

MEMORANDUM

DATE	June 12, 2015
TO	Board of Psychology Members
FROM	 Jonathan Burke Administrative Services Coordinator
SUBJECT	AB 1374 (Levine) Submission of Supervised Professional Experience/ Fee (Business and Professions Code Sections 2903 and 2914(c))

Background:

This bill is Board-sponsored and addresses the way the Board receives Verification of Experience (VOE) forms and removes the “fee” language from the definition of a psychologist’s scope of practice. The bill accomplishes two major objectives:

The first objective is the streamlining of the process whereby the Board receives Verification of Experience forms during the application process. Currently the supervisor must submit the VOE Form after the supervised professional experience has been completed. This makes the Board a storing house for VOE forms some of which never have a subsequent application submitted. The marrying of separate VOE forms with the completed application is a time consuming and inefficient process.

The second objective is consumer protection. The removal of the “for a fee” language in our Practice Act allows the Board to meet its primary mission of consumer protection. When receiving psychological services, a consumer should be in no doubt that the services should meet the standards set forth by the Board.

AB 1374 passed through the Assembly Committee on Business and Professions on consent and the Assembly Committee on Appropriations on consent. The bill passed the Assembly on consent with 77 aye votes to zero noes. AB 773 passed to the Senate passed the Senate Business and Economic Development Committee on consent. The bill is now in the Senate Appropriations Committee and has not been scheduled for a hearing.

Action Requested:

The Policy and Advocacy Committee recommendation is to continue to support AB 1374 (Levine).

Attachment A is the bill language.

Attachment B is the Board’s Support Letter.

ASSEMBLY BILL

No. 1374

Introduced by Assembly Member Levine

February 27, 2015

An act to amend Sections 2903, 2909, 2910, 2913, and 2914 of the Business and Professions Code, and to amend Section 1010 of the Evidence Code, relating to psychologists.

LEGISLATIVE COUNSEL'S DIGEST

AB 1374, as amended, Levine. Psychologists: licensure.

The Psychology Licensing Law provides for the licensure and regulation of psychologists by the Board of Psychology. The law defines the practice of psychology as rendering or offering to render, for a fee, psychological services involving the application of psychological principles and methods, including the diagnosis, prevention, and treatment of psychological problems and emotional and mental disorders. The law prohibits unlicensed persons from practicing psychology, ~~and but~~ authorizes unlicensed persons, including credentialed psychometrists, who meet certain requirements and do not provide psychological services *to the public for a fee* ~~fee~~, to perform limited psychological functions or activities of a psychological nature, as specified. The law requires applicants for licensure to, among other things, engage in at least 2 years of supervised professional experience under the direction of a licensed psychologist and authorizes an applicant who obtains this experience in the United States to send verification of the experience directly to the board if the supervising *licensed* psychologist fails to submit the verification within 30 days of receiving a request from the applicant, as specified. The law requires the board to establish qualifications by regulation for supervising *licensed* psychologists and to review and approve applicants on a case-by-case basis. The law provides that a violation of any of its provisions is a misdemeanor.

This bill would ~~expand the definition of the practice of psychology, and narrow~~ *remove the reference to fees for services from the definition of the practice of psychology, thereby expanding that definition. The bill would further modify that definition to specify that the application of psychological principles and methods includes assessment, diagnosis, prevention, treatment, and intervention to increase effective functioning of individuals, groups, and organizations. The bill would revise the above-described* ~~authorization~~ *authorizations* for specified unlicensed persons to ~~provide psychological services, by removing references to a fee. perform limited psychological functions or activities of a psychological nature to prohibit services to the public, except as specified, without reference to a fee.~~ The bill would eliminate that authorization for credentialed psychometrists.

~~The bill would specify that the application of psychological principles and methods instead includes assessment, diagnosis, prevention, treatment, and intervention in order to increase effective functioning.~~ The bill would instead require ~~the supervisor~~ *a supervising licensed psychologist* to submit verification of the experience to the trainee in a manner prescribed by the board, and would authorize the board to establish alternative procedures for obtaining the necessary documentation if the ~~supervisor~~ *supervising licensed psychologist* fails to provide that verification. The bill would make that failure, absent good cause, unprofessional conduct. The bill would eliminate the requirement that the board review and approve applicants on a case-by-case basis. The bill would also make technical and conforming changes. By expanding the scope of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This requirement for coursework shall be satisfied by, and the board shall accept in satisfaction of the requirement, a certification from the chief academic officer of the educational institution from which the applicant graduated that the required coursework is included within the institution's required curriculum for graduation.

The Honorable Marc Levine
California State Assembly
State Capitol, Room 4153

**RE: AB 1374 (LEVINE) – PSYCHOLOGISTS: LICENSURE: REQUIREMENTS
AS AMENDED ON APRIL 6, 2015
- SPONSOR & SUPPORT**

Dear Assemblymember Levine:

The California Board of Psychology (Board) is sponsoring and **SUPPORTS AB 1374**, which will make the Board's receipt of application forms more efficient and remove the requirement of a "fee" to establish psychological service.

Business and Professions Code section 2914(c) currently states that verification of experience (VOE) forms be submitted to the Board by the applicant's supervisor. This has the result of the Board storing large quantities of VOEs that have not had the remaining parts of the licensing application submitted by the applicant. This creates a storage problem and generates extra workload as it becomes necessary to combine applications for licensure with the previously submitted VOE Forms. The result of this legislative change will be VOE Forms arriving with the rest of the licensing application. This will save storage space at the Board and reduce the time staff takes to locate and combine the various pieces of the application, thus reducing licensing timeframes.

Business and Professions Code section 2903, 2909, 2910, and 2913 define the practice of psychology as only occurring when a fee is charged for services. This means that volunteer, pro-bono, or free services could fall outside of a licensee's insurance, and as a result, disincentivize volunteer pro-bono work by licensed psychologists, making payment rather than services provided central to what constitutes the practice of psychology. The primary function of the Board is consumer protection and a consumer should be in no doubt that the psychological services he or she is receiving fall under the Board's jurisdiction.

The Board's mission is to advance quality psychological services for Californians by ensuring ethical and legal practice and supporting the evolution of the profession.

If you have any questions or concerns, please feel free to contact the Board's Executive Officer, Antonette Sorrick, at (916) 574-7113. Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Michael Erickson'.
