**Registered Psychological Assistants:
New Start-date in Calculating 72-month Registration Deadline**

A notice, dated September 20, 2016, was mailed to psychological assistants who are affected by the 72-month registration limitation period pursuant to Section 1391.1 of the California Code of Regulations. The objective of the notice was to inform psychological assistants of a change to the start-date in calculating the 72-month deadline for psychological assistant registrations.

As a result of technical barriers the Board has encountered, the date the Board will use to calculate the 72-month limit has changed from October 23, 2010 to October 23, 2011, one year after the implementation date of the regulation.

We apologize for any confusion this may have caused. Any questions regarding this change can be directed to the Board's Licensing Unit by calling (916) 574-7720, extension 2, or by e-mail at boplicensing@dca.ca.gov.
