1:30 P.M. – OPEN SESSION

Agenda Item #5 –Review and Approve Proposed Amendments to Title 16, CCR, Section 1397.12 – Uniform Standards Related to Substance Abuse and Disciplinary Guidelines

Ms. Marks stated that the Board previously approved draft language to add new standards regarding substance abusing licensees. She stated that at that time, the Board included in that language some discretion with respect to the ultimate content of each of those standards. There have been opinions from the Legislative Counsel and the Office of the Attorney General on this issue. She stated that most recently, there is new opinion from the Department of Consumer Affairs (DCA) Legal Office stating essentially that if these standards are to be applied, they must be applied as written.

Ms. Marks provided the Board with three options to consider that would result in a finding that a licensee is a “substance-abusing licensee” within the meaning of the statute, and trigger the application of the uniform standards as follows:

Option 1 – creates rebuttable presumption that the licensee is a substance-abusing licensee. Once grounds are established that involve drugs or alcohol, the licensee is considered to be a substance abuser unless evidence rebuts that presumption (e.g. sobriety for a certain number of years);

Option 2 – allows for a determination to be made after a clinical diagnostic evaluation that the licensee is a substance-abusing licensee;

Option 3 – requires the Board to prove at hearing that the licensee is a substance abuser.

Dr. Cadow asked if this means that the Board has no discretion when a licensee is determined to be a substance abuser and that the uniform standards have to be applied. Ms. Marks replied that if it is determined that the licensee is a substance abuser, and then if the standards are to be applied, they must be applied as written. She clarified that not all standards are mandatory such as requiring a worksite monitor. However, the mandatory standards such as biological fluid testing and notification to the employer must be applied as written.

Mr. Marks indicated that in the proposed amendments, any changes to the disciplinary guidelines themselves where discretion was written in has been lined out, and some changes have been made to the rationale in the notes for each standard to indicate if that standard is mandatory or discretionary.

Ms. Marks stated that option #1 appears to be the most reasonable of the options in that it puts everyone on notice before a hearing that this is going to be the issue and that way the licensee can come in with information to rebut the presumption of being a substance abusing licensee. She stated that it then becomes only about the consequences once the licensee has been determined to be subject to discipline. She stated that option #2 relies on a clinical diagnostic evaluation which may create a lack of clarity. She stated that option #3 makes it an obligation of the board which may be extremely difficult to prove. She stated that the cleanest way to move forward is to create this presumption and give notice at same time to licensee that they have that burden at hearing. She clarified that these options do not impact the content of each standard once it is applied.

It was M(Evans)/S(Acquaye-Baddoo)/C to move forward with option #1, approve the proposed amendments to the language, set for hearing, and delegate the authority to the Executive Officer to make any non-substantive changes.

Vote: 5 – 0

It was M(Acquaye-Baddoo)/S(Evans)/C to approve the amendments in the disciplinary guidelines & uniform standards related to substance abusing licensees and delegate the authority to the Executive Officer to make any non-substantive changes.

Vote: 5 – 0

Agenda Item #6 – Review and Approve Enforcement Guidelines for Argument and Proceedings before the Board

Ms. Marks presented the Board with revised Guidelines for Argument in Proceedings Before the Board to update the timeframes to be more reasonable. She also recommended that guideline 3(c) related to reinstatements, be updated to specify that it is the People of the State of California that the Deputy Attorney General represents.

It was M(Cadow)/S(Evans)/C to approve the guidelines as amended.

Vote: 5 – 0

Agenda Item #9 – Reconvene Full Board for Committee Reports and Board Action

a) Continuing Education Committee Report

Strategic Plan Progress Report

Dr. Gallardo stated that the Board is still moving along to educate individual licensees regarding the new continuing education regulations that will become effective January 1, 2013. He stated that Mr. Kahane, Ms. Bayless and Ms. Russell were in attendance at the CPA Convention in April to field questions on this issue. He stated that CPA has been helping to educate licensees, which is greatly appreciated.

Continuing Education Statistics

Dr. Gallardo referred to the non-compliance statistics that were provided in the meeting packets. He stated that the non-compliance rate for February 2012 dropped down to four percent. He indicated that the MCEP Accrediting Agency has been sending out initial letters which has made a huge impact and helps Board staff who are limited in time and resources. He stated that the Board appreciates the collaboration.

Update Regarding Implementation of Continuing Education Regulations effective January 1, 2013, pursuant to Title 16, CCR Sections 1397.60-1397.71

Dr. Gallardo reported that an FAQ regarding what to anticipate and what licensees' responsibilities are under the new regulations are being sent out. He indicated that CPA is working on a system to help licensees track, store and maintain their hours in the event that the licensee is audited.

Discussion Regarding Continued Competency (ASPPB Recommendations for Continued Professional Development)

Dr. Gallardo stated that it is the Board's desire and intent to embrace ASPPB's continued development model. He stated that the model expands upon the continuing education model by endorsing expanding opportunities to enhance development and growth. He stated that the Board asked Jacqueline Horn, Ph.D. and ASPPB to draft regulatory language, and Dr. Horn brought this language to the Board. He stated that the Continuing Education Committee can use this language as a framework for discussion. He pointed out that the draft language is simply recommendations and guidelines for the Board to consider, and that when the Board moves forward with a regulation change on this issue, the draft language can be crafted to be most advantageous for California.

Discussion Regarding Requiring Mandatory Continuing Education in Multicultural Issues

Dr. Gallardo discussed some comments that were made on a listserv regarding a job posting looking for bilingual candidates. He stated that this posting resulted in many biased comments being made regarding multicultural issues. He stated that it is hard to see these types of comments and the Board has some work to do around this particular issue. He stated that there is a need and concern to ensure consumer protection.

Discussion and Consideration of Amendments to Continuing Education Regulations to Establish Criteria for Accepting Entities to Approve CE Providers and Courses

Dr. Gallardo stated that this issue is being deferred to the next Board meeting.

a) Board Operations

Mr. Kahane reported that all allotted staff have been hired and other positions are at the Department of Personnel Administration for approval. He stated that the licensing unit is at full staff and we expect licensing processing times to be reduced. He stated that we have not lost any current staff, however, we have been justifying the continuance of our retired annuitant positions and our justifications are still being reviewed. The administration is exercising extreme scrutiny in these positions and will only allow us to keep those retired annuitant positions that serve a mission-critical purpose.

He stated that the Board's move to DCA's headquarters building is going as planned, and we are scheduled to be physically moved the week of Labor Day.

b) Budget Update

Mr. Kahane reported that the Board continues to run with an acceptable reserve. He stated that we are still under the ongoing travel restrictions.

e) Discuss Upcoming Executive Officer Performance Review

Mr. Thomas stated that he will be working with the Board President to initiate this year's Executive Officer Performance Review. He indicated that it may be delayed due to the change in the Board's composition.

f) Discuss Upcoming Committee Assignments

Mr. Kahane stated that given the recent changes to the Board, the Board does not know who is going to be on the Board or what their particular interests will be as far as serving on committees. He instructed the Board members to let Dr. Erickson know which committees they are interested in being appointed to.

g) Other Informational Items

Mr. Kahane stated that the Board received approval to attend the CPA Convention. He stated that the Board made a presentation regarding myths and realities of the Board and that approximately 40 psychologists were in attendance. He stated that the presentation was well received and that many issues were clarified. He stated that since the Board was limited in the number of staff members who could attend, it was unable to bring the Board's Licensing Coordinator; therefore, many questions regarding the licensing process went unanswered.

Agenda Item #11 – Examination Committee

Strategic Plan Progress Report

Dr. Cadow stated that the Examination Committee's goals and objectives are ongoing. She stated that the Board decided at the last meeting to eliminate the CPSE and change it to an enhanced CPLEE.

Examination Statistics

Discuss English as a Second Language as a Basis for an Accommodation in Taking the Examination

Ms. Snyder reported that the Board currently allows accommodations of extended time for candidates who indicate that English is their second language and who have been in the country for less than ten years. She stated that this policy was adopted by the Board back in 1991. The Board requested Ms. Snyder to gather information from other states to see if other boards are granting accommodations based on English as a second language and to

provide the information to the Examination Committee for discussion at the next Board meeting.

Proposed Amendments to Examinations Regulations, Title 16, CCR Sections 1388, 1388.6, 1389 & 1392

Ms. Cadow referred to the proposed language to delete the CPSE and replace it with the CPLEE. Ms. Marks stated that section 1392 needs to be included in the proposal to delete the CPSE fee. Public Comment

None.

Agenda Item #12 – Contemporary & Emerging Issues Committee

Discussion Regarding Draft Telehealth Guidelines

Dr. Erickson reported that he has met twice with Mr. Kahane to discuss the process to develop telehealth guidelines. He indicated that there have been a couple of rough drafts, however, nothing is ready to be distributed at this time. He stated that the Board will be working with CPA and ASPPB to further develop the guidelines, and he anticipates having a draft ready by late summer.

Evaluation of Board Meeting Calendar and Meeting Format

Mr. Kahane stated that given the recent changes to the composition of the Board, he recommends having this discussion once we have a full Board. He stated that from a staff perspective, it is invaluable to have the additional time between Board meetings to resolve issues and conduct research on issues before the Board. Ms. Evans stated that the current schedule gives only one meeting to discuss legislation before it is acted upon. Dr. Erickson stated that it also has an impact on the regulatory process, but noted that it is too soon to evaluate. He stated that the Board should revisit the issue periodically. Mr. Kahane stated that the 2013 calendar will be on the agenda for the next Board meeting for the Board to review and approve.

Public Comment for Items not on the Agenda

None.

Agenda Item #13 – Enforcement Committee

Strategic Plan Progress Report

Ms. Acquaye-Baddoo deferred to Ms. Bayless. Ms. Bayless reported that the Enforcement Committee's goals and objectives are ongoing.

Enforcement Statistics

Ms. Bayless reported on the enforcement statistics. She noted increases in certain areas such as the total for overall decisions which is currently at 31 decisions to date which is up quite a bit from previous years. She clarified that this includes license surrenders and probation. She also stated that there have been 679 complaints filed to date and the number of citations issued are almost double from the prior year. She explained that this is due to violations by psychological assistants advertising independently from their

supervisors as well as unlicensed activity. She reported that the final statistics for fiscal year 2011/2012 will be provided at the next Board meeting.

Ms. Bayless referred to the performance measures included in the Board meeting packets. She indicated that the Board is below its target for intake and investigation. Although formal discipline is above the established target, the Board is filling positions to meet our goals.

Ms. Bayless also stated that the Board is currently recruiting experts in Northern California. She indicated that Board staff has been working with CPA in this effort. Once experts are recruited, she stated that the Board will conduct an expert training session.

Public Comment

None

Agenda Item #14 – Credentials Committee

Strategic Plan Progress Report

Ms. Snyder stated that the Credentials Committee's goals and objectives are ongoing. She stated that currently psychological assistant and registered psychologist applications are taking approximately four weeks and licensing applications are taking approximately 16 weeks.

Satisfaction Survey Results

Dr. Erickson reported that the Board is receiving positive results on the satisfaction surveys despite the backlog in application processing. He requested that staff draft a notice for the Board's website addressing the delays in processing time.

Update on the California Laws and Regulation Regarding Educational Requirements for Licensure to the National Educational Standards for Psychologist

Dr. Erickson reported that Mr. Kahane has written a letter to CPA requesting that CPA put on their agenda for consideration to amend the statute regarding the requirements for approved schools. Dr. Linder-Crow stated that she passed the letter along to CPA's government affairs chairperson and that they will be considering this in terms of timing and what will need to be done to be able to introduce legislation. She stated that she will consult with Dr. Faltz and will be having conversations with the government affairs steering committee. She stated the CPA appreciates the letter and will hopefully have an update at the next Board meeting. Dr. Linder-Crow also stated that this Board has not been as active legislatively as other boards, but the Board members may want to consider how actively involved the Board may want to be to support this. Dr. Cadow stated that she wants to underscore the importance of licensing standards and that those standards be kept at a national standard to ensure parity and consumer protection.

Proposed Amendments to Title 16, CCR Section 1387.4, Out-of-State Experience

Ms. Snyder reported that the issue of out-of-state experience has been brought to the Board's attention by applicants. She stated that the Board's statute allows applicants with foreign degrees to apply for licensure in California and that if their degree is deemed equivalent by a foreign credential evaluation service that is a member of the National Association of Credential Evaluation Services (NACES), the Board is able to accept their degree as meeting the licensure requirements. However, when they submit any experience accrued in a country outside the U.S. or Canada, their experience is denied because the hours do not meet the guidelines set forth in Business and Professions Section 2914 and

California Code of Regulations Section 1387. She stated that section 1387.4(c) gives them a false sense of hope that their hours can be accepted. She recommends deleting this subsection. Dr. Erickson agreed and stated that there was a clear consensus in the Credential Committee meeting, and he recommends moving forward with the proposed amendment. Ms. Snyder stated that this amendment can be incorporated into the current proposed amendments to Article 3 of the regulations.

Proposed Amendments to Title 16, CCR Sections 1381.9 & 1397.67, Renewal of License

Ms. Marks stated that this proposal would move the provisions for the cancellation of a license due to non-renewal within three years of the date of expiration from the continuing education regulations to section 1381.9 where it would make more sense. Dr. Erickson stated that the Credentials Committee agreed by consensus to move forward with this proposed amendment and to incorporate it into the current proposed amendments to Article 2.

Public Comment

Melodie Schaefer, Psy.D. stated that Division II of CPA asked her to bring to the Board's attention complaints that they have been getting regarding the amount of time it takes to receive examination results as well as the processing times for psychological assistant applications.

Agenda Item #15 – Outreach and Consumer Education Committee

Strategic Plan Progress Report

Dr. Cadow reported that the Outreach and Consumer Education Committee's goals and objectives are ongoing. She stated that in its meeting today, the committee emphasized the attendance of more licensees and consumers at Board meetings. She stated that the largest outreach event has been the CPA Convention which was an amazing experience. She stated that the presentation made by the Board was very much needed to change the perception of the board. She stated that it was extremely vital to have Board staff in attendance to answer questions regarding the recent fingerprint and continuing education regulations. She stated for the record the importance of the Board's presence at these types of meetings.

Dr. Cadow stated that ASPPB will be conducting a meeting in San Francisco in October, and she expressed the importance of the attendance of the Board's Executive Officer. Mr. Kahane stated that Dr. Erickson will be writing a letter in support of his attendance as a delegate, especially due to issue of telehealth and its direct impact on the Board's Strategic Plan.

Ms. Kassis reported that the proposed amendments to articles 1 – 6 were initially approved in November 2011. She stated that since then, there have been some non-substantive changes made, and that some of the sections are still getting cleaned up and amended. She stated that the out-of-state experience amendments and the renewal of license amendments will be incorporated as well.

Ms. Kassis asked the Board if the proposed amendments to the examination regulations which would eliminate the CPSE should be made a higher priority than these proposed changes. It was the consensus of the Board to move the proposed amendments to the examination regulations to priority two.

Agenda Item #17 – Public Comment on Items Not on the Agenda
