order where the evaluation is ordered under the Uniform Standards Related to Substance Abusing Licensees is mandatory, and discretionary in other cases where it may be relevant:

Respondent is ordered to cease any practice of psychology, beginning on the effective date of the Decision, pending the results of the clinical diagnostic evaluation. During this time, Respondent shall submit to random drug testing at least two (2) times per week. At any other time that respondent is ordered to undergo a clinical diagnostic evaluation, he or she shall be ordered to cease any practice of psychology for minimum of thirty (30) days pending the results of a clinical diagnostic evaluation and shall, during such time, submit to drug testing at least two (2) times per week.

Upon any order to cease practice, respondent shall not practice psychology until the Board determines that he or she is able to safely practice either full-time or part-time and has had at least thirty (30) days of negative drug test results. The term of probation shall be extended by the period of time during which respondent is ordered to cease practice. Respondent shall comply with any terms or conditions made by the Board as a result of the clinical diagnostic evaluation.

RATIONALE and APPLICATION OF UNIFORM STANDARD #s 1, 2 and 3: This condition is to be considered in cases where the grounds for discipline involve drugs and/or alcohol, or where the Uniform Standards Related to a Substance-Abusing Licensee apply. The cease practice order pending the evaluation is mandatory where the evaluation is ordered for a substance-abusing licensee, and discretionary in other cases where ordered.

10. Alcohol and/or Drug Abuse Treatment Program

Within thirty (30) days from the effective date of the Decision, respondent shall enter an inpatient or outpatient alcohol or other drug abuse recovery program or an equivalent program as approved by the Board or its designee. Components of the treatment program shall be relevant to the violation and to the respondent's current status in recovery or rehabilitation. Respondent shall provide the Board or its designee with proof that the approved program was successfully completed. Terminating the program without permission or being expelled for cause shall constitute a violation of probation by respondent. If respondent so terminates or is expelled from the program, respondent shall be ordered by the Board to immediately cease any practice of psychology, and may not practice unless and until notified by the Board. The term of probation shall be extended by the period of time during which respondent is ordered to cease practice.

BOARD OF PSYCHOLOGY

Respondent shall pay all costs associated with the program. Failure to pay costs will be considered a violation of the probation order.

However, if respondent has already attended such an inpatient or outpatient alcohol or other drug abuse recovery program, as described above, commencing with the current period of sobriety, respondent shall provide the Board or its designee with proof that the program was successfully completed and this shall suffice to comply with this term of probation.

RATIONALE and APPLICATION OF UNIFORM STANDARD # 6: This condition is to be considered in cases where the grounds for discipline involve drugs and/or alcohol, or where the Uniform Standards Related to a Substance-Abusing Licensee apply.

11. Ongoing Support Group Program

Within thirty (30) days of the effective date of the Decision, respondent shall begin and continue attendance at a support/recovery group (e.g., Twelve Step meetings or the equivalent, or a facilitated group with a psychologist trained in alcohol and drug abuse treatment) as ordered by the Board or its designee.

When determining the type and frequency of required support group meeting attendance, the Board shall give consideration to the following:

- the licensee's history;
- the documented length of sobriety/time that has elapsed since substance use;
- the recommendation of the clinical evaluator;
- the scope and pattern of use;
- the licensee's treatment history; and,
- the nature, duration, and severity of substance abuse.

Verified documentation of attendance shall be submitted by respondent with each quarterly report. Respondent shall continue attendance in such a group for the duration of probation unless notified by the Board that attendance is no longer required.

If a facilitated group support meeting is ordered for a substance-abusing licensee, add the following language regarding the facilitator:

The group facilitator shall meet the following qualifications and requirements:

- a. The meeting facilitator must have a minimum of three (3) years experience in the treatment and rehabilitation of substance abuse, and shall be licensed or certified by the state or other nationally certified organizations.
- b. The meeting facilitator must not have a financial relationship, personal relationship, or business relationship with the licensee in the last five (5) years.
- c. The meeting facilitator shall provide to the board a signed document showing the licensee's name, facilitator's qualifications, the group name, the date and location of

DISCIPLINARY GUIDELINES

the meeting, the licensee's attendance, and the licensee's level of participation and progress.

- d. The facilitator shall report any unexcused absence within twenty-four (24) hours.

RATIONALE and APPLICATION OF UNIFORM STANDARD # 5: Alcohol and/or other drug abuse treatment shall be required in addition to other terms of probation in cases where the use of alcohol or other drugs by respondent has impaired respondent's ability to safely provide psychological services. This condition must be accompanied by condition #12. This term is to be considered in cases where the grounds for discipline involve drugs and/or alcohol, or where the Uniform Standards Related to a Substance-Abusing Licensee apply. If the Uniform Standards do not apply, where relevant, non-facilitated support group attendance, such as Twelve Step meetings, may be ordered instead of a facilitated group support meeting, or in addition to it.

12. Abstain from Drugs and Alcohol and Submit to Tests and Samples

Respondent shall abstain completely from the personal use or possession of controlled substances as defined in the California Uniform Controlled Substances Act, and dangerous drugs as defined by Section 4022 of the Business and Professions Code, or any drugs requiring a prescription unless respondent provides the Board or its designee with documentation from the prescribing health professional that the prescription was legitimately issued and is a necessary part of the treatment of respondent.

Respondent shall abstain completely from the intake of alcohol.

Respondent shall undergo random and directed biological fluid or specimen testing as determined by the Board or its designee. Respondent shall be subject to [a minimum of fifty-two (52)] random tests [per year within the first year of probation, and a minimum of thirty-six (36) random tests per year thereafter,] for the duration of the probationary term.

Testing Frequency Schedule:

Level	Segments of Probation	Minimum Range of Number of Random Tests
I	Year 1	52-104 per year
II	Year 2+	36-104 per year

After 5 years, administration of one (1) time per month if there have been no positive drug tests in the previous five (5) consecutive years of probation.

Nothing precludes the Board from increasing the number of random tests for any reason.

Any confirmed positive finding will be considered a violation of probation. Respondent shall pay all costs associated with such testing. If respondent tests positive for a banned substance, respondent shall be ordered by the Board to immediately cease any practice of psychology, and may not practice unless and until notified by the Board. Respondent shall

BOARD OF PSYCHOLOGY

make daily contact as directed by the Board to determine if he or she must submit to alcohol and/or drug testing. Respondent shall submit to his or her alcohol and/or drug test on the same day that he or she is notified that a test is required. All alternative testing sites due to vacation or travel outside of California must be approved by the Board prior to the vacation or travel.

Drugs - Exception for Personal Illness

Orders forbidding respondent from personal use or possession of controlled substances or dangerous drugs do not apply to medications lawfully prescribed to respondent for a bona fide illness or condition by a licensed health care professional. Respondent shall provide the Board or its designee with written documentation from the treating licensed health care professional who prescribed medication(s). The documentation shall identify the medication, dosage, number of refills, if any; the date the medication was prescribed, the respondent's prognosis, the date the medication will no longer be required, and the effect on the recovery plan, if appropriate.

RATIONALE and APPLICATION OF UNIFORM STANDARD #s 4 and 8: This condition provides documentation that the probationer is substance or chemical free. It also provides the Board with a mechanism through which to require additional laboratory analyses for the presence of narcotics, alcohol and/or dangerous drugs when the probationer appears to be in violation of the terms of probation or appears to be under the influence of mood altering substances. The Board will consider the following factors in making an exception to the testing frequency:

PREVIOUS TESTING/SOBRIETY: In cases where the Board has evidence that a licensee has participated in a treatment or monitoring program requiring random testing prior to being subject to testing by the Board, the Board may give consideration to that testing in altering the testing frequency schedule so that it is equivalent to this standard.

VIOLATION(S) OUTSIDE OF EMPLOYMENT: An individual whose license is placed on probation for a single conviction or incident or two convictions or incidents, spanning greater than seven years from each other, where those violations did not occur at work or while on the licensee's way to work, where alcohol or drugs were a contributing factor, may bypass level I and participate in level II of the testing frequency schedule.

SUBSTANCE USE DISORDER NOT DIAGNOSED: In cases where no current substance use disorder diagnosis is made, a lesser period of monitoring and toxicology screening may be adopted by the Board, but not to be less than 24 times per year.

The term is mandatory in cases where the Uniform Standards Related to a Substance-Abusing Licensee apply. Where the Uniform Standards do not apply, where relevant,

DISCIPLINARY GUIDELINES

the respondent should be ordered to submit to random and directed testing, but need not be ordered to submit to the minimum of random tests.

13. Educational Review

Respondent shall submit to an educational review concerning the circumstances that resulted in this administrative action. The educational review shall be conducted by a board-appointed expert familiar with the case. Educational reviews are informational only and intended to benefit respondent's practice. Respondent shall pay all costs associated with this educational review.

RATIONALE: In cases involving evidence of deficiencies in the body of knowledge required to be minimally competent to practice independently, it may be appropriate to require the respondent to submit to an educational review during the course of the probation period.

B. STANDARD TERMS AND CONDITIONS (To be included in ALL Proposed Decisions and Stipulations)

14. Notification to Employer

When currently employed, applying for employment or negotiating a contract, or contracted to provide psychological services, respondent shall provide to each employers, supervisor, or contractor, or prospective employer or contractor where respondent is providing or would provide psychological services, a copy of this Decision and the Accusation or Statement of Issues before accepting or continuing employment. Notification to the respondent's current employer shall occur no later than the effective date of the Decision. Respondent shall submit, upon request by the Board or its designee, satisfactory evidence of compliance with this term of probation.

The respondent shall provide to the Board the names, physical addresses, mailing addresses, and telephone numbers of all employers and supervisors, or contractors, and shall inform the Board in writing of the facility or facilities at which the person is providing psychological services, the name(s) of the person(s) to whom the Board's decision was provided.

Respondent shall pay to the Board its costs of investigation and enforcement in the amount of \$ _____ within the first year of probation. Such costs shall be payable to the Board of Psychology and are to be paid regardless of whether the probation is tolled. Failure to pay such costs shall be considered a violation of probation.

Any and all requests for a payment plan shall be submitted in writing by respondent to the Board. However, full payment of any and all costs required by this condition must be received by the Board no later than six (6) months prior to the scheduled termination of probation.

In the event respondent should leave California to reside or to practice outside the State for any reason, respondent shall notify the Board or its designee in writing within ten (10) days of the dates of departure and return to California. All provisions of probation other than the quarterly report requirements, restitution, cost recovery, and coursework requirements, shall be held in abeyance until respondent resumes practice in California. 27. Future Registration or Licensure

If respondent is registered as a psychological assistant or registered psychologist and subsequently obtains other psychological assistant or registered psychologist registrations or becomes licensed as a psychologist during the course of this probationary order, this Decision shall remain in full force and effect until the probationary period is successfully terminated. 28. Request for Modification

“Request” as used in this condition is a request made to the Board’s designee, and not under the Administrative Procedure Act.

29. Violation of Probation

If respondent violates probation in any respect, the Board may, after giving respondent notice and the opportunity to be heard, revoke probation and carry out the disciplinary order that was stayed. If an Accusation or Petition to Revoke Probation is filed against respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the term of probation shall be extended until the matter is final. No Petition for Modification or Termination of Probation shall be considered while there is an Accusation or Petition to Revoke Probation pending against respondent.

Respondent will no longer be subject to the terms and conditions of probation and the surrender of respondent's license shall be deemed disciplinary action. BOARD OF PSYCHOLOGY

- d. Description of all evidence of mitigation, rehabilitation and aggravation presented at the hearing.

When a probation order is imposed, the Board requests that the order first list any combination of the Optional Terms and Conditions (1-13) as they may pertain to the particular case followed by **all** of the Standard Terms and Conditions (14-31).

If the respondent fails to appear for his/her scheduled hearing or does not submit a Notice of Defense form, **such inaction shall result in a default decision to revoke licensure or deny application.**

B. Recommended Language for Issuance and Placement of a License on Probation, and Reinstatement of License

Disciplining of a License/Registration:

"IT IS HEREBY ORDERED that the [registration][license] issued to respondent is REVOKED. However, the order of revocation is STAYED and the [registration][license] is placed on probation for [#] years subject to the following terms and conditions":

DISCIPLINARY GUIDELINES

Applicant Placed on Probation:

“IT IS HEREBY ORDERED that the application for [licensure][registration] is GRANTED, and upon successful completion of all [licensing][registration] requirements a [license][registration] shall be issued, provided that all [licensing][registration] requirements are completed within two (2) years of the effective date of this decision. If a [license][registration] is not issued within two (2) years of the effective date of this decision, the application is ordered denied, and a new application will be required. Upon issuance, however, said [license][registration] shall immediately be REVOKED. However, the order of revocation shall be STAYED, and the [license][registration] is placed on probation for [#] years subject to the following terms and conditions”:

Reinstatement of a License:

“The petition of [name], [Ph.D.][PsyD.], for reinstatement of licensure is hereby GRANTED. Psychologist license number [#] shall be reinstated provided that all licensing requirements are completed within two (2) years of the effective date of this decision. If the license is not reinstated within two (2) years of the effective date of this decision, the petition is ordered denied, and a new petition for reinstatement will be required. Upon reinstatement, however, the license shall be immediately revoked. However, the order of revocation shall be STAYED, and petitioner’s license shall be placed on probation for a period of [#] years subject to the terms and following conditions:”

V. REHABILITATION CRITERIA FOR REINSTATEMENT/PENALTY RELIEF HEARINGS

The primary concerns of the Board at reinstatement or penalty relief hearings are (1) the Rehabilitation Criteria for Denials and Reinstatements in California Code of Regulations, Title 16, section 1395; and (2) the evidence presented by the petitioner of his/her rehabilitation. The Board will not retry the original revocation or probation case.

The Board will consider, pursuant to Section 1395, the following criteria of rehabilitation:

- (1) The nature and severity of the act(s) or crime(s) under consideration as grounds for denial.
- (2) Evidence of any act(s) committed subsequent to the act(s) or crime(s) under consideration as grounds for denial which also could be considered as grounds for denial under section 480 of the Code.
- (3) The time that has elapsed since commission of the act(s) of crime(s) referred to in subdivision (1) or (2).
- (4) The extent to which the applicant has complied with any terms of parole, probation, restitution, or any other sanctions lawfully imposed against the applicant.
- (5) Evidence, if any, of rehabilitation submitted by the applicant.

The Board requests that comprehensive information be elicited from the petitioner regarding his/her rehabilitation. The petitioner should provide details that include:

BOARD OF PSYCHOLOGY

- A. Why the penalty should be modified or why the license should be reinstated.
- B. Specifics of rehabilitative efforts and results which should include programs, psychotherapy, medical treatment, etc., and the duration of such efforts.
- C. Continuing education pertaining to the offense and its effect on his or her practice of psychology.
- D. If applicable, copies of court documents pertinent to conviction, including documents specifying conviction and sanctions, and proof of completion of sanctions.
- E. If applicable, copy of Certificate of Rehabilitation or evidence of expungement proceedings.
- F. If applicable, evidence of compliance with and completion of terms of probation, parole, restitution, or any other sanctions.

Rehabilitation is evaluated according to an internal subjective measure of attitude (state of mind) and an external objective measure of conduct (state of facts). The state of mind demonstrating rehabilitation is one that has a mature, measured appreciation of the gravity of the misconduct and remorse for the harm caused. Petitioner must take responsibility for the misconduct and show an appreciation for why it is wrong. Petitioner must also show a demonstrated course of conduct that convinces and assures the Board that the public would be safe if petitioner is permitted to be licensed to practice psychology. Petitioner must show a track record of reliable, responsible, and consistently appropriate conduct.

In the Petition Decision, the Board requests a summary of the offense and the specific codes violated that resulted in the revocation, surrender or probation of the license.

If the Board should deny a request for reinstatement of licensure or penalty relief, the Board requests that the Administrative Law Judge provide technical assistance in the formulation of language clearly setting forth the reasons for denial. Such language would include methodologies or approaches that demonstrate rehabilitation. Petitioners for reinstatement must wait three (3) years from the effective date of their revocation decisions or one (1) year from the last petition for reinstatement decisions before filing for reinstatement.

If a petitioner fails to appear for his/her scheduled reinstatement or penalty relief hearing, such inaction shall result in a default decision to deny reinstatement of the license or registration or reduction of penalty.

VI UNIFORM STANDARDS RELATED TO SUBSTANCE ABUSING LICENSEES

The following Uniform Standards describe the conditions that apply to a substance abusing applicant or licensee, and have been incorporated into the terms and conditions of probation. If the ground(s) for discipline involves drugs and/or alcohol, the applicant or licensee shall be presumed to be a substance-abusing applicant or licensee for purposes of section 315 of the Code. If the applicant or licensee does not rebut that presumption, there shall be a finding that he or she is a substance abusing applicant or licensee, and the Uniform Standards for a substance abusing applicant or licensee shall apply as written and be used in the order placing the license on probation.

DISCIPLINARY GUIDELINES

Clinical Diagnostic Evaluations [Uniform Standard #1]:

(Reflected in Optional Term # 9)

Whenever a licensee is ordered to undergo a clinical diagnostic evaluation, the evaluator shall be a licensed practitioner who holds a valid, unrestricted license to conduct clinical diagnostic evaluations, and has three (3) years experience in providing evaluations of health care professionals with substance abuse disorders. The evaluator shall be approved by the Board, and unless permitted by the Board or its designee, shall be a California-licensed psychologist or physician and surgeon. The evaluations shall be conducted in accordance with acceptable professional standards for conducting substance abuse clinical diagnostic evaluations.

Whether the clinical diagnostic evaluation is ordered is discretionary.

Clinical Diagnostic Evaluation/Cease Practice Order [Uniform Standard #2]:

(Reflected in Optional Term # 9)

Unless the presumption that the applicant or licensee is a substance-abusing applicant or licensee is rebutted, and the public can be adequately protected, the Board shall order the applicant or licensee to cease any practice of psychology pending the clinical diagnostic evaluation and a Board determination upon review of the diagnostic evaluation report that the applicant is safe to begin or the licensee is safe to return to practice.

If the evaluation is ordered, a cease practice order is mandatory.

Clinical Diagnostic Evaluation Report [Uniform Standard #3]:

(Reflected in Optional Term # 9)

The clinical diagnostic evaluation report shall set forth, in the evaluator's opinion, whether the licensee has a substance abuse problem, whether the licensee is a threat to himself or herself or others, and recommendations for substance abuse treatment, practice restrictions, or other recommendations related to the licensee's rehabilitation and safe practice.

The evaluator shall not have or have ever had a financial, personal, business or other relationship with the licensee. The evaluator shall provide an objective, unbiased, and independent evaluation.

If the evaluator determines during the evaluation process that a licensee is a threat to himself or herself or others, the evaluator shall notify the Board within twenty-four (24) hours of such a determination.

For all evaluations, a final written report shall be provided to the Board no later than ten (10) days from the date the evaluator is assigned the matter unless the evaluator requests additional information to complete the evaluation, not to exceed thirty (30) days.

The Board shall review the clinical diagnostic evaluation to help determine whether or not the licensee is safe to return to either part-time or full-time practice and what restrictions or

BOARD OF PSYCHOLOGY

recommendations should be imposed on the licensee based on the application of the following criteria:

License type, licensee's history, documented length of sobriety, scope and pattern of substance abuse, treatment history, medical history, current medical condition, nature, duration and severity of substance abuse problem, and whether the licensee is a threat to himself or herself or others.

When determining if the licensee should be required to participate in inpatient, outpatient or any other type of treatment, the Board shall take into consideration the recommendation of the clinical diagnostic evaluation, license type, licensee's history, length of sobriety, scope and pattern of substance abuse, treatment history, medical history, current medical condition, nature, duration and severity of substance abuse and whether the licensee is a threat to himself or herself or others.

If the evaluation is ordered, this standard is mandatory.

Communication with Employer [Uniform Standard # 4]:

(Reflected in Standard Term # 14)

If the licensee whose license is on probation has an employer, the licensee shall provide to the Board the names, physical addresses, mailing addresses, and telephone numbers of all employers and supervisors and shall give specific, written consent that the licensee authorizes the Board and the employers and supervisors to communicate regarding the licensee's work status, performance, and monitoring.

Facilitated Group Support Meetings [Uniform Standard #5]:

(Reflected in Optional Term # 11)

If the Board requires a licensee to participate in facilitated group support meetings, the following shall apply:

1. When determining the frequency of required group meeting attendance, the Board shall give consideration to the following:
 - the licensee's history;
 - the documented length of sobriety/time that has elapsed since substance use;
 - the recommendation of the clinical evaluator;
 - the scope and pattern of use;
 - the licensee's treatment history; and,
 - the nature, duration, and severity of substance abuse.
2. Group Meeting Facilitator Qualifications and Requirements:
 - a. The meeting facilitator must have a minimum of three (3) years' experience in the treatment and rehabilitation of substance abuse, and shall be licensed or certified by

DISCIPLINARY GUIDELINES

- the State or other nationally certified organizations.
- b. The meeting facilitator must not have had a financial relationship, personal relationship, or business relationship with the licensee within the last five (5) years.
 - c. The meeting facilitator shall provide to the Board a signed document showing the licensee's name, the group name, the date and location of the meeting, the licensee's attendance, and the licensee's level of participation and progress.
 - d. The meeting facilitator shall report any unexcused absence within twenty-four (24) hours.

Whether facilitated support group meetings are ordered is discretionary. (Under the Disciplinary Guidelines, non-facilitated support group attendance, such as Twelve Step meetings, may also be ordered.)

Treatment Program – Inpatient, Outpatient, or Other [Uniform Standard #6] (Reflected in Optional Term # 10)

In determining whether inpatient, outpatient, or other type of treatment is necessary, the board shall consider the following criteria:

- recommendation of the clinical diagnostic evaluation (if any) pursuant to Uniform Standard #1;
- license type;
- licensee's history;
- documented length of sobriety/time that has elapsed since substance abuse;
- scope and pattern of substance use;
- licensee's treatment history;

- threat to himself/herself or the public.

Whether a treatment program is ordered is discretionary.

Worksite Monitor Requirements [Uniform Standard # 7]: (Reflected in Optional Term # 4)

If the Board determines that a worksite monitor is necessary for a particular licensee, the worksite monitor must meet the following requirements to be considered for approval by the Board:

The worksite monitor shall not have a current or former financial, personal, or familial relationship with the licensee, or other relationship that could reasonably be expected to compromise the ability of the monitor to render impartial and unbiased reports to the Board. If it is impractical for anyone but the licensee's employer to serve as the worksite monitor, this requirement may be waived by the Board; however, under no circumstances shall a licensee's worksite monitor be an employee or supervisee of the licensee.

BOARD OF PSYCHOLOGY

The worksite monitor's license scope of practice shall include the scope of practice of the licensee who is being monitored or be another health care professional if no monitor with like scope of practice is available, or, as approved by the Board, be a person in a position of authority who is capable of monitoring the licensee at work.

If the worksite monitor is a licensed healthcare professional he or she shall have an active unrestricted license, with no disciplinary action within the last five (5) years.

The worksite monitor shall sign an affirmation that he or she has reviewed the terms and conditions of the licensee's disciplinary order and agrees to monitor the licensee as set forth by the Board.

The worksite monitor must adhere to the following required methods of monitoring the licensee:

- (1) Have face-to-face contact with the licensee in the work environment on as frequent a basis as determined by the Board, but at least once per week.
- (2) Interview other staff in the office regarding the licensee's behavior, if applicable.
- (3) Review the licensee's work attendance and behavior.

Reporting by the worksite monitor to the Board shall be as follows:

Any suspected substance abuse must be orally reported to the Board and the licensee's employer within one (1) business day of occurrence. If occurrence is not during the Board's normal business hours the oral report must be within one (1) hour of the next business day. A written report shall be submitted to the Board within forty-eight (48) hours of occurrence.

The worksite monitor shall complete and submit a written report monthly or as directed by the Board. The report shall include: the licensee's name; license number; worksite monitor's name and signature; worksite monitor's license number; worksite location(s); dates licensee had face-to-face contact with monitor; worksite staff interviewed, if applicable; attendance report; any change in behavior and/or personal habits; any indicators that can lead to suspected substance abuse.

The licensee shall complete the required consent forms and sign an agreement with the worksite monitor and the Board to allow the Board to communicate with the worksite monitor.

Whether a worksite monitor is ordered is discretionary.

Major and Minor Violations [Uniform Standard # 8]:

(Reflected in Optional Term #s 10, 11, 13)

If a licensee commits a major violation, the Board may order the licensee to cease any practice of psychology, inform the licensee that he or she has been so ordered and that he or she may not practice unless notified by the Board, and refer the matter for disciplinary action or other action as determined by the Board.

DISCIPLINARY GUIDELINES

Major Violations include, but are not limited to, the following:

1. Failure to complete a board-ordered program;
2. Failure to undergo a required clinical diagnostic evaluation;
3. Committing multiple minor violations of probation conditions and terms;
4. Treating a patient while under the influence of drugs or alcohol;
5. Committing any drug or alcohol offense that is a violation of the Business and Professions Code, or other state or federal law;
6. Failure to obtain biological testing for substance abuse when ordered;
7. Testing positive for a banned substance;
8. Knowingly using, making, altering or possessing any object or product in such a way as to defraud a drug test designed to detect the presence of alcohol or a controlled substance.

If a licensee or registrant commits a major violation, the Board shall automatically suspend the license or registration and refer the matter for disciplinary action or other action as determined by the Board.

The consequences for a major violation include, but are not limited to, the following:

1. License or registration shall be suspended;
2. Licensee or registrant must undergo a new clinical diagnostic evaluation;
3. Licensee or registrant must test negative for at least one month of continuous drug testing before being allowed to resume practice;
4. Contract or agreement previously made with the Board shall be terminated; and

2. Unexcused absence from required meetings;
3. Failure to contact a monitor as required;

BOARD OF PSYCHOLOGY

5. Issuance of citation and fine or a warning notice;
6. Required re-evaluation and/or testing.

DRUG TESTING STANDARDS [Uniform Standard # 9]:

(Reflected in Optional Term #12)

If a licensee tests positive for a banned substance, the Board shall order that the licensee cease any practice of psychology, and contact the licensee to inform him or her that he or she has been ordered to cease practice and that he or she may not practice until the Board determines that he or she is able to safely practice. The Board shall also notify the licensee's employer and worksite monitor, if any, that the licensee has been ordered to cease practice, and that he or she may not practice until the Board determines that he or she is able to safely practice. The Board shall determine whether the positive alcohol or drug test is, in fact, evidence of prohibited use, a major violation. If not, the Board shall immediately lift the cease practice order.

Nothing precludes the Board from increasing the number of random tests for any reason. If the Board finds or has suspicion that a licensee has committed a violation of the Board's testing program or who has committed any Major Violation referenced in the Disciplinary Guidelines, the matter shall be referred for disciplinary action to revoke the probation.

The following minimum drug testing standards shall apply to each licensee subject to drug testing:

1. Licensees shall be randomly alcohol or drug tested at least fifty-two (52) times per year for the first year of probation, and at any time as directed by the Board. After the first year, licensees who are practicing, shall be randomly alcohol or drug tested at least thirty-six (36) times per year, and at any time as directed by the Board.
2. Alcohol or drug testing may be required on any day, including weekends and holidays.
3. Licensees shall be required to make daily contact as directed to determine if alcohol or drug testing is required.
4. Licensees shall be alcohol or drug tested on the date of notification as directed by the Board.
5. Collection of specimens shall be observed.
6. Prior to vacation or absence, alternative alcohol or drug testing location(s) must be approved by the Board.

The Board may reduce testing frequency to a minimum of 12 times per year for any licensee who is not practicing OR working in any health care field. If a reduced testing frequency schedule is established for this reason, and if a licensee wants to return to practice or work in a health care field, the licensee shall notify and secure the approval of the licensee's board. Prior to returning to any health care employment, the licensee shall be subject to level I testing frequency for at least 60 days. At such time the licensee returns to employment (in a health care field), if the licensee has not previously met the level I frequency standard, the licensee shall be subject to completing a full year at level I of the testing frequency schedule, otherwise level II testing shall be in effect.

DISCIPLINARY GUIDELINES

Drug testing standards are mandatory and shall apply to a substance-abusing licensee, and the required testing frequency shall be ordered.

ETHICS CODE PRINCIPLES

INTRODUCTION AND APPLICABILITY

The American Psychological Association's (APA's) Ethical Principles of Psychologists and Code of Conduct (hereinafter referred to as the Ethics Code) consists of an Introduction, a Preamble, five General Principles (A-E), and specific Ethical Standards. The Introduction discusses the intent, organization, procedural considerations, and scope of application of the Ethics Code. The Preamble and General Principles are aspirational goals to guide psychologists toward the highest ideals of psychology. Although the Preamble and General Principles are not themselves enforceable rules, they should be considered by psychologists in arriving at an ethical course of action. The Ethical Standards set forth enforceable rules for conduct as psychologists. Most of the Ethical Standards are written broadly, in order to apply to psychologists in varied roles, although the application of an Ethical Standard may vary depending on the context. The Ethical Standards are not exhaustive. The fact that a given conduct is not specifically addressed by an Ethical Standard does not mean that it is necessarily either ethical or unethical.

This Ethics Code applies only to psychologists' activities that are part of their scientific, educational, or professional roles as psychologists. Areas covered include but are not limited to the clinical, counseling, and school practice of psychology; research; teaching; supervision of trainees; public service; policy development; social intervention; development of assessment instruments; conducting assessments; educational counseling; organizational consulting; forensic activities; program design and evaluation; and administration. This Ethics Code applies to these activities across a variety of contexts, such as in person, postal, telephone, Internet, and other electronic transmissions. These activities shall be distinguished from the purely private conduct of psychologists, which is not within the purview of the Ethics Code.

Membership in the APA commits members and student affiliates to comply with the standards of the APA Ethics Code and to the rules and procedures used to enforce them. Lack of awareness or misunderstanding of an Ethical Standard is not itself a defense to a charge of unethical conduct.

The procedures for filing, investigating, and resolving complaints of unethical conduct are described in the current Rules and Procedures of the APA Ethics Committee. APA may impose sanctions on its members for violations of the standards of the Ethics Code, including termination of APA membership, and may notify other bodies and individuals of its actions. Actions that violate the standards of the Ethics Code may also lead to the imposition of sanctions on psychologists or students whether or not they are APA members by bodies other than APA, including state psychological associations, other professional groups, psychology boards, other state or federal agencies, and payors for health services.

In addition, APA may take action against a member after his or her conviction of a felony, expulsion or suspension from an affiliated state psychological association, or suspension or loss of licensure. When the sanction to be imposed by APA is less than expulsion, the 2001 Rules and Procedures do not guarantee an opportunity for an in-person hearing, but generally provide that complaints will be resolved only on the basis of a submitted record.

The Ethics Code is intended to provide guidance for psychologists and standards of professional conduct that can be applied by the APA and by other bodies that choose to adopt them. The Ethics Code is not intended to be a basis of civil liability. Whether a psychologist has violated the Ethics Code standards does not by itself determine whether the psychologist is legally liable in a court action, whether a contract is enforceable, or whether other legal consequences occur.

The American Psychological Association's Council of Representatives adopted this version of the APA Ethics Code during its meeting on August 21, 2002. The Code became effective on June 1, 2003. The Council of Representatives amended this version of the Ethics Code on February 20, 2010, effective June 1, 2010, and on August 3, 2016, effective January 1, 2017. (see p. 16 of this pamphlet). Inquiries concerning the substance or interpretation of the APA Ethics Code should be addressed to the Office of Ethics, American Psychological Association, 750 First St. NE, Washington, DC 20002-4242. This Ethics Code and information regarding the Code can be found on the APA website, <http://www.apa.org/ethics>. The standards in this Ethics Code will be used to adjudicate complaints brought concerning alleged conduct occurring on or after the effective date. Complaints will be adjudicated on the basis of the version of the Ethics Code that was in effect at the time the conduct occurred.

BOARD OF PSYCHOLOGY

The modifiers used in some of the standards of this Ethics Code (e.g., *reasonably*, *appropriate*, *potentially*) are included in the standards when they would (1) allow professional judgment on the part of psychologists, (2) eliminate injustice or inequality that would occur without the modifier, (3) ensure applicability across the broad range of activities conducted by psychologists, or (4) guard against a set of rigid rules that might be quickly outdated. As used in this Ethics Code, the term *reasonable* means the prevailing professional judgment of psychologists engaged in similar activities in similar circumstances, given the knowledge the psychologist had or should have had at the time.

In the process of making decisions regarding their professional behavior, psychologists must consider this Ethics Code in addition to applicable laws and psychology board regulations. In applying the Ethics Code to their professional work, psychologists may consider other materials and guidelines that have been adopted or endorsed by scientific and professional psychological organizations and the dictates of their own conscience, as well as consult with others within the field. If this Ethics Code establishes a higher standard of conduct than is required by law, psychologists must meet the higher ethical standard. If psychologists' ethical responsibilities conflict with law, regulations, or other governing legal authority, psychologists make known their commitment to this Ethics Code and take steps to resolve the conflict in a responsible manner in keeping with basic principles of human rights.

PREAMBLE

Psychologists are committed to increasing scientific and professional knowledge of behavior and people's understanding of themselves and others and to the use of such knowledge to improve the condition of individuals, organizations, and society. Psychologists respect and protect civil and human rights and the central importance of freedom of inquiry and expression in research, teaching, and publication. They strive to help the public in developing informed judgments and choices concerning human behavior. In doing so, they perform many roles, such as researcher, educator, diagnostician, therapist, supervisor, consultant, administrator, social interventionist, and expert witness. This Ethics Code provides a common set of principles and standards upon which psychologists build their professional and scientific work.

This Ethics Code is intended to provide specific standards to cover most situations encountered by psychologists. It has as its goals the welfare and protection of the individuals and groups with whom psychologists work and the education of members, students, and the public regarding ethical standards of the discipline.

The development of a dynamic set of ethical standards for psychologists' work-related conduct requires a

personal commitment and lifelong effort to act ethically; to encourage ethical behavior by students, supervisees, employees, and colleagues; and to consult with others concerning ethical problems.

GENERAL PRINCIPLES

This section consists of General Principles. General Principles, as opposed to Ethical Standards, are aspirational in nature. Their intent is to guide and inspire psychologists toward the very highest ethical ideals of the profession. General Principles, in contrast to Ethical Standards, do not represent obligations and should not form the basis for imposing sanctions. Relying upon General Principles for either of these reasons distorts both their meaning and purpose.

Principle A: Beneficence and Nonmaleficence

Psychologists strive to benefit those with whom they work and take care to do no harm. In their professional actions, psychologists seek to safeguard the welfare and rights of those with whom they interact professionally and other affected persons, and the welfare of animal subjects of research. When conflicts occur among psychologists' obligations or concerns, they attempt to resolve these conflicts in a responsible fashion that avoids or minimizes harm. Because psychologists' scientific and professional judgments and actions may affect the lives of others, they are alert to and guard against personal, financial, social, organizational, or political factors that might lead to misuse of their influence. Psychologists strive to be aware of the possible effect of their own physical and mental health on their ability to help those with whom they work.

Principle B: Fidelity and Responsibility

Psychologists establish relationships of trust with those with whom they work. They are aware of their professional and scientific responsibilities to society and to the specific communities in which they work. Psychologists uphold professional standards of conduct, clarify their professional roles and obligations, accept appropriate responsibility for their behavior, and seek to manage conflicts of interest that could lead to exploitation or harm. Psychologists consult with, refer to, or cooperate with other professionals and institutions to the extent needed to serve the best interests of those with whom they work. They are concerned about the ethical compliance of their colleagues' scientific and professional conduct. Psychologists strive to contribute a portion of their professional time for little or no compensation or personal advantage.

Principle C: Integrity

Psychologists seek to promote accuracy, honesty, and truthfulness in the science, teaching, and practice of

ETHICS CODE PRINCIPLES

psychology. In these activities psychologists do not steal, cheat, or engage in fraud, subterfuge, or intentional misrepresentation of fact. Psychologists strive to keep their promises and to avoid unwise or unclear commitments. In situations in which deception may be ethically justifiable to maximize benefits and minimize harm, psychologists have a serious obligation to consider the need for, the possible consequences of, and their responsibility to correct any resulting mistrust or other harmful effects that arise from the use of such techniques.

Principle D: Justice

Psychologists recognize that fairness and justice entitle all persons to access to and benefit from the contributions of psychology and to equal quality in the processes, procedures, and services being conducted by psychologists. Psychologists exercise reasonable judgment and take precautions to ensure that their potential biases, the boundaries of their competence, and the limitations of their expertise do not lead to or condone unjust practices.

Principle E: Respect for People's Rights and Dignity

Psychologists respect the dignity and worth of all people, and the rights of individuals to privacy, confidentiality, and self-determination. Psychologists are aware that special safeguards may be necessary to protect the rights and welfare of persons or communities whose vulnerabilities impair autonomous decision making. Psychologists are aware of and respect cultural, individual, and role differences, including those based on age, gender, gender identity, race, ethnicity, culture, national origin, religion, sexual orientation, disability, language, and socioeconomic status, and consider these factors when working with members of such groups. Psychologists try to eliminate the effect on their work of biases based on those factors, and they do not knowingly participate in or condone activities of others based upon such prejudices.

ETHICAL STANDARDS

1. Resolving Ethical Issues

1.01 Misuse of Psychologists' Work

If psychologists learn of misuse or misrepresentation of their work, they take reasonable steps to correct or minimize the misuse or misrepresentation.

1.02 Conflicts Between Ethics and Law, Regulations, or Other Governing Legal Authority

If psychologists' ethical responsibilities conflict with law, regulations, or other governing legal authority, psychologists clarify the nature of the conflict, make known their commitment to the Ethics Code, and take reasonable

steps to resolve the conflict consistent with the General Principles and Ethical Standards of the Ethics Code. Under no circumstances may this standard be used to justify or defend violating human rights.

1.03 Conflicts Between Ethics and Organizational Demands

If the demands of an organization with which psychologists are affiliated or for whom they are working are in conflict with this Ethics Code, psychologists clarify the nature of the conflict, make known their commitment to the Ethics Code, and take reasonable steps to resolve the conflict consistent with the General Principles and Ethical Standards of the Ethics Code. Under no circumstances may this standard be used to justify or defend violating human rights.

1.04 Informal Resolution of Ethical Violations

When psychologists believe that there may have been an ethical violation by another psychologist, they attempt to resolve the issue by bringing it to the attention of that individual, if an informal resolution appears appropriate and the intervention does not violate any confidentiality rights that may be involved. (See also Standards 1.02, Conflicts Between Ethics and Law, Regulations, or Other Governing Legal Authority, and 1.03, Conflicts Between Ethics and Organizational Demands.)

1.05 Reporting Ethical Violations

If an apparent ethical violation has substantially harmed or is likely to substantially harm a person or organization and is not appropriate for informal resolution under Standard 1.04, Informal Resolution of Ethical Violations, or is not resolved properly in that fashion, psychologists take further action appropriate to the situation. Such action might include referral to state or national committees on professional ethics, to state licensing boards, or to the appropriate institutional authorities. This standard does not apply when an intervention would violate confidentiality rights or when psychologists have been retained to review the work of another psychologist whose professional conduct is in question. (See also Standard 1.02, Conflicts Between Ethics and Law, Regulations, or Other Governing Legal Authority.)

1.06 Cooperating with Ethics Committees

Psychologists cooperate in ethics investigations, proceedings, and resulting requirements of the APA or any affiliated state psychological association to which they belong. In doing so, they address any confidentiality issues. Failure to cooperate is itself an ethics violation. However, making a request for deferment of adjudication of an ethics complaint pending the outcome of litigation does not alone constitute noncooperation.

BOARD OF PSYCHOLOGY

1.07 Improper Complaints

Psychologists do not file or encourage the filing of ethics complaints that are made with reckless disregard for or willful ignorance of facts that would disprove the allegation.

1.08 Unfair Discrimination Against Complainants and Respondents

Psychologists do not deny persons employment, advancement, admissions to academic or other programs, tenure, or promotion, based solely upon their having made or their being the subject of an ethics complaint. This does not preclude taking action based upon the outcome of such proceedings or considering other appropriate information.

2. Competence

2.01 Boundaries of Competence

(a) Psychologists provide services, teach, and conduct research with populations and in areas only within the boundaries of their competence, based on their education, training, supervised experience, consultation, study, or professional experience.

(b) Where scientific or professional knowledge in the discipline of psychology establishes that an understanding of factors associated with age, gender, gender identity, race, ethnicity, culture, national origin, religion, sexual orientation, disability, language, or socioeconomic status is essential for effective implementation of their services or research, psychologists have or obtain the training, experience, consultation, or supervision necessary to ensure the competence of their services, or they make appropriate referrals, except as provided in Standard 2.02, Providing Services in Emergencies.

(c) Psychologists planning to provide services, teach, or conduct research involving populations, areas, techniques, or technologies new to them undertake relevant education, training, supervised experience, consultation, or study.

(d) When psychologists are asked to provide services to individuals for whom appropriate mental health services are not available and for which psychologists have not obtained the competence necessary, psychologists with closely related prior training or experience may provide such services in order to ensure that services are not denied if they make a reasonable effort to obtain the competence required by using relevant research, training, consultation, or study.

(e) In those emerging areas in which generally recognized standards for preparatory training do not yet exist, psychologists nevertheless take reasonable steps to ensure the competence of their work and to protect clients/patients, students, supervisees, research participants, organizational clients, and others from harm.

(f) When assuming forensic roles, psychologists are

or become reasonably familiar with the judicial or administrative rules governing their roles.

2.02 Providing Services in Emergencies

In emergencies, when psychologists provide services to individuals for whom other mental health services are not available and for which psychologists have not obtained the necessary training, psychologists may provide such services in order to ensure that services are not denied. The services are discontinued as soon as the emergency has ended or appropriate services are available.

2.03 Maintaining Competence

Psychologists undertake ongoing efforts to develop and maintain their competence.

2.04 Bases for Scientific and Professional Judgments

Psychologists' work is based upon established scientific and professional knowledge of the discipline. (See also Standards 2.01e, Boundaries of Competence, and 10.01b, Informed Consent to Therapy.)

2.05 Delegation of Work to Others

Psychologists who delegate work to employees, supervisees, or research or teaching assistants or who use the services of others, such as interpreters, take reasonable steps to (1) avoid delegating such work to persons who have a multiple relationship with those being served that would likely lead to exploitation or loss of objectivity; (2) authorize only those responsibilities that such persons can be expected to perform competently on the basis of their education, training, or experience, either independently or with the level of supervision being provided; and (3) see that such persons perform these services competently. (See also Standards 2.02, Providing Services in Emergencies; 3.05, Multiple Relationships; 4.01, Maintaining Confidentiality; 9.01, Bases for Assessments; 9.02, Use of Assessments; 9.03, Informed Consent in Assessments; and 9.07, Assessment by Unqualified Persons.)

2.06 Personal Problems and Conflicts

(a) Psychologists refrain from initiating an activity when they know or should know that there is a substantial likelihood that their personal problems will prevent them from performing their work-related activities in a competent manner.

(b) When psychologists become aware of personal problems that may interfere with their performing work-related duties adequately, they take appropriate measures, such as obtaining professional consultation or assistance, and determine whether they should limit, suspend, or terminate their work-related duties. (See also Standard 10.10, Terminating Therapy.)

ETHICS CODE PRINCIPLES

3. Human Relations

3.01 Unfair Discrimination

In their work-related activities, psychologists do not engage in unfair discrimination based on age, gender, gender identity, race, ethnicity, culture, national origin, religion, sexual orientation, disability, socioeconomic status, or any basis proscribed by law.

3.02 Sexual Harassment

Psychologists do not engage in sexual harassment. Sexual harassment is sexual solicitation, physical advances, or verbal or nonverbal conduct that is sexual in nature, that occurs in connection with the psychologist's activities or roles as a psychologist, and that either (1) is unwelcome, is offensive, or creates a hostile workplace or educational environment, and the psychologist knows or is told this or (2) is sufficiently severe or intense to be abusive to a reasonable person in the context. Sexual harassment can consist of a single intense or severe act or of multiple persistent or pervasive acts. (See also Standard 1.08, Unfair Discrimination Against Complainants and Respondents.)

3.03 Other Harassment

Psychologists do not knowingly engage in behavior that is harassing or demeaning to persons with whom they interact in their work based on factors such as those persons' age, gender, gender identity, race, ethnicity, culture, national origin, religion, sexual orientation, disability, language, or socioeconomic status.

3.04 Avoiding Harm

(a) Psychologists take reasonable steps to avoid harming their clients/patients, students, supervisees, research participants, organizational clients, and others with whom they work, and to minimize harm where it is foreseeable and unavoidable.

(b) Psychologists do not participate in, facilitate, assist, or otherwise engage in torture, defined as any act by which severe pain or suffering, whether physical or mental, is intentionally inflicted on a person, or in any other cruel, inhuman, or degrading behavior that violates 3.04a.

3.05 Multiple Relationships

(a) A multiple relationship occurs when a psychologist is in a professional role with a person and (1) at the same time is in another role with the same person, (2) at the same time is in a relationship with a person closely associated with or related to the person with whom the psychologist has the professional relationship, or (3) promises to enter into another relationship in the future with the person or a person closely associated with or related to the person.

A psychologist refrains from entering into a multiple relationship if the multiple relationship could reasonably be expected to impair the psychologist's objectivity, competence, or effectiveness in performing his or her functions as a psychologist, or otherwise risks exploitation or harm to the person with whom the professional relationship exists.

Multiple relationships that would not reasonably be expected to cause impairment or risk exploitation or harm are not unethical.

(b) If a psychologist finds that, due to unforeseen factors, a potentially harmful multiple relationship has arisen, the psychologist takes reasonable steps to resolve it with due regard for the best interests of the affected person and maximal compliance with the Ethics Code.

(c) When psychologists are required by law, institutional policy, or extraordinary circumstances to serve in more than one role in judicial or administrative proceedings, at the outset they clarify role expectations and the extent of confidentiality and thereafter as changes occur. (See also Standards 3.04, Avoiding Harm, and 3.07, Third-Party Requests for Services.)

3.06 Conflict of Interest

Psychologists refrain from taking on a professional role when personal, scientific, professional, legal, financial, or other interests or relationships could reasonably be expected to (1) impair their objectivity, competence, or effectiveness in performing their functions as psychologists or (2) expose the person or organization with whom the professional relationship exists to harm or exploitation.

3.07 Third-Party Requests for Services

When psychologists agree to provide services to a person or entity at the request of a third party, psychologists attempt to clarify at the outset of the service the nature of the relationship with all individuals or organizations involved. This clarification includes the role of the psychologist (e.g., therapist, consultant, diagnostician, or expert witness), an identification of who is the client, the probable uses of the services provided or the information obtained, and the fact that there may be limits to confidentiality. (See also Standards 3.05, Multiple Relationships, and 4.02, Discussing the Limits of Confidentiality.)

3.08 Exploitative Relationships

Psychologists do not exploit persons over whom they have supervisory, evaluative or other authority such as clients/patients, students, supervisees, research participants, and employees. (See also Standards 3.05, Multiple Relationships; 6.04, Fees and Financial Arrangements; 6.05, Barter with Clients/Patients; 7.07, Sexual Relationships with Students and Supervisees; 10.05, Sexual Intima-

BOARD OF PSYCHOLOGY

cies with Current Therapy Clients/Patients; 10.06, Sexual Intimacies with Relatives or Significant Others of Current Therapy Clients/Patients; 10.07, Therapy with Former Sexual Partners; and 10.08, Sexual Intimacies with Former Therapy Clients/Patients.)

3.09 Cooperation with Other Professionals

When indicated and professionally appropriate, psychologists cooperate with other professionals in order to serve their clients/patients effectively and appropriately. (See also Standard 4.05, Disclosures.)

3.10 Informed Consent

(a) When psychologists conduct research or provide assessment, therapy, counseling, or consulting services in person or via electronic transmission or other forms of communication, they obtain the informed consent of the individual or individuals using language that is reasonably understandable to that person or persons except when conducting such activities without consent is mandated by law or governmental regulation or as otherwise provided in this Ethics Code. (See also Standards 8.02, Informed Consent to Research; 9.03, Informed Consent in Assessments; and 10.01, Informed Consent to Therapy.)

(b) For persons who are legally incapable of giving informed consent, psychologists nevertheless (1) provide an appropriate explanation, (2) seek the individual's assent, (3) consider such persons' preferences and best interests, and (4) obtain appropriate permission from a legally authorized person, if such substitute consent is permitted or required by law. When consent by a legally authorized person is not permitted or required by law, psychologists take reasonable steps to protect the individual's rights and welfare.

(c) When psychological services are court ordered or otherwise mandated, psychologists inform the individual of the nature of the anticipated services, including whether the services are court ordered or mandated and any limits of confidentiality, before proceeding.

(d) Psychologists appropriately document written or oral consent, permission, and assent. (See also Standards 8.02, Informed Consent to Research; 9.03, Informed Consent in Assessments; and 10.01, Informed Consent to Therapy.)

3.11 Psychological Services Delivered to or Through Organizations

(a) Psychologists delivering services to or through organizations provide information beforehand to clients and when appropriate those directly affected by the services about (1) the nature and objectives of the services, (2) the intended recipients, (3) which of the individuals are clients, (4) the relationship the psychologist will have with each person and the organization, (5) the probable uses of services

provided and information obtained, (6) who will have access to the information, and (7) limits of confidentiality. As soon as feasible, they provide information about the results and conclusions of such services to appropriate persons.

(b) If psychologists will be precluded by law or by organizational roles from providing such information to particular individuals or groups, they so inform those individuals or groups at the outset of the service.

3.12 Interruption of Psychological Services

Unless otherwise covered by contract, psychologists make reasonable efforts to plan for facilitating services in the event that psychological services are interrupted by factors such as the psychologist's illness, death, unavailability, relocation, or retirement or by the client's/patient's relocation or financial limitations. (See also Standard 6.02c, Maintenance, Dissemination, and Disposal of Confidential Records of Professional and Scientific Work.)

4. Privacy and Confidentiality

4.01 Maintaining Confidentiality

Psychologists have a primary obligation and take reasonable precautions to protect confidential information obtained through or stored in any medium, recognizing that the extent and limits of confidentiality may be regulated by law or established by institutional rules or professional or scientific relationship. (See also Standard 2.05, Delegation of Work to Others.)

4.02 Discussing the Limits of Confidentiality

(a) Psychologists discuss with persons (including, to the extent feasible, persons who are legally incapable of giving informed consent and their legal representatives) and organizations with whom they establish a scientific or professional relationship (1) the relevant limits of confidentiality and (2) the foreseeable uses of the information generated through their psychological activities. (See also Standard 3.10, Informed Consent.)

(b) Unless it is not feasible or is contraindicated, the discussion of confidentiality occurs at the outset of the relationship and thereafter as new circumstances may warrant.

(c) Psychologists who offer services, products, or information via electronic transmission inform clients/patients of the risks to privacy and limits of confidentiality.

4.03 Recording

Before recording the voices or images of individuals to whom they provide services, psychologists obtain permission from all such persons or their legal representatives. (See also Standards 8.03, Informed Consent for Recording Voices and Images in Research; 8.05, Dispensing with Informed Consent for Research; and 8.07, Deception in Research.)

ETHICS CODE PRINCIPLES

4.04 Minimizing Intrusions on Privacy

(a) Psychologists include in written and oral reports and consultations, only information germane to the purpose for which the communication is made.

(b) Psychologists discuss confidential information obtained in their work only for appropriate scientific or professional purposes and only with persons clearly concerned with such matters.

4.05 Disclosures

(a) Psychologists may disclose confidential information with the appropriate consent of the organizational client, the individual client/patient, or another legally authorized person on behalf of the client/patient unless prohibited by law.

(b) Psychologists disclose confidential information without the consent of the individual only as mandated by law, or where permitted by law for a valid purpose such as to (1) provide needed professional services; (2) obtain appropriate professional consultations; (3) protect the client/patient, psychologist, or others from harm; or (4) obtain payment for services from a client/patient, in which instance disclosure is limited to the minimum that is necessary to achieve the purpose. (See also Standard 6.04e, Fees and Financial Arrangements.)

4.06 Consultations

When consulting with colleagues, (1) psychologists do not disclose confidential information that reasonably could lead to the identification of a client/patient, research participant, or other person or organization with whom they have a confidential relationship unless they have obtained the prior consent of the person or organization or the disclosure cannot be avoided, and (2) they disclose information only to the extent necessary to achieve the purposes of the consultation. (See also Standard 4.01, Maintaining Confidentiality.)

4.07 Use of Confidential Information for Didactic or Other Purposes

Psychologists do not disclose in their writings, lectures, or other public media, confidential, personally identifiable information concerning their clients/patients, students, research participants, organizational clients, or other recipients of their services that they obtained during the course of their work, unless (1) they take reasonable steps to disguise the person or organization, (2) the person or organization has consented in writing, or (3) there is legal authorization for doing so.

5. Advertising and Other Public Statements

5.01 Avoidance of False or Deceptive Statements

(a) Public statements include but are not limited to paid or unpaid advertising, product endorsements, grant applications, licensing applications, other credentialing applications, brochures, printed matter, directory listings, personal resumes or curricula vitae, or comments for use in media such as print or electronic transmission, statements in legal proceedings, lectures and public oral presentations, and published materials. Psychologists do not knowingly make public statements that are false, deceptive, or fraudulent concerning their research, practice, or other work activities or those of persons or organizations with which they are affiliated.

(b) Psychologists do not make false, deceptive, or fraudulent statements concerning (1) their training, experience, or competence; (2) their academic degrees; (3) their credentials; (4) their institutional or association affiliations; (5) their services; (6) the scientific or clinical basis for, or results or degree of success of, their services; (7) their fees; or (8) their publications or research findings.

(c) Psychologists claim degrees as credentials for their health services only if those degrees (1) were earned from a regionally accredited educational institution or (2) were the basis for psychology licensure by the state in which they practice.

5.02 Statements by Others

(a) Psychologists who engage others to create or place public statements that promote their professional practice, products, or activities retain professional responsibility for such statements.

(b) Psychologists do not compensate employees of press, radio, television, or other communication media in return for publicity in a news item. (See also Standard 1.01, Misuse of Psychologists' Work.)

(c) A paid advertisement relating to psychologists' activities must be identified or clearly recognizable as such.

5.03 Descriptions of Workshops and Non-Degree-Granting Educational Programs

To the degree to which they exercise control, psychologists responsible for announcements, catalogs, brochures, or advertisements describing workshops, seminars, or other non-degree-granting educational programs ensure that they accurately describe the audience for which the program is intended, the educational objectives, the presenters, and the fees involved.

5.04 Media Presentations

When psychologists provide public advice or comment via print, Internet, or other electronic transmission,

BOARD OF PSYCHOLOGY

they take precautions to ensure that statements (1) are based on their professional knowledge, training, or experience in accord with appropriate psychological literature and practice; (2) are otherwise consistent with this Ethics Code; and (3) do not indicate that a professional relationship has been established with the recipient. (See also Standard 2.04, Bases for Scientific and Professional Judgments.)

5.05 Testimonials

Psychologists do not solicit testimonials from current therapy clients/patients or other persons who because of their particular circumstances are vulnerable to undue influence.

5.06 In-Person Solicitation

Psychologists do not engage, directly or through agents, in uninvited in-person solicitation of business from actual or potential therapy clients/patients or other persons who because of their particular circumstances are vulnerable to undue influence. However, this prohibition does not preclude (1) attempting to implement appropriate collateral contacts for the purpose of benefiting an already engaged therapy client/patient or (2) providing disaster or community outreach services.

6. Record Keeping and Fees

6.01 Documentation of Professional and Scientific Work and Maintenance of Records

Psychologists create, and to the extent the records are under their control, maintain, disseminate, store, retain, and dispose of records and data relating to their professional and scientific work in order to (1) facilitate provision of services later by them or by other professionals, (2) allow for replication of research design and analyses, (3) meet institutional requirements, (4) ensure accuracy of billing and payments, and (5) ensure compliance with law. (See also Standard 4.01, Maintaining Confidentiality.)

6.02 Maintenance, Dissemination, and Disposal of Confidential Records of Professional and Scientific Work

(a) Psychologists maintain confidentiality in creating, storing, accessing, transferring, and disposing of records under their control, whether these are written, automated, or in any other medium. (See also Standards 4.01, Maintaining Confidentiality, and 6.01, Documentation of Professional and Scientific Work and Maintenance of Records.)

(b) If confidential information concerning recipients of psychological services is entered into databases or systems of records available to persons whose access has not been consented to by the recipient, psychologists use coding or other techniques to avoid the inclusion of personal identifiers.

(c) Psychologists make plans in advance to facilitate the appropriate transfer and to protect the confidentiality of records and data in the event of psychologists' withdrawal from positions or practice. (See also Standards 3.12, Interruption of Psychological Services, and 10.09, Interruption of Therapy.)

6.03 Withholding Records for Nonpayment

Psychologists may not withhold records under their control that are requested and needed for a client's/patient's emergency treatment solely because payment has not been received.

6.04 Fees and Financial Arrangements

(a) As early as is feasible in a professional or scientific relationship, psychologists and recipients of psychological services reach an agreement specifying compensation and billing arrangements.

(b) Psychologists' fee practices are consistent with law.

(c) Psychologists do not misrepresent their fees.

(d) If limitations to services can be anticipated because of limitations in financing, this is discussed with the recipient of services as early as is feasible. (See also Standards 10.09, Interruption of Therapy, and 10.10, Terminating Therapy.)

(e) If the recipient of services does not pay for services as agreed, and if psychologists intend to use collection agencies or legal measures to collect the fees, psychologists first inform the person that such measures will be taken and provide that person an opportunity to make prompt payment. (See also Standards 4.05, Disclosures; 6.03, Withholding Records for Nonpayment; and 10.01, Informed Consent to Therapy.)

6.05 Barter with Clients/Patients

Barter is the acceptance of goods, services, or other nonmonetary remuneration from clients/patients in return for psychological services. Psychologists may barter only if (1) it is not clinically contraindicated, and (2) the resulting arrangement is not exploitative. (See also Standards 3.05, Multiple Relationships, and 6.04, Fees and Financial Arrangements.)

6.06 Accuracy in Reports to Payors and Funding Sources

In their reports to payors for services or sources of research funding, psychologists take reasonable steps to ensure the accurate reporting of the nature of the service provided or research conducted, the fees, charges, or payments, and where applicable, the identity of the provider, the findings, and the diagnosis. (See also Standards 4.01, Maintaining Confidentiality; 4.04, Minimizing Intrusions on Privacy; and 4.05, Disclosures.)

ETHICS CODE PRINCIPLES

6.07 Referrals and Fees

When psychologists pay, receive payment from, or divide fees with another professional, other than in an employer-employee relationship, the payment to each is based on the services provided (clinical, consultative, administrative, or other) and is not based on the referral itself. (See also Standard 3.09, Cooperation with Other Professionals.)

7. Education and Training

7.01 Design of Education and Training Programs

Psychologists responsible for education and training programs take reasonable steps to ensure that the programs are designed to provide the appropriate knowledge and proper experiences, and to meet the requirements for licensure, certification, or other goals for which claims are made by the program. (See also Standard 5.03, Descriptions of Workshops and Non-Degree-Granting Educational Programs.)

7.02 Descriptions of Education and Training Programs

Psychologists responsible for education and training programs take reasonable steps to ensure that there is a current and accurate description of the program content (including participation in required course- or program-related counseling, psychotherapy, experiential groups, consulting projects, or community service), training goals and objectives, stipends and benefits, and requirements that must be met for satisfactory completion of the program. This information must be made readily available to all interested parties.

7.03 Accuracy in Teaching

(a) Psychologists take reasonable steps to ensure that course syllabi are accurate regarding the subject matter to be covered, bases for evaluating progress, and the nature of course experiences. This standard does not preclude an instructor from modifying course content or requirements when the instructor considers it pedagogically necessary or desirable, so long as students are made aware of these modifications in a manner that enables them to fulfill course requirements. (See also Standard 5.01, Avoidance of False or Deceptive Statements.)

(b) When engaged in teaching or training, psychologists present psychological information accurately. (See also Standard 2.03, Maintaining Competence.)

7.04 Student Disclosure of Personal Information

Psychologists do not require students or supervisees to disclose personal information in course- or program-related activities, either orally or in writing, regarding

sexual history, history of abuse and neglect, psychological treatment, and relationships with parents, peers, and spouses or significant others except if (1) the program or training facility has clearly identified this requirement in its admissions and program materials or (2) the information is necessary to evaluate or obtain assistance for students whose personal problems could reasonably be judged to be preventing them from performing their training- or professionally related activities in a competent manner or posing a threat to the students or others.

7.05 Mandatory Individual or Group Therapy

(a) When individual or group therapy is a program or course requirement, psychologists responsible for that program allow students in undergraduate and graduate programs the option of selecting such therapy from practitioners unaffiliated with the program. (See also Standard 7.02, Descriptions of Education and Training Programs.)

(b) Faculty who are or are likely to be responsible for evaluating students' academic performance do not themselves provide that therapy. (See also Standard 3.05, Multiple Relationships.)

7.06 Assessing Student and Supervisee Performance

(a) In academic and supervisory relationships, psychologists establish a timely and specific process for providing feedback to students and supervisees. Information regarding the process is provided to the student at the beginning of supervision.

(b) Psychologists evaluate students and supervisees on the basis of their actual performance on relevant and established program requirements.

7.07 Sexual Relationships with Students and Supervisees

Psychologists do not engage in sexual relationships with students or supervisees who are in their department, agency, or training center or over whom psychologists have or are likely to have evaluative authority. (See also Standard 3.05, Multiple Relationships.)

8. Research and Publication

8.01 Institutional Approval

When institutional approval is required, psychologists provide accurate information about their research proposals and obtain approval prior to conducting the research. They conduct the research in accordance with the approved research protocol.

8.02 Informed Consent to Research

(a) When obtaining informed consent as required in Standard 3.10, Informed Consent, psychologists inform participants about (1) the purpose of the research, expect-

BOARD OF PSYCHOLOGY

ed duration, and procedures; (2) their right to decline to participate and to withdraw from the research once participation has begun; (3) the foreseeable consequences of declining or withdrawing; (4) reasonably foreseeable factors that may be expected to influence their willingness to participate such as potential risks, discomfort, or adverse effects; (5) any prospective research benefits; (6) limits of confidentiality; (7) incentives for participation; and (8) whom to contact for questions about the research and research participants' rights. They provide opportunity for the prospective participants to ask questions and receive answers. (See also Standards 8.03, Informed Consent for Recording Voices and Images in Research; 8.05, Dispensing with Informed Consent for Research; and 8.07, Deception in Research.)

(b) Psychologists conducting intervention research involving the use of experimental treatments clarify to participants at the outset of the research (1) the experimental nature of the treatment; (2) the services that will or will not be available to the control group(s) if appropriate; (3) the means by which assignment to treatment and control groups will be made; (4) available treatment alternatives if an individual does not wish to participate in the research or wishes to withdraw once a study has begun; and (5) compensation for or monetary costs of participating including, if appropriate, whether reimbursement from the participant or a third-party payor will be sought. (See also Standard 8.02a, Informed Consent to Research.)

8.03 Informed Consent for Recording Voices and Images in Research

Psychologists obtain informed consent from research participants prior to recording their voices or images for data collection unless (1) the research consists solely of naturalistic observations in public places, and it is not anticipated that the recording will be used in a manner that could cause personal identification or harm, or (2) the research design includes deception, and consent for the use of the recording is obtained during debriefing. (See also Standard 8.07, Deception in Research.)

8.04 Client/Patient, Student, and Subordinate Research Participants

(a) When psychologists conduct research with clients/patients, students, or subordinates as participants, psychologists take steps to protect the prospective participants from adverse consequences of declining or withdrawing from participation.

(b) When research participation is a course requirement or an opportunity for extra credit, the prospective participant is given the choice of equitable alternative activities.

8.05 Dispensing with Informed Consent for Research

Psychologists may dispense with informed consent only (1) where research would not reasonably be assumed to create distress or harm and involves (a) the study of normal educational practices, curricula, or classroom management methods conducted in educational settings; (b) only anonymous questionnaires, naturalistic observations, or archival research for which disclosure of responses would not place participants at risk of criminal or civil liability or damage their financial standing, employability, or reputation, and confidentiality is protected; or (c) the study of factors related to job or organization effectiveness conducted in organizational settings for which there is no risk to participants' employability, and confidentiality is protected or (2) where otherwise permitted by law or federal or institutional regulations.

8.06 Offering Inducements for Research Participation

(a) Psychologists make reasonable efforts to avoid offering excessive or inappropriate financial or other inducements for research participation when such inducements are likely to coerce participation.

(b) When offering professional services as an inducement for research participation, psychologists clarify the nature of the services, as well as the risks, obligations, and limitations. (See also Standard 6.05, Barter with Clients/Patients.)

8.07 Deception in Research

(a) Psychologists do not conduct a study involving deception unless they have determined that the use of deceptive techniques is justified by the study's significant prospective scientific, educational, or applied value and that effective nondeceptive alternative procedures are not feasible.

(b) Psychologists do not deceive prospective participants about research that is reasonably expected to cause physical pain or severe emotional distress.

(c) Psychologists explain any deception that is an integral feature of the design and conduct of an experiment to participants as early as is feasible, preferably at the conclusion of their participation, but no later than at the conclusion of the data collection, and permit participants to withdraw their data. (See also Standard 8.08, Debriefing.)

8.08 Debriefing

(a) Psychologists provide a prompt opportunity for participants to obtain appropriate information about the nature, results, and conclusions of the research, and they take reasonable steps to correct any misconceptions that participants may have of which the psychologists are aware.

ETHICS CODE PRINCIPLES

(b) If scientific or humane values justify delaying or withholding this information, psychologists take reasonable measures to reduce the risk of harm.

(c) When psychologists become aware that research procedures have harmed a participant, they take reasonable steps to minimize the harm.

8.09 Humane Care and Use of Animals in Research

(a) Psychologists acquire, care for, use, and dispose of animals in compliance with current federal, state, and local laws and regulations, and with professional standards.

(b) Psychologists trained in research methods and experienced in the care of laboratory animals supervise all procedures involving animals and are responsible for ensuring appropriate consideration of their comfort, health, and humane treatment.

(c) Psychologists ensure that all individuals under their supervision who are using animals have received instruction in research methods and in the care, maintenance, and handling of the species being used, to the extent appropriate to their role. (See also Standard 2.05, Delegation of Work to Others.)

(d) Psychologists make reasonable efforts to minimize the discomfort, infection, illness, and pain of animal subjects.

(e) Psychologists use a procedure subjecting animals to pain, stress, or privation only when an alternative procedure is unavailable and the goal is justified by its prospective scientific, educational, or applied value.

(f) Psychologists perform surgical procedures under appropriate anesthesia and follow techniques to avoid infection and minimize pain during and after surgery.

(g) When it is appropriate that an animal's life be terminated, psychologists proceed rapidly, with an effort to minimize pain and in accordance with accepted procedures.

8.10 Reporting Research Results

(a) Psychologists do not fabricate data. (See also Standard 5.01a, Avoidance of False or Deceptive Statements.)

(b) If psychologists discover significant errors in their published data, they take reasonable steps to correct such errors in a correction, retraction, erratum, or other appropriate publication means.

8.11 Plagiarism

Psychologists do not present portions of another's work or data as their own, even if the other work or data source is cited occasionally.

8.12 Publication Credit

(a) Psychologists take responsibility and credit, in-

cluding authorship credit, only for work they have actually performed or to which they have substantially contributed. (See also Standard 8.12b, Publication Credit.)

(b) Principal authorship and other publication credits accurately reflect the relative scientific or professional contributions of the individuals involved, regardless of their relative status. Mere possession of an institutional position, such as department chair, does not justify authorship credit. Minor contributions to the research or to the writing for publications are acknowledged appropriately, such as in footnotes or in an introductory statement.

(c) Except under exceptional circumstances, a student is listed as principal author on any multiple-authored article that is substantially based on the student's doctoral dissertation. Faculty advisors discuss publication credit with students as early as feasible and throughout the research and publication process as appropriate. (See also Standard 8.12b, Publication Credit.)

8.13 Duplicate Publication of Data

Psychologists do not publish, as original data, data that have been previously published. This does not preclude republishing data when they are accompanied by proper acknowledgment.

8.14 Sharing Research Data for Verification

(a) After research results are published, psychologists do not withhold the data on which their conclusions are based from other competent professionals who seek to verify the substantive claims through reanalysis and who intend to use such data only for that purpose, provided that the confidentiality of the participants can be protected and unless legal rights concerning proprietary data preclude their release. This does not preclude psychologists from requiring that such individuals or groups be responsible for costs associated with the provision of such information.

(b) Psychologists who request data from other psychologists to verify the substantive claims through reanalysis may use shared data only for the declared purpose. Requesting psychologists obtain prior written agreement for all other uses of the data.

8.15 Reviewers

Psychologists who review material submitted for presentation, publication, grant, or research proposal review respect the confidentiality of and the proprietary rights in such information of those who submitted it.

9. Assessment

9.01 Bases for Assessments

(a) Psychologists base the opinions contained in their recommendations, reports, and diagnostic or evaluative statements, including forensic testimony, on informa-

BOARD OF PSYCHOLOGY

tion and techniques sufficient to substantiate their findings. (See also Standard 2.04, Bases for Scientific and Professional Judgments.)

(b) Except as noted in 9.01c, psychologists provide opinions of the psychological characteristics of individuals only after they have conducted an examination of the individuals adequate to support their statements or conclusions. When, despite reasonable efforts, such an examination is not practical, psychologists document the efforts they made and the result of those efforts, clarify the probable impact of their limited information on the reliability and validity of their opinions, and appropriately limit the nature and extent of their conclusions or recommendations. (See also Standards 2.01, Boundaries of Competence, and 9.06, Interpreting Assessment Results.)

(c) When psychologists conduct a record review or provide consultation or supervision and an individual examination is not warranted or necessary for the opinion, psychologists explain this and the sources of information on which they based their conclusions and recommendations.

9.02 Use of Assessments

(a) Psychologists administer, adapt, score, interpret, or use assessment techniques, interviews, tests, or instruments in a manner and for purposes that are appropriate in light of the research on or evidence of the usefulness and proper application of the techniques.

(b) Psychologists use assessment instruments whose validity and reliability have been established for use with members of the population tested. When such validity or reliability has not been established, psychologists describe the strengths and limitations of test results and interpretation.

(c) Psychologists use assessment methods that are appropriate to an individual's language preference and competence, unless the use of an alternative language is relevant to the assessment issues.

9.03 Informed Consent in Assessments

(a) Psychologists obtain informed consent for assessments, evaluations, or diagnostic services, as described in Standard 3.10, Informed Consent, except when (1) testing is mandated by law or governmental regulations; (2) informed consent is implied because testing is conducted as a routine educational, institutional, or organizational activity (e.g., when participants voluntarily agree to assessment when applying for a job); or (3) one purpose of the testing is to evaluate decisional capacity. Informed consent includes an explanation of the nature and purpose of the assessment, fees, involvement of third parties, and limits of confidentiality and sufficient opportunity for the client/patient to ask questions and receive answers.

(b) Psychologists inform persons with questionable

capacity to consent or for whom testing is mandated by law or governmental regulations about the nature and purpose of the proposed assessment services, using language that is reasonably understandable to the person being assessed.

(c) Psychologists using the services of an interpreter obtain informed consent from the client/patient to use that interpreter, ensure that confidentiality of test results and test security are maintained, and include in their recommendations, reports, and diagnostic or evaluative statements, including forensic testimony, discussion of any limitations on the data obtained. (See also Standards 2.05, Delegation of Work to Others; 4.01, Maintaining Confidentiality; 9.01, Bases for Assessments; 9.06, Interpreting Assessment Results; and 9.07, Assessment by Unqualified Persons.)

9.04 Release of Test Data

(a) The term *test data* refers to raw and scaled scores, client/patient responses to test questions or stimuli, and psychologists' notes and recordings concerning client/patient statements and behavior during an examination. Those portions of test materials that include client/patient responses are included in the definition of *test data*. Pursuant to a client/patient release, psychologists provide test data to the client/patient or other persons identified in the release. Psychologists may refrain from releasing test data to protect a client/patient or others from substantial harm or misuse or misrepresentation of the data or the test, recognizing that in many instances release of confidential information under these circumstances is regulated by law. (See also Standard 9.11, Maintaining Test Security.)

(b) In the absence of a client/patient release, psychologists provide test data only as required by law or court order.

9.05 Test Construction

Psychologists who develop tests and other assessment techniques use appropriate psychometric procedures and current scientific or professional knowledge for test design, standardization, validation, reduction or elimination of bias, and recommendations for use.

9.06 Interpreting Assessment Results

When interpreting assessment results, including automated interpretations, psychologists take into account the purpose of the assessment as well as the various test factors, test-taking abilities, and other characteristics of the person being assessed, such as situational, personal, linguistic, and cultural differences, that might affect psychologists' judgments or reduce the accuracy of their interpretations. They indicate any significant limitations of their interpretations. (See also Standards 2.01b and c, Boundaries of Competence, and 3.01, Unfair Discrimination.)

ETHICS CODE PRINCIPLES

9.07 Assessment by Unqualified Persons

Psychologists do not promote the use of psychological assessment techniques by unqualified persons, except when such use is conducted for training purposes with appropriate supervision. (See also Standard 2.05, Delegation of Work to Others.)

9.08 Obsolete Tests and Outdated Test Results

(a) Psychologists do not base their assessment or intervention decisions or recommendations on data or test results that are outdated for the current purpose.

(b) Psychologists do not base such decisions or recommendations on tests and measures that are obsolete and not useful for the current purpose.

9.09 Test Scoring and Interpretation Services

(a) Psychologists who offer assessment or scoring services to other professionals accurately describe the purpose, norms, validity, reliability, and applications of the procedures and any special qualifications applicable to their use.

(b) Psychologists select scoring and interpretation services (including automated services) on the basis of evidence of the validity of the program and procedures as well as on other appropriate considerations. (See also Standard 2.01b and c, Boundaries of Competence.)

(c) Psychologists retain responsibility for the appropriate application, interpretation, and use of assessment instruments, whether they score and interpret such tests themselves or use automated or other services.

9.10 Explaining Assessment Results

Regardless of whether the scoring and interpretation are done by psychologists, by employees or assistants, or by automated or other outside services, psychologists take reasonable steps to ensure that explanations of results are given to the individual or designated representative unless the nature of the relationship precludes provision of an explanation of results (such as in some organizational consulting, preemployment or security screenings, and forensic evaluations), and this fact has been clearly explained to the person being assessed in advance.

9.11 Maintaining Test Security

The term *test materials* refers to manuals, instruments, protocols, and test questions or stimuli and does not include *test data* as defined in Standard 9.04, Release of Test Data. Psychologists make reasonable efforts to maintain the integrity and security of test materials and other assessment techniques consistent with law and contractual obligations, and in a manner that permits adherence to this Ethics Code.

10. Therapy

10.01 Informed Consent to Therapy

(a) When obtaining informed consent to therapy as required in Standard 3.10, Informed Consent, psychologists inform clients/patients as early as is feasible in the therapeutic relationship about the nature and anticipated course of therapy, fees, involvement of third parties, and limits of confidentiality and provide sufficient opportunity for the client/patient to ask questions and receive answers. (See also Standards 4.02, Discussing the Limits of Confidentiality, and 6.04, Fees and Financial Arrangements.)

(b) When obtaining informed consent for treatment for which generally recognized techniques and procedures have not been established, psychologists inform their clients/patients of the developing nature of the treatment, the potential risks involved, alternative treatments that may be available, and the voluntary nature of their participation. (See also Standards 2.01e, Boundaries of Competence, and 3.10, Informed Consent.)

(c) When the therapist is a trainee and the legal responsibility for the treatment provided resides with the supervisor, the client/patient, as part of the informed consent procedure, is informed that the therapist is in training and is being supervised and is given the name of the supervisor.

10.02 Therapy Involving Couples or Families

(a) When psychologists agree to provide services to several persons who have a relationship (such as spouses, significant others, or parents and children), they take reasonable steps to clarify at the outset (1) which of the individuals are clients/patients and (2) the relationship the psychologist will have with each person. This clarification includes the psychologist's role and the probable uses of the services provided or the information obtained. (See also Standard 4.02, Discussing the Limits of Confidentiality.)

(b) If it becomes apparent that psychologists may be called on to perform potentially conflicting roles (such as family therapist and then witness for one party in divorce proceedings), psychologists take reasonable steps to clarify and modify, or withdraw from, roles appropriately. (See also Standard 3.05c, Multiple Relationships.)

10.03 Group Therapy

When psychologists provide services to several persons in a group setting, they describe at the outset the roles and responsibilities of all parties and the limits of confidentiality.

BOARD OF PSYCHOLOGY

10.04 Providing Therapy to Those Served by Others

In deciding whether to offer or provide services to those already receiving mental health services elsewhere, psychologists carefully consider the treatment issues and the potential client's/patient's welfare. Psychologists discuss these issues with the client/patient or another legally authorized person on behalf of the client/patient in order to minimize the risk of confusion and conflict, consult with the other service providers when appropriate, and proceed with caution and sensitivity to the therapeutic issues.

10.05 Sexual Intimacies with Current Therapy Clients/Patients

Psychologists do not engage in sexual intimacies with current therapy clients/patients.

10.06 Sexual Intimacies with Relatives or Significant Others of Current Therapy Clients/Patients

Psychologists do not engage in sexual intimacies with individuals they know to be close relatives, guardians, or significant others of current clients/patients. Psychologists do not terminate therapy to circumvent this standard.

10.07 Therapy with Former Sexual Partners

Psychologists do not accept as therapy clients/patients persons with whom they have engaged in sexual intimacies.

10.08 Sexual Intimacies with Former Therapy Clients/Patients

(a) Psychologists do not engage in sexual intimacies with former clients/patients for at least two years after cessation or termination of therapy.

(b) Psychologists do not engage in sexual intimacies with former clients/patients even after a two-year interval except in the most unusual circumstances. Psychologists who engage in such activity after the two years following cessation or termination of therapy and of having no sexual contact with the former client/patient bear the burden of demonstrating that there has been no exploitation, in light of all relevant factors, including (1) the amount of time that has passed since therapy terminated; (2) the nature, duration, and intensity of the therapy; (3) the circumstances of termination; (4) the client's/patient's personal history; (5) the client's/patient's current mental status; (6) the likelihood of adverse impact on the client/patient; and (7) any statements or actions made by the therapist during the course of therapy suggesting or inviting the possibility of a posttermination sexual or romantic relationship with the client/patient. (See also Standard 3.05, Multiple Relationships.)

10.09 Interruption of Therapy

When entering into employment or contractual relationships, psychologists make reasonable efforts to provide for orderly and appropriate resolution of responsibility for client/patient care in the event that the employment or contractual relationship ends, with paramount consideration given to the welfare of the client/patient. (See also Standard 3.12, Interruption of Psychological Services.)

10.10 Terminating Therapy

(a) Psychologists terminate therapy when it becomes reasonably clear that the client/patient no longer needs the service, is not likely to benefit, or is being harmed by continued service.

(b) Psychologists may terminate therapy when threatened or otherwise endangered by the client/patient or another person with whom the client/patient has a relationship.

(c) Except where precluded by the actions of clients/patients or third-party payors, prior to termination psychologists provide pretermination counseling and suggest alternative service providers as appropriate.

ETHICS CODE PRINCIPLES

AMENDMENTS TO THE 2002 “ETHICAL PRINCIPLES OF PSYCHOLOGISTS AND CODE OF CONDUCT” IN 2010 AND 2016

2010 Amendments

Under no circumstances may this standard be used to justify or defend violating human rights.~~

1.03 Conflicts Between Ethics and Organizational Demands

Under no circumstances may this standard be used to justify or defend violating human rights.

2016 Amendment

3.04 Avoiding Harm

(a) Psychologists take reasonable steps to avoid harming their clients/patients, students, supervisees, research participants, organizational clients, and others with whom they work, and to minimize harm where it is foreseeable and unavoidable.
